Overview

Preface

This technical reference is provided to postsecondary schools participating in the William D. Ford Federal Direct Loan Program. It contains technical system information that allows you to either:

- Build your own system,
- Use a system provided by another organization (for example, a software provider or third-party servicer), or
- Use EDExpress (the software package provided by the U.S. Department of Education) in combination with your own system or vendor provided software.

The Direct Loan Technical Reference for 2001-2002 is organized into the following four sections:

Overview

- Preface
- Sources of Assistance
- Overview of Changes from 2000-2001 to 2001-2002
- Loan Origination Options
- System Options
- Items to Consider in Choosing a System Option
- PC Requirements

Custom

- Custom Layouts
- Custom Edits
- Custom System Requirements
- Implementation Guide

Combination

- Combination Layouts

Appendix

- Direct Loan Reports
- Measurement Tools and List Reports
- Miscellaneous
- Direct Loan Forms
- Rebuild Loan File Record Layouts

Important Telephone Numbers

The U.S. Department of Education (ED) Direct Loan Operations Staff is available to answer Direct Loan operations and procedure questions from 8:00 a.m. - 5:00 p.m. (ET), Monday through Friday. They can be reached at:

202/708-9951

Questions regarding this technical reference should be directed to CPS Customer Service at:

800/330-5947

Questions regarding the Loan Origination Center (LOC) Implementation Guide should be directed to the LOC at:

800/848-0978

See the section, Sources of Assistance, for additional help lines.

All schools should read the Overview section of this technical reference. It contains important phone numbers to call for assistance as well as information to help you choose how you want to participate electronically in the program.

A Table of Contents and Index are provided for your reference.

System Options

The U.S. Department of Education gives you maximum flexibility in fashioning a system solution that best meets your institution's needs and loan origination option. There are three system options:

1. Custom System

You have the option of developing a system to support all the necessary tasks required to participate in the William D. Ford Federal Direct Loan program, purchasing a software package from a third-party or contracting a third-party servicer.

If you choose to use a custom system, read Custom Sections 1, 2, 3, 4, and the Appendix thoroughly. It provides you with essential record layouts, system edits, and system requirements pertinent to building your own system. An Implementation Guide for 2001-2002 is provided in Section 4.

2. Combination EDEExpress/Custom System

You can choose to use a portion of the functions provided by EDEExpress in conjunction with external systems or software from another vendor. EDEExpress allows you to import data captured in other on-campus systems (for example, a financial aid packaging system). Also, it enables you to export data from the EDEExpress database needed by other on-campus systems (such as the institution's business office).

If you choose to use a combination of systems, read the Combination Sections 5, 6, 7, and the Appendices thoroughly. These sections provide you with essential record layouts, system edits, and system requirements pertinent to using a combination of systems.

3. EDEExpress

EDEExpress is a comprehensive financial aid management system provided at no cost by the U.S. Department of Education. It is a student-based system that allows you to perform functions, such as processing Federal application data, including loading and printing Institutional Student Information Records (ISIRs) received electronically from the Central Processing System (CPS). It also computes student award packages; maintains funds; tracks file documents; generates reports; establishes loan origination records; prints promissory notes; manages disbursement data; reconciles funds; and reports Pell Grant payment data. EDEExpress supports all the necessary tasks required to participate in the William D. Ford Federal Direct Loan Program.

Overview of Changes from 2000-2001 to 2001-2002

The table below provides an overview of Direct Loan changes made from 2000-2001 to 2001-2002. The first column provides a description of each change. The descriptions are organized by the following four categories: Removed, Added, Modified, and Replaced. The second column indicates if the change affects EDEExpress or Combination Systems. The third column indicates if the change affects Custom Systems or Mainframe Systems.

Description	EDEExpress/ Combination Systems	Custom/ Mainframe Systems
Removed		
Professional Judgement field from the Loan tab within EDEExpress.	X	
Loan Servicer record layout and the Loan Servicer code within EDEExpress. The LOC is no longer sending this data.	X	X
Refund Code and Refund Date from the EDEExpress Disbursement tab and External Export record layout.	X	
Added		
50-character field for borrower e-mail address to the Loan Origination record layout and to EDEExpress. The e-mail address is a changeable field.	X	X
Disclosure Statement Print Indicator of “Z” to reprint a Disclosure Statement at the LOC.	X	X
Change process for Loan Origination Records via the LOC Web site. The LOC Web site processes using the same edits used to process electronically transmitted Change records. The school has the option to request from the LOC Web site a listing of the changes.	X	X
First Disbursement Flag of “F” to the Disbursement Record to indicate a first disbursement if it is not disbursement number 01 or a change to the first disbursement flag, “C.”	X	X

Description	EExpress/ Combination Systems	Custom/ Mainframe Systems
Added (Continued)		
Up-front interest rebate to the disbursement calculations, the Disclosure Statement, EExpress, edits and appropriate reports. An interest rebate field is added to the Full Loan Origination, the Disbursement/Disbursement Acknowledgement, Direct Loan School Account Statement (DLSAS), Optional Loan Detail Exception, and the External Export record layouts. New Change Field Transmit Numbers and Combination System Change Field Numbers are added for Interest Rebate Percentage.	X	X
Indicator to Direct Loan System Setup to mark whether a school enters disbursements and adjustments using gross amounts or net amounts. This change simplifies the Disbursement Action Types stored in EExpress to D – Disbursement, A - Adjusted Disbursement Amount, and Q - Adjusted Disbursement Date.	X	
Option to EExpress to record adjustments to disbursements by entering the Net Disbursement Adjustment amount which may be positive or negative. EExpress will calculate the Gross Disbursement, Fee, Interest Rebate, and Net Disbursement amounts.	X	
External Import Change field number for Promissory Note/Master Promissory Note Signed.	X	
Indicator to Direct Loan System Setup to mark whether a school is processing MPNs as a multi-year processing school or a single-year processing school. Schools indicating multi-year processing can import the MPN Indicator on the ISIR into EExpress.	X	
Loan Amount Approved, Loan Status and MPN/Promissory Note Status to display on the EExpress Disbursement tab as well as the EExpress Loan tab.	X	
Option to select the inactive loan flag in EExpress. EExpress adjusts the Loan Amount Approved and all anticipated disbursements to zero. Appropriate Change Records are generated for export to the LOC.	X	

Description	EExpress/ Combination Systems	Custom/ Mainframe Systems
Modified		
HEAL terminology to read Health Profession Programs.	X	X
Student's College Grade Level to a one-byte field using updated codes 0-7. (Note: These codes are different from previous years, and the codes from previous years have not changed.)	X	X
Master Promissory Note ID on the Loan Origination acknowledgement to a Yes/No Indicator.	X	X
Loan Amount Requested to a PLUS only field. Therefore, Loan Amount Requested is removed for subsidized/unsubsidized loans. This affects the Loan Origination record layout and Express Loan tab.	X	X
Field length for Permanent and Local Address to 35 bytes. This affects the Loan Origination record layout, Change Field Transmit Numbers and fields within EExpress.	X	X
Field length for First Name from 9 to 12 bytes. This affects the Loan Origination record layout, Change Field Transmit Number and fields within EExpress.	X	X
Change Record Layout to accommodate the 50-byte e-mail address.	X	X
Disclosure Statement to print Gross Loan Amount, Loan Fee Amount, Interest Rebate Amount, and Net Loan Amount. Only the Anticipated Net Disbursement Amount and Date are printed for each individual disbursement. EExpress can now print up to 20 anticipated disbursements on the Disclosure Statement.	X	X
Disclosure Statement language to more adequately explain the cancellation process to borrowers.	X	X
Disclosure Statement to clarify and emphasize that this is a notice of planned anticipated disbursements and not the actual disbursements. In addition, more plain language is applied and minor formatting is done to reduce confusion and aid in understanding.	X	X

Description	EExpress/ Combination Systems	Custom/ Mainframe Systems
Modified (Continued)		
EExpress Measurement Tool reports to better serve the needs of the schools.	X	
The EExpress Disbursement tab to always display the anticipated and actual disbursement totals at bottom of disbursement grids.	X	
Loan tab to display appropriate fields in processing order for PLUS loans versus subsidized/unsubsidized loans. Thus, all MPN/PLUS Promissory Note Statuses are combined into one field on the EExpress Loan tab, either MPN Status or PLUS Promissory Note Status.	X	X
Replaced		
Borrower Signed and Student Signed flag with the status of "S" – Signed and the MPN Exists field with the status of "T" – Assumes MPN on file at LOC.	X	

Loan Origination Options

The following loan origination options are available to your institution under the Direct Loan Program:

- Option 1: Option 1 schools are responsible for all the functions associated with the Direct Loan Program except for requesting drawdowns. The Loan Origination Center performs the drawdown requests. Specific borrowers are identified for each drawdown request on the Anticipated Disbursement Listing. The Actual Disbursement Roster displays the amounts a school credits to a borrower's account.
- Option 2: Option 2 schools are responsible for performing all functions associated with the Direct Loan Program.
- Standard Origination: Standard Origination schools are responsible for performing all functions associated with the Direct Loan Program except for requesting drawdowns (see Option 1) and printing promissory notes. The LOC prints promissory notes and forwards the notes to the borrowers. The borrowers return promissory notes directly to the LOC.

Items to Consider in Choosing a System Option

- Loan Level Volume: How large is the loan volume at your institution?
- Available Resources: How much of the following resources are available for the Direct Loan system: staff, data processing resources, equipment, and money?
- Existing Systems: What existing systems are in place and how easy is it to integrate the Direct Loan system?
- Time Constraints: Is there enough time available for a Direct Loan system to be developed?
- Campus Communications: Are there existing means of communication between offices involved in the Direct Loan system? These offices could include financial aid, registrar, and bursars.
- Video: *Implementing a Custom Direct Loan Processing System.* This video examines the options available for implementing the Direct Loan Program. This video is available by calling the Direct Loan Operations Staff or 800/4FED-AID (800/433-3243).

If you participate in the Electronic Access of Information with EDEExpress, the Department of Education provides personal computer (PC) software designed to manage financial aid processing, including the Direct Loan Program. Modules in EDEExpress include Application Processing, Packaging, Direct Loan, and Pell Payments. The remainder of this section describes the hardware and interface requirements of the Combination EDEExpress/Custom System option.

PC Requirements

For the highest efficiency and processing speeds, the minimum recommended configuration should be followed. If you are planning an equipment purchase to participate in the Direct Loan Program, the following list describes the minimum required configuration:

- IBM or fully IBM-compatible PC with a Pentium 200 MHz processor or better.
- 64 MB total memory or more.
- 4.0 GB SCSI hard drive.
- 300 MB of available hard disk space (depending on the functions you use and how many records you store in your database).
- 56 K analog modem K flex or X2 technology.
- Dedicated phone line.
- 3.5"/1.44 MB high-density floppy disk drive, supporting 3.5" high-density double-sided diskettes.
- Windows 95 keyboard (for example, IBM Enhanced 101 or 102 Keyboard).
- Microsoft compatible mouse.
- Laser printer capable of printing on standard paper (8 ½" x 11").
- 32-bit operating system (Microsoft Windows 95, Microsoft Windows 98, Windows 2000, or Microsoft Windows NT 4.0).
- Monitor and video card capable of Super Video Graphics Adapter (SVGA) (800 x 600) resolution (small fonts only).
- EDEExpress is designed in SVGA. You may use a higher resolution than SVGA at your own discretion.
- Internet Service Provider (ISP) or connection to the Internet. A connection to the Internet is necessary to access the "Info for Financial Aid Professionals" Web site (www.ifap.ed.gov). It is also necessary for submission of the Application for Approval to Participate in Federal Student Aid Programs (recertification, reinstatement, and changes), and required in order to download the software from the Internet.

Optional Items to Consider

The following items are recommended as additional tools to assist you in managing your financial aid data:

- 12X CD-ROM drive with sound board for other future software distributions.
- Backup system (for example, a tape backup system) to store your data.
- Power supply backup or surge protectors.
- Phone line surge protector.
- Virus scan software.

Note: A backup of EDEExpress should be performed on a regular basis. Make sure your backup can be restored. If you are running EDEExpress on a local area network (LAN), refer to the EDEExpress Installation Guide for LAN Hardware and Software recommendations.

Interface Requirements

EDEExpress interfaces with other ED-provided software modules and systems resident on the same PC, with other systems at the institution, and via the Student Aid Internet Gateway (SAIG).

Interface with other ED-provided Software Systems on PC

EDEExpress includes modules for Application Processing, Packaging, Direct Loan, and Pell. You can import ISIRs from the Application Processing module to create loan origination records. However, each record requires manual entry (or import change) of the loan amount approved and other components required to originate the loan BEFORE the record can be originated. Alternatively, you can import packaged student records from the Packaging module of EDEExpress to create loan origination records. EDEExpress uses the award amounts calculated in the Packaging module to establish the loan records in the Direct Loan module.

The Student Aid Internet Gateway (SAIG) communications software, EDconn32, can coexist on the same PC with EDEExpress. EDconn32 is a Windows software package that Direct Loan participants use to transmit data across the network to the Direct Loan systems. EDconn32 is compatible with the LAN; however, care should be taken when using EDconn32 in a LAN environment because of its lack of file and record locking capabilities.

Interface with other Software Systems on Campus

Your other institutional computer systems, used for registration or accounting, are potential providers of data to the EDEExpress Direct Loan Software. EDEExpress is designed to import data captured in these other systems that has been reformatted according to specifications provided in this technical reference.

Likewise, data in EDEExpress is of potential use to other on-campus systems. Therefore, the system provides you with the ability to export data. File formats for the export files are provided so your institutional systems can be modified.

Custom Layouts

The following section covers the custom record layouts that are used for sending and receiving Direct Loan data to and from the Loan Origination Center (LOC). The layouts are designed to help the user know what is required in each file.

Please note the increased file lengths for the following files:

- Full Loan (Subsidized/Unsubsidized/PLUS) Origination Record
- Loan Origination Change/Loan Origination Change Acknowledgement

Summary of Direct Loan Message Classes

The following tables provide a summary of the Direct Loan message classes. The first is sorted by message class, and the second is sorted by data description.

Direct Loan School Account Statement (DLSAS)—Import from Loan Origination Center

This file contains detailed records of the information that is to be received from the LOC. The data is presented in the following six sections:

- Section I: Year-To-Date Cash Summary
- Section II: Year-To-Date Disbursement Summary by Loan Type
- Section III: Monthly Cash Summary
- Section IV: Monthly Disbursement Summary by Loan Type
- Section V: Cash Detail
- Section VI: Loan Detail (Optional)

Note: For Cash Receipts (drawdowns) and Excess Cash, the Grant Administration and Payment System (GAPS) is accepting pennies. However, these amounts are truncated on the DLSAS.

The **DLSAS** contains the following sections in the order listed below:

- a) Section I: Year-To-Date Cash Summary (Statement Record Type = “T” and Cash Summary Type = “Y1”)
- b) Section II: Year-To-Date Disbursement Summary (Statement Record Type = “Y”)
 1. Year-To-Date Disbursement Summary Total for Subsidized Loans (Disbursement Summary Type = “YS”)
 2. Year-To-Date Disbursement Summary Total for Unsubsidized Loans (Disbursement Summary Type = “YU”)
 3. Year-To-Date Disbursement Summary Total for PLUS Loans (Disbursement Summary Type = “YP”)
 4. Year-To-Date Disbursement Summary Total for Subsidized/Unsubsidized/PLUS Loans (Disbursement Summary Type = “YT”)
- c) Section III: Monthly Cash Summary (Statement Record Type = “T” and Cash Summary Type = “T1”)

- d) Section IV: Monthly Disbursement Summary (Statement Record Type = “M”)
 - 1. Monthly Disbursement Summary Total for Subsidized Loans (Disbursement Summary Type = “MS”)
 - 2. Monthly Disbursement Summary Total for Unsubsidized Loans (Disbursement Summary Type = “MU”)
 - 3. Monthly Disbursement Summary Total for PLUS Loans (Disbursement Summary Type = “MP”)
 - 4. Monthly Disbursement Summary Total for Subsidized/Unsubsidized/PLUS Loans (Disbursement Summary Type = “MT”)
- e) Section V: Cash Detail (Statement Record Type = “D”)
- f) Section VI: Loan Detail (Statement Record Type = “L”)

**Indicates a manual edit

Promissory Note Reject codes are mainly handled through a manual process. However, reject codes "01" and "S" could be returned on the promissory note acknowledgement. Once the Promissory Notes are received in the LOC mailroom, they are manually inspected for missing or incorrect information. A generic checklist is used. If it is determined that there are errors or that information is missing, then the checklist will be marked in the appropriate blank for the error and returned to the school or borrower (Standard Origination schools). A copy of the Promissory Note Manual Reject Checklist is included in the appendix.

Custom System Requirements

Processing Direct Loan Data ^{3/4} Direct Loan Processing Cycles

Direct Loan processing relies on electronic access of information. Schools exchange loan information with the Loan Origination Center (LOC) routinely. Schools should develop data production and transmission schedules around the various Direct Loan processing cycles. Batch processing of Direct Loan data occurs by data type. The following are the major processing cycles:

- Full Loan Origination Records
- Loan Origination Change Records
- Promissory Notes
- Request and Receipt of Cash
- Disbursement Records

The Direct Loan program affords schools maximum flexibility in the timing and content of their transmissions. However, certain rules apply. The LOC processes school data via the Student Aid Internet Gateway (SAIG), daily, in the following order:

1. Full Loan Origination Records
2. Loan Origination Change Records
3. Disbursement Records

Note: Schools send batches of promissory notes with paper shipping manifests to the LOC.

Generally, the LOC retrieves data from the SAIG at approximately 8 p.m. (ET). Depending on required turnaround, the LOC returns processed data to the SAIG at approximately 8 a.m. (ET).

New for 2001–2002: The LOC runs up to two additional batch cycles during the day for data received from schools such as origination, change, and disbursement records.

Schools are not required to submit all batch types to the LOC at once. However, proper processing order must be considered when developing a transmission schedule. On acceptance of the Full Loan Origination Record, the LOC establishes the unique 21-character Loan Identification (Loan ID) and all loan information pertaining to that Full Loan Origination Record is stored on the LOC's database. If a Full Loan Origination Record is rejected by the LOC, no loan information received on the Full Loan Origination Record is stored on the LOC's database.

With the exception of Promissory Notes, the LOC rejects loan changes or disbursement records for a Loan ID for which an acceptable Full Loan Origination Record has not been transmitted to the LOC. The LOC does not retain any information on rejected records.

However, when an acceptable Full Loan Origination Record is not transmitted to the LOC, the LOC can accept and maintain a Promissory Note for the Loan ID. The Promissory Note is acknowledged to the school with a pending status. When the Full Loan Origination Record is submitted and accepted, the LOC returns a promissory note acknowledgement for the pending promissory note.

What Is a Booked Loan?

The goal of all Direct Loan processing is to book loans with the LOC. A “booked” loan implies that there is a binding obligation between the borrower and the U.S. Department of Education for the borrower to repay the loan. A loan is considered “booked” when the LOC has accepted the Full Loan Origination record, the Promissory Note, the first actual disbursement record, and an accepted credit check decision for a PLUS loan. Subsequent disbursement records are booked as they are accepted by the LOC. This means the LOC has accepted them and transmitted them to the Direct Loan Servicing Center (DLSC).

At the time the LOC books a disbursement or an adjusted disbursement amount, a separate booking notification is generated and forwarded to the schools for each disbursement transaction. The booking notification simplifies the reconciliation process between the schools and the LOC. The booking notification contains the disbursement booking date for each disbursement and the LOC’s total net booked loan amount. This booking date is the date the LOC passes the booked disbursement or adjusted disbursement amount to the DLSC.

- The Disbursement Acknowledgement Message Class—DIOD02OP/Batch Type #B—is used to transmit the Booking Notification to the schools.
- Disbursement Activity types for the booking notification are:
 - **L** for the booking disbursement
 - **M** for the booking adjustment

New for 2001–2002: The Loan Servicer acknowledgement record (Message Class DISV##OP/Batch type SV) sent to schools when loans are booked is eliminated. This transaction is no longer necessary since there is only one Servicing center.

Batch Processing and Batch Identifiers (Batch IDs)

All data exchanged between schools and the LOC must be in the required record layout format. Data must be submitted to the LOC in groups of like data types. Each data type has a specific record layout, that is, Full Loan Origination Records, Disbursement Records, and so forth. Therefore each record set is considered a separate batch type. Every batch must contain a header and trailer record (see Custom Layouts). The batch header contains a Batch ID that is unique to the export batch.

Schools should track Batch IDs on their systems. It is helpful to store the Batch IDs at a record level and at a batch level for each submission.

All Batch IDs transmitted to the LOC must have the same format and be 23 characters long. The first two characters are the Batch Type which indicates the type of data included in the batch. The next character is the Cycle Indicator, which indicates the program year of the data included in the batch. The next six characters are the School Code, which indicates the Direct Loan School Number of the school sending the batch. The next eight characters are the Date Batch Created, which indicates the date on which the school created the batch. The last six characters are the Time Batch Created, which indicates the time on which the school created the batch.

The Batch Integrity Rule

The LOC returns an acknowledgement record for every Full Loan Origination Record, Disbursement Record, and Loan Origination Change Record that is submitted by the school. If a school submits a batch with 1,000 Full Loan Origination Records, the LOC returns an acknowledgement file corresponding to only those 1,000 Full Loan Origination Records. The acknowledgement file always contains the same Batch ID originally submitted by the schools. This rule applies for Full Loan Origination Records, Loan Origination Change Records, and Disbursement Records initiated by the school.

To expedite school processing, the LOC acknowledges Promissory Notes as they are accepted. The electronic promissory note manifest has been eliminated; however, the LOC continues to return an electronic file (DIPA02OP) containing the acknowledgements of all Promissory Notes. Unlike other batch types, batch integrity is not maintained by the LOC for Promissory Notes. Acknowledgements do not match one to one with paper manifests sent by the school.

Full Loan Origination Records

The Direct Loan Program requires schools participating in the Direct Loan Program to store loan data and submit Full Loan (Subsidized/Unsubsidized/PLUS) Origination Records to the LOC. Schools can establish a Direct Subsidized Loan and a Direct Unsubsidized Loan based on the student's eligibility. Participating schools may include a Direct PLUS Promissory Note/Application for signature in award packages for the parents or guardians of eligible students. Once the Full Loan PLUS Origination Record is transmitted and accepted by the LOC, a credit check is performed on the parent or guardian borrower.

Schools create one loan record and a unique Loan ID for each new loan. For example, if a borrower has one Direct Subsidized Loan and one Direct Unsubsidized Loan, the school maintains two unique Loan IDs. The Full Loan (Subsidized/Unsubsidized/PLUS) Origination Record (DESF02IN/DEPF02IN) is created from student/borrower demographic data and anticipated disbursement data.

When creating Full Loan Origination Records, it is strongly recommended that all custom users create loan sequence numbers (the last 3 digits of the 21-character Loan ID) beginning with 001, then 002, and so forth and not begin with 101.

Submitting Full Loan Origination Records

The school transmits a Full Loan (Subsidized/Unsubsidized/PLUS) Origination Record to the LOC for every loan it originates whether or not the school chooses to print the loan's Promissory Note or have the LOC print it. If the school requests that the LOC print promissory notes, the request is indicated in the Full Loan Origination Record. If the school prints the Promissory Note, the Full Loan Origination Record can be transmitted to the LOC before or after the student signs the Promissory Note. For Standard Origination schools, the LOC prints all Promissory Notes.

Full Loan (Subsidized/Unsubsidized) Origination Records are transmitted to the LOC under the message class DESF02IN. Full Loan PLUS Origination Records are transmitted to the LOC under the message class DEPF02IN.

Schools can perform credit checks for PLUS borrowers at their school by using the Loan Origination (LO) Online Web Application. Schools have the option to submit credit check requests via the LO Online Web Application or to submit Full Loan PLUS Origination Records to the LOC for the LOC to perform the credit check request.

Schools are given the capability to receive a credit decision through the interactive LO Online Web Application. The LO Online Web Application accesses an approved credit bureau and returns a credit acknowledgement to the school. The LO Online Web Application displays the credit decision of approved (accepted) or denied (failed). The reason for a failed credit decision is not displayed.

When the school receives a failed credit decision from the LO Online Web Application, it has the option to either submit the Full Loan PLUS Origination Record to the LOC (so that the LOC can send an endorser form to the borrower) or to originate the additional unsubsidized loan for the student. The Full Loan PLUS Origination Record must be sent to the LOC if the borrower requests an endorser.

The credit decision received from the LO Online Web Application does not have to be forwarded to the LOC. The LOC receives a simultaneous response from the credit bureau at the time the school performs the credit check. The LOC stores the credit decision and sends necessary letters to the borrowers.

Note: Certification must be kept at the school, indicating that the borrower has authorized the school to perform the credit check and also indicating whether or not the borrower wants an endorser in the case of a failed credit decision.

Receiving Full Loan Origination Acknowledgements

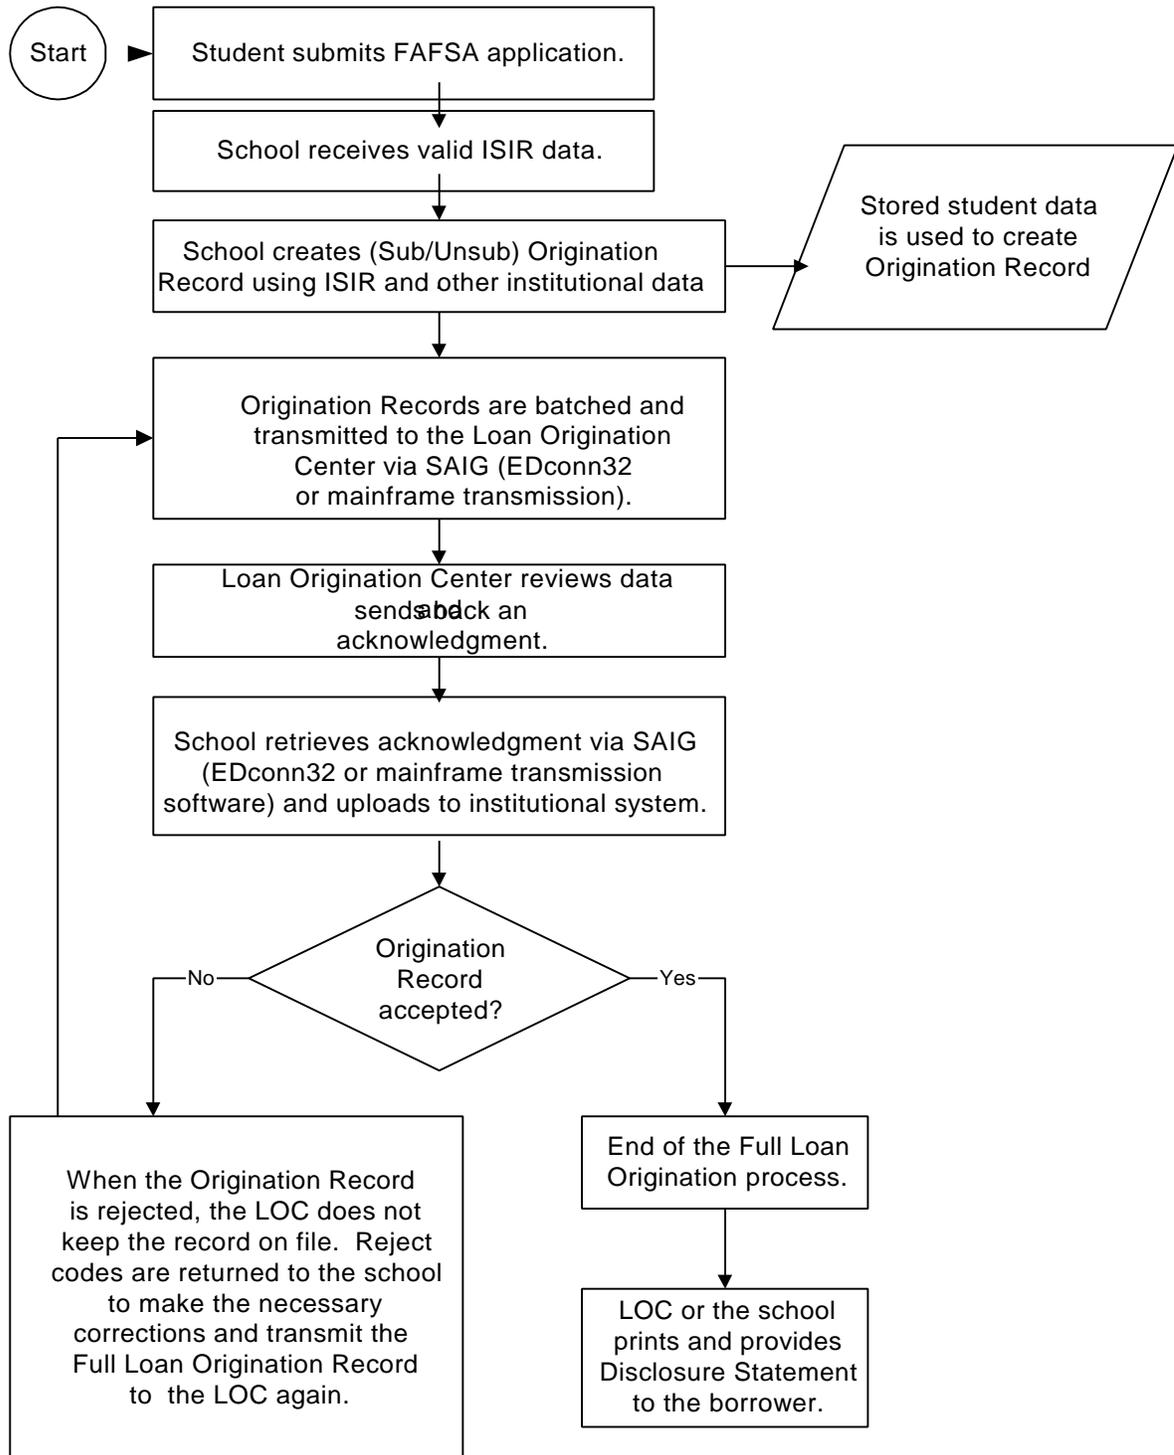

The LOC edits the Full Loan (Subsidized/Unsubsidized/PLUS) Origination Record to ensure it passes the editing requirements that have been established by the U.S. Department of Education. Full Loan (Subsidized/Unsubsidized) Origination Record Acknowledgements are transmitted to the schools under the message class DISF02OP. Full Loan PLUS Origination Record Acknowledgements are transmitted to the schools under the message class DIPF02IN. The acknowledgement files transmitted to the schools indicate the status of each Full Loan Origination Record (Field #4) and up to five reject reasons (Field #5) for each Full Loan Origination Record. For Full Loan PLUS Origination Records, the acknowledgement record also indicates whether the credit check is accepted or denied.

After the Full Loan Origination Record is accepted and acknowledged by the LOC, it should not be transmitted to the LOC again. This causes a duplicate Loan ID rejection. If updates need to be made to the loan information on the record, a Loan Origination Change Record must be submitted to the LOC.

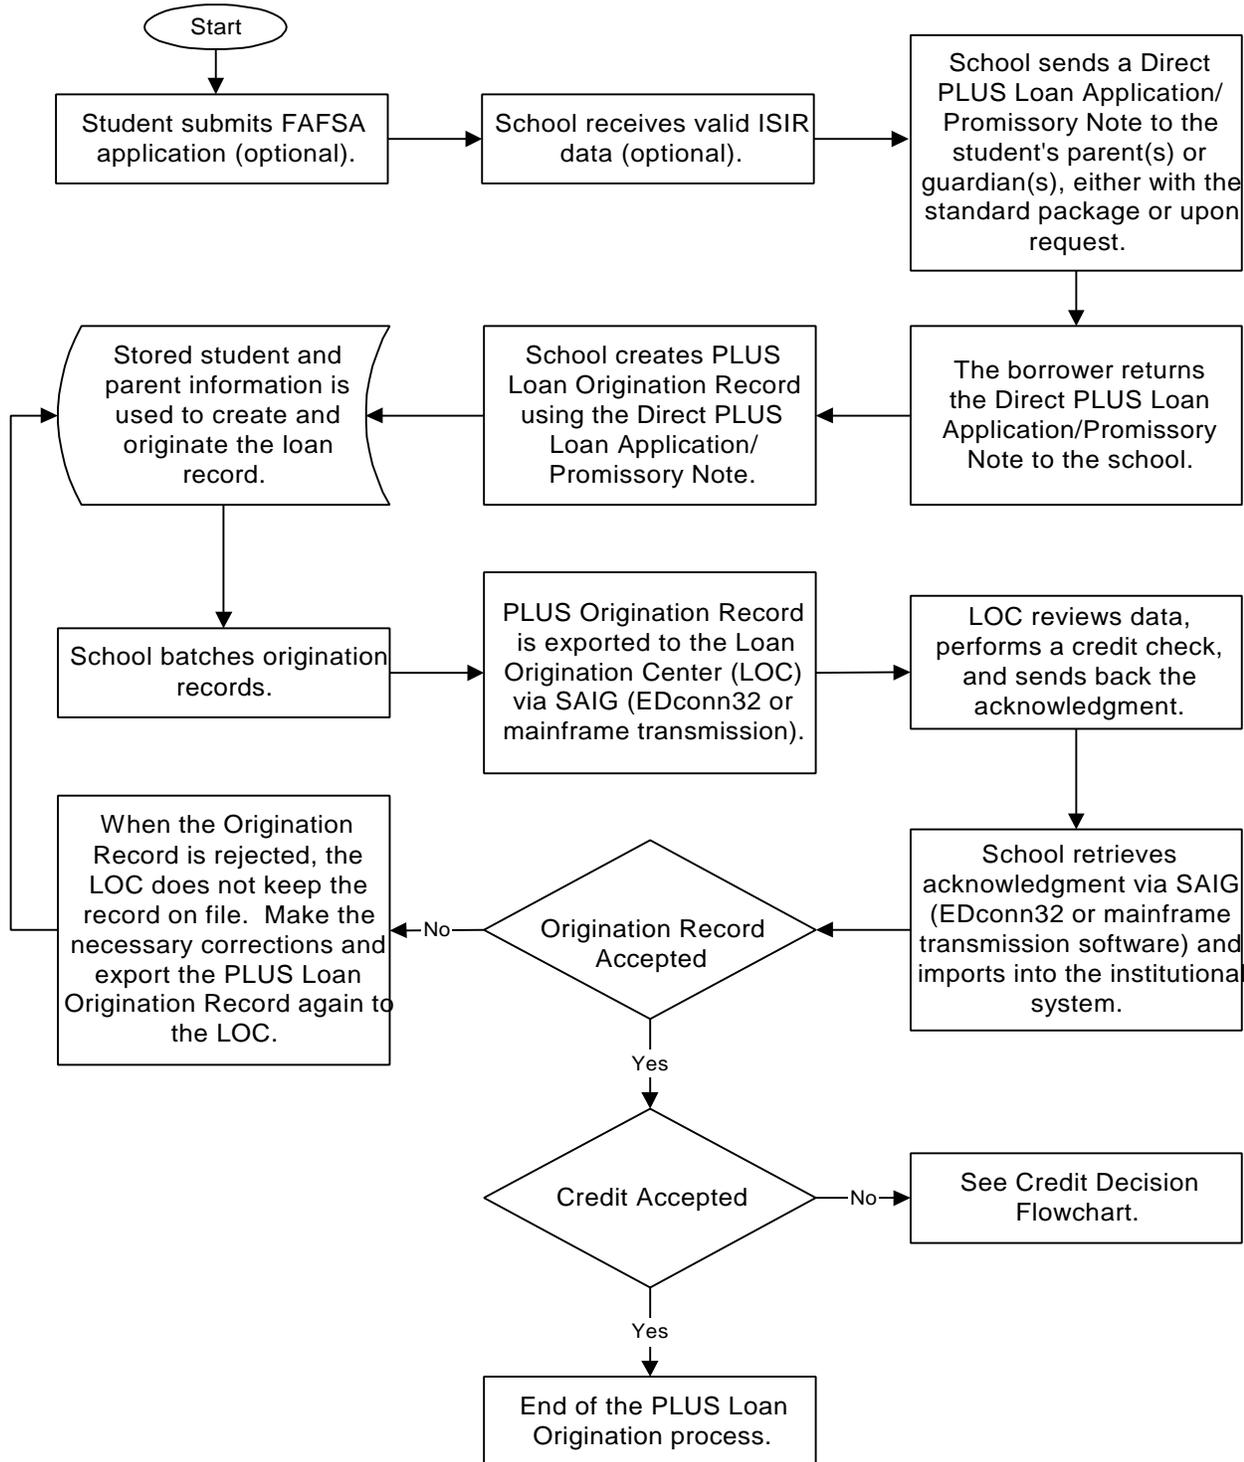

When a Full Loan Origination Record is rejected by the LOC, the school needs to re-submit the entire Full Loan Origination Record with the corrected information under message class (DESF02IN/DEPF02IN).

New for 2001–2002: To reduce turn around time for acknowledging Full Loan PLUS Origination Records, the LOC processes the credit check and acknowledges the PLUS loans within 24 hours of receipt at the LOC. If a credit decision other than accepted or denied is received, the LOC acknowledges the accepted PLUS loan with a pending credit check status.

Processing PLUS Credit Decisions Update (Override)

If the credit is originally denied on a Full PLUS Loan Origination Record and the borrower requests a subsequent credit check, an override, or submits an endorser addendum, the LOC returns a DIPC02OP credit decision update to the school. The Credit Decision indicates the result of PLUS loan credit checks on the parent borrower or endorser. For approved applicants, the School can proceed in disbursing funds to the student's account. The LOC sends further information and instructions directly to those applicants not approved for a PLUS loan on the basis of credit checks. The LOC has the option to override the credit decision after an initial denial. The PLUS credit checks can be updated at any time on the basis of the borrower submitting supporting documentation to the LOC or credit reporting agency. Therefore, schools processing PLUS loans should expect to receive updated credit decisions in this acknowledgement file at any time from the LOC.

PLUS Credit Decision Update (Override) Process Flowchart

Loan Origination Change Record

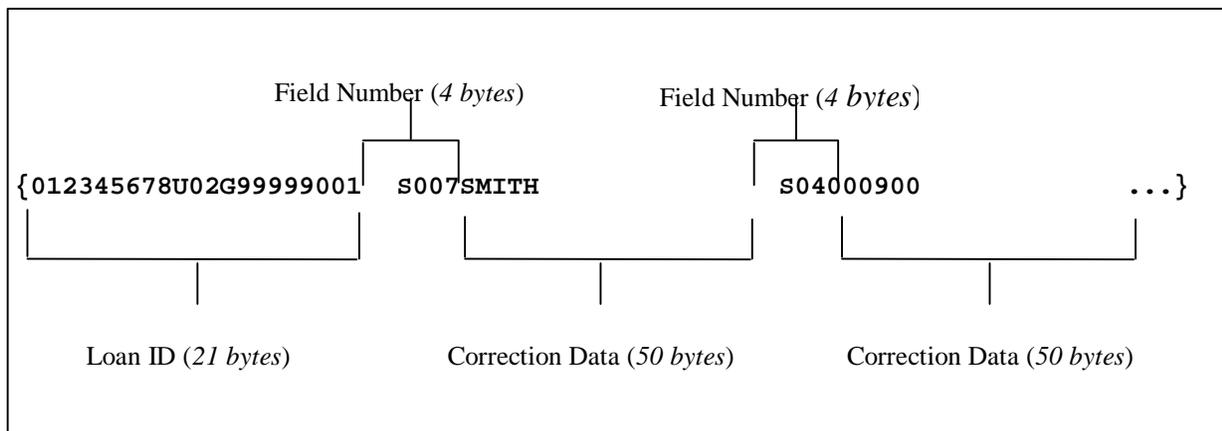

Submitting Change Records

After the Full Loan Origination Record is accepted by the LOC, modifications to the loan record are transmitted to the LOC via a Loan Origination Change Record (DESC02IN). Loan Origination Change Records only apply to Full Loan Origination data. Loan Origination Change records are not used to change actual disbursement data (see Disbursement Records). A list of the fields that can be changed and their Change Field Transmit Numbers are provided in the Export Change Table Values for Field Transmit Numbers Table in Section 1. Loan Origination Change Records are submitted to the LOC by Loan ID. Each record must contain the Loan ID, the change field number, and the new value for the field.

Corrected values must be left justified within the 50-byte change value field. Numeric fields are left justified and blank filled up to the maximum number of positions for that field.

Example:

The example below shows two changes submitted to a loan record whose Loan ID is 012345678U02G99999001: The record is changing the borrower's last name to SMITH and the first disbursement anticipated gross amount to \$900. The layout below shows the contents of the change record excluding the Change Batch Identifier. Each change record is limited to 10 data element changes. For records with more than 10 changes to a single Loan ID, submit more than one change record for the Loan ID.

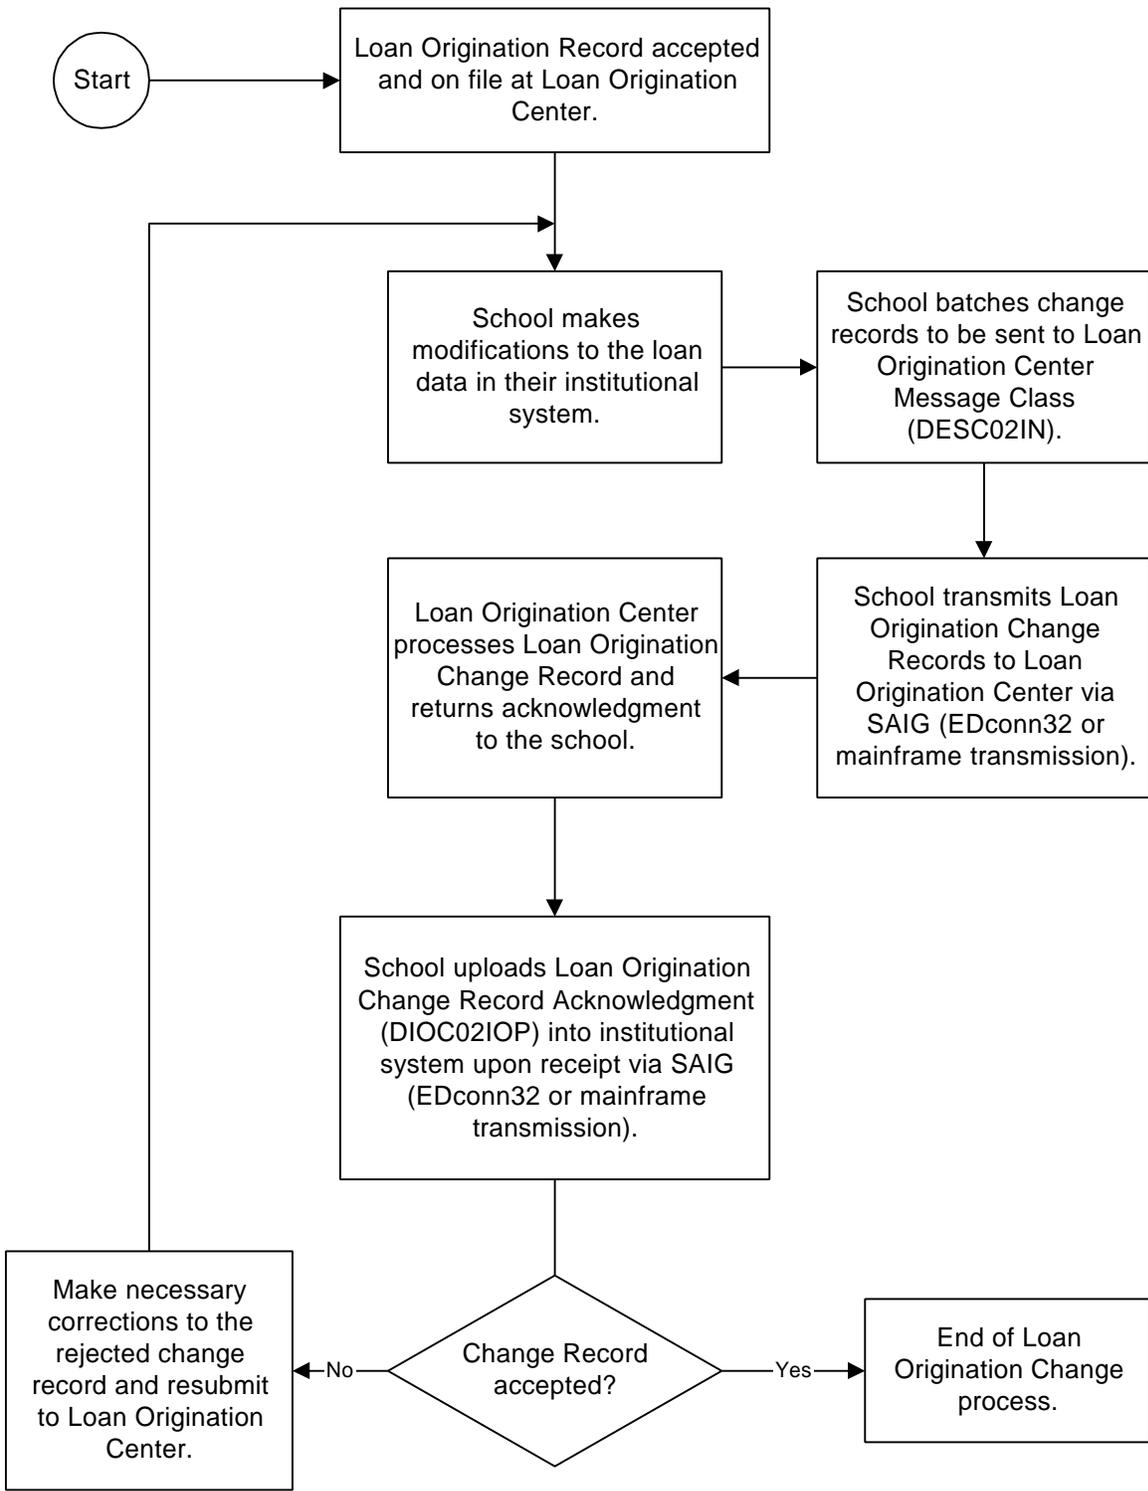

Receiving Loan Origination Change Acknowledgements

The LOC edits the Loan Origination Change Records with the same or similar requirements as the Full Loan Origination Record data elements. The LOC returns an acknowledgement file (DIOC02OP) containing codes accepting or rejecting the change record (Loan Identifier Error Code) or each change field (Error Values 1–10). The school should resolve rejected change records or fields and resubmit another change record to the LOC. Refer to the Loan Origination Change Reject Codes in Section 2, Custom Edits, for a list of the reject codes.

The error code field is blank if the change is accepted by the LOC. Only the fields that are in error need to be corrected and resubmitted to the LOC.

Loan Origination Change Record Process Flowchart

Printing the Direct Subsidized and Unsubsidized Disclosure Statement

The LOC or the school is required to print a Disclosure Statement for every Full Loan (Subsidized/Unsubsidized) Origination Record. The Disclosure Statement is printed and mailed to the borrowers 30 calendar days prior to the first anticipated disbursement date of the loan. However, schools have the discretion to print before the 30-day criteria.

Options for Printing Disclosure Statements

For program year 1999–2000 loans, the option to print the Disclosure Statement is at the school level. Either the LOC or the school prints all the Disclosure Statements. The school can request to print the Disclosure Statements for 1999–2000 loans by calling its Customer Service Representative at the LOC.

For program years 2000–2001 and 2001–2002 loans, a field is included on the Full Loan (Subsidized/Unsubsidized) Origination Record to indicate who is responsible for printing the Disclosure Statement at the loan level. Schools can change the option by submitting a Loan Origination Change Record using Change Field Transmit Number S115 to the LOC.

A new Disclosure Statement is created for 2001–2002 loans and forward. The LOC or the schools should continue to use the existing Disclosure Statement for 1999–2000 and 2000–2001 loans. A copy of the new 2001–2002 Disclosure Statement can be found in Appendix D.

The LOC is responsible for printing the Disclosure Statement for 2000–2001 loans that have more than 12 non-zero anticipated disbursements. The reason is that the Disclosure Statement used for 1999–2000 and 2000–2001 loans only accommodates up to twelve anticipated disbursements for the Subsidized and Unsubsidized loan on the front. The LOC prints anticipated disbursements 13–20 on the back.

When printing the Disclosure Statement, it is recommended to use Courier, 10 point, 12 pitch font.

Master Promissory Note with Multi-Year Functionality

The Master Promissory Note (MPN) is the only approved promissory note to process Direct Subsidized and Unsubsidized Loans for all schools. No changes are being made to MPN data elements. At this time, the MPN concept has not been adopted for use in the PLUS program.

The MPN ID prints on the MPN. This MPN ID identification number is used by the LOC to identify which loans are linked to an MPN. For printed MPNs for 2000–2001 and forward, the format of the MPN ID changed to use “M” as the MPN Indicator instead of “S” or “U” in the loan type code field.

As in the past, the school prints an MPN based on the completed loan origination record. However, no dollar amount is printed on the MPN by the school or the LOC and only one note is used for both subsidized and unsubsidized loans.

An MPN must be printed by the school or the LOC and signed by the student borrower before disbursing a Direct Subsidized Loan or Direct Unsubsidized Loan. The MPN is a legal document requiring the borrower to repay the funds borrowed under the Direct Loan Program.

Multi-year use of the MPN is implemented for some schools per Direct Loan Regulations. Currently, eligible schools include all 4-year and graduate/professional schools that are not subject to an emergency action or limitation, suspension or termination (LST action). Any school with questions regarding eligibility may contact Direct Loan Operations.

If a borrower is attending a school eligible for multi-year functionality, the borrower may have only one open MPN on file at the LOC, for all subsidized and unsubsidized loans originated for program year 1999–2000 and forward. For example, the open MPN at the LOC can be an MPN processed for year 2000–2001. The 2000–2001 loans and forward are linked to this open MPN. Since multiple loans are linked to an MPN, the promissory note print sequence number is no longer necessary. If a school is eligible and chooses multi-year functionality, that school must have a confirmation process in place. Schools are also allowed to adjust upward and downward within an academic year without having to originate a new loan.

An open MPN on file at the LOC is assigned to the borrower and is not limited for use at a Direct Loan school. Therefore, a school eligible for multi-year functionality can use any MPN accepted by the LOC. All loans for a student are linked to the same MPN across schools and academic years. The Social Security Number (SSN), date of birth, and first name or last name on the Full Loan Origination Record must match the SSN, date of birth, and first name on the MPN. If there are any differences, the LOC is not able to link the Full Loan Origination Record to the MPN.

If a school is a single-year option school, NOT eligible for multi-year functionality, a new MPN must be generated each academic year for each borrower. A single-year school must use a MPN generated at or for that school only. A single-year school can link multiple subsidized and unsubsidized loans for the same academic year, for the same student, to the same MPN. The academic year start and end dates must be the same on all loan records linked to a specific MPN.

New for 2001–2002: On the Full Loan Origination Record Acknowledgement, there is a MPN Indicator field for Subsidized/Unsubsidized loans. If the LOR has been linked to an MPN at the LOC, the MPN Indicator is populated with a “Y.” LORs not linked to an MPN on file at the LOC have the MPN Indicator populated with a “N.”

An open MPN is valid for up to 10 years from the date of the first anticipated disbursement if an actual disbursement is made for any associated full loan origination record. If a student wishes to close an MPN, he or she must provide a request in writing to close an MPN to the Direct Loan Servicing Center or the school. If the closed notification is received at the school, the school must forward all original documentation to the LOC. The LOC, upon receipt of the original close MPN notification, closes the MPN. Once an MPN is closed, no new loans can be linked to it. A new MPN must be generated if new loans are originated. However, all disbursements and booking activities for the loans already linked to the closed MPN continue to be processed by the LOC.

Options for Printing Master Promissory Notes

Option 1 and Option 2 schools have two choices for printing MPNs. They may preprint available borrower and school information on the Master Promissory Note and provide the document to the borrower for review, completion, and signature, or they may request that the LOC print the Master Promissory Note.

The U.S. Department of Education provides copies of a standard, approved Master Promissory Note to participating schools. A copy of the Master Promissory Note can be found in Appendix D. However, the school may create its own form as long as it is identical in format and wording to the one provided by the U.S. Department of Education. The form must be approved by the LOC. A packet for format and wording is available by contacting the LOC at 800/848-0978.

A minimum of two copies must be printed—one as the borrower copy and the other as the LOC copy. Additional copies can be printed, if desired, as school copies.

When mailing the MPN, we recommend the use of a “number 10” business window envelope.

When printing the MPN, we recommend the use of Courier, 10 point, 12 pitch. Other settings may cause delays in the processing of the school’s MPNs. Use the following specifications to develop a printing system. They are similar to those used to develop the EDEXpress Direct Loan Software.

Master Promissory Note Print Specifications

The Master Promissory Note (MPN) has a unique 21-character MPN Identification Number (MPN ID). No dollar amount is printed on the MPN, and one note can be used for multiple subsidized and unsubsidized loans.

Following are the specifications for printing the variable data on the MPN:

Printing the PLUS Loan Application and Promissory Note

The Federal Direct PLUS Loan Application and Promissory Note requests demographic information from the parent borrower, as well as references for the collection cycle. It also includes a request for information from the student and school.

Once a loan origination record is established, a school may either print a Federal Direct PLUS Application and Promissory Note with the pre-supplied information or provide the borrower or student with a blank form. The parent borrower and the student review, complete, and sign the application.

As completed Direct PLUS Loan Application and Promissory Notes are received from students or parents, enter the application data into the Direct Loan System and continue with the process explained above.

The U.S. Department of Education provides copies of a standard, approved Federal Direct PLUS Loan Application and Promissory Note to participating schools. A copy can be found in Appendix D. However, the school may create its own form as long as it is identical in format and wording to the one provided by the U.S. Department of Education. The form must be approved by the LOC. A packet for format and wording is available by contacting the LOC at 800/848-0978.

When printing the Direct PLUS Loan Application and Promissory Note, we recommend the use of Courier, 10 point, 12 pitch. Other settings may cause delays in the processing of the school's notes.

A minimum of two copies must be printed, one as the borrower copy and the other as the LOC copy. Additional copies can be printed, if desired, as school copies.

When mailing the PLUS Loan Application and Promissory Note, we recommend the use of a #10 business window envelope.

Use the following specifications to develop a printing system. The specifications are similar to those used to develop the EDEXpress Direct Loan Software.

Promissory Note Paper Manifests

Creating Promissory Note Paper Manifests

All promissory notes must be mailed to the LOC and accepted before the loan is “booked.” The hard copy promissory notes must be accompanied by a paper manifest that lists the borrower’s name and Identification number for each promissory note in the shipment. A paper certification is provided along with the paper manifest to be signed by an official at the school. Master Promissory Notes and PLUS Promissory Notes must be batched separately and a separate paper manifest created for each. Additionally, separate batches (manifests) must be created for each DL school code. The LOC returns the manifest to the school address on the promissory note unless the school indicates another address on the manifest.

The format for the Master Promissory Note paper manifest and the PLUS paper manifest are provided in Appendix D.

Software developers must adhere to these formats. Additionally, the following guidelines must be performed:

- The Report Date (in MM/DD/YYYY format) and the Report Time (in HH:MM:SS format) indicate when the manifest was produced.
- A page number starting with 1, incremented by 1, for each subsequent page printed

Records are printed in last name alphabetical order, or in numerical borrower ID order. The borrower’s name is printed in last name, first name, and middle initial order. The Loan ID associated with the borrower’s name is printed.

The number of notes for shipping indicates the number of promissory notes covered by the paper manifest. It is only printed on the final page of the paper manifest.

The certification statement, DL school code, school name, signature block, and FAA (Financial Aid Administrator) name are only printed on the last page.

Receiving Promissory Note Acknowledgments

The electronic manifest is eliminated. However, the LOC continues to return an electronic file (DIPA02OP) containing the acknowledgement of all promissory notes. All notes, the Master Promissory Note and the PLUS Promissory Notes, are acknowledged with the DIPA02OP message class. Unlike other batch types, batch integrity is not maintained by the LOC for promissory notes. Acknowledgments do not match one to one with paper manifests sent by the school.

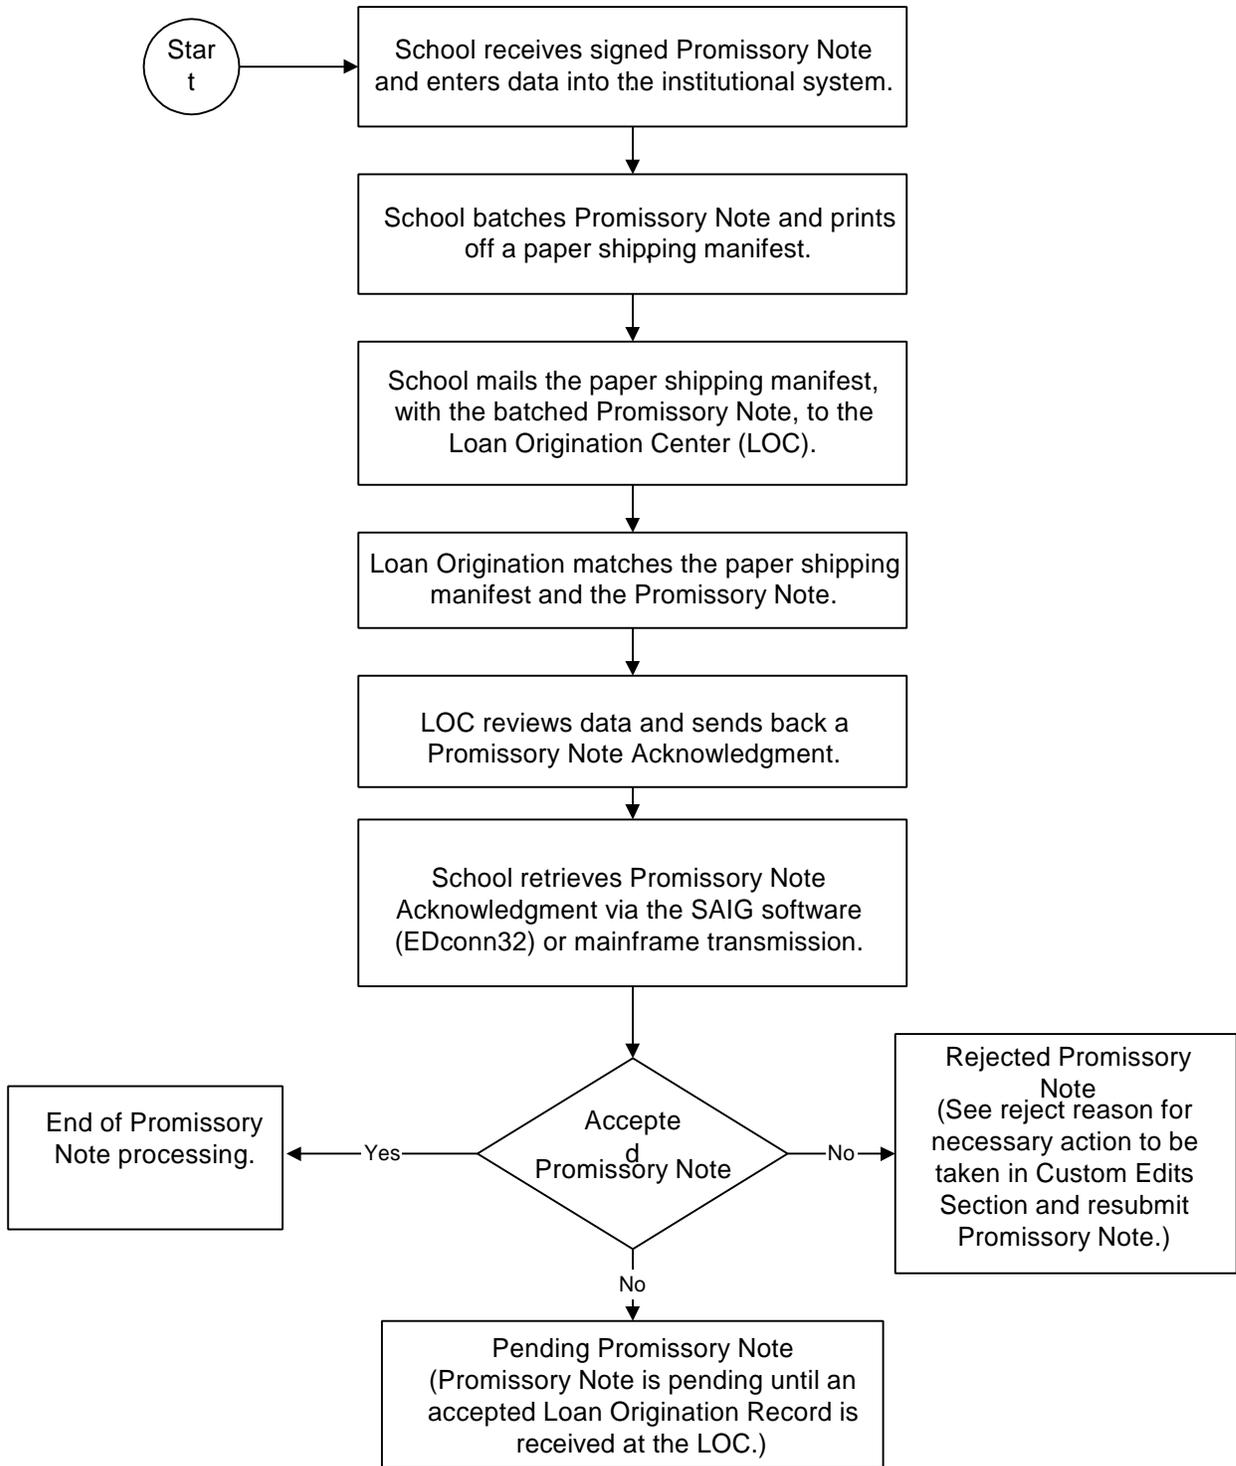

The DIPA02OP file contains a code in field 4 (Promissory Note Status) that returns one of three values: A (Accepted), R (Rejected), or X (Pending). The three categories of reason codes are associated with the actions the school is required to take to resolve the rejected notes.

Promissory Note Rejects

These codes indicate why the promissory note was rejected. A new promissory note must be printed with corrected data. The note must be resubmitted to the LOC and included in a subsequent batch.

Promissory Note Reject codes are mainly handled through a manual process. However, there are two electronic error codes that are received at the LOC, error codes "01" and "S." Once the Promissory Notes are received in the mailroom, they are manually inspected for missing or incorrect information. A generic checklist is used. If it is determined that there are errors or that information is missing, the checklist is marked in the appropriate blank and returned to the school or borrower (Standard Origination schools). A copy of the Checklist is included in the Appendix.

Promissory Note Process

Promissory Note Anticipated Disbursement Values

Promissory note anticipated disbursement values (DIPA02OP, fields 6–25) are returned to **all** schools. When a borrower adjusts the Loan Amount Requested on the paper promissory note (**PLUS only**) and returns the note to the LOC, the LOC recalculates the anticipated disbursements. If amounts are unchanged, these fields are returned with the amounts indicated in the Loan Origination Record.

Option 2 and Option 1 schools **may** recalculate and store amounts changed on the promissory note before submitting the note to the LOC.

Funds Drawdown

Tracking Cash and Receipt of Cash

Note: See Custom Overview Section for definitions of Standard Origination, Option 1, and Option 2 schools.

Tracking Cash

Schools must maintain an accurate cash balance record by tracking fund drawdowns and return of excess cash transactions. A Receipt of Cash transaction is a result of Direct Loan funds being transferred to the schools' account from the Grants Administration Payment System (GAPS). An Excess Cash transaction is a result of funds being returned to the LOC as directed by cash management regulations. Each transaction should be stored as a unique record. Multiple transactions should not be considered in the aggregate.

Receipt of Cash

As the funds are received, the school needs to track the receipts of cash. The school must create one cash receipt record for each drawdown received from the GAPS and must assign a year indicator. Cash receipts (drawdown) cannot be combined even if received on the same day.

Return of Excess Cash (Return of Drawdown Funds)

A school must return undisbursed drawdown funds to the U.S. Department of Education. The school can either return undisbursed funds by check to the LOC or transmit funds by wire through the Federal Reserve Bank. The school must also assign a year indicator. The school must create one return of excess cash record for each check or wire transfer returned. Return of excess cash transactions can be combined if returned on the same day.

Note: For more details on Tracking Cash, Receipt of Cash, and Return of Excess Cash see the Direct Loan School Guide and the appropriate Direct Loan Bulletins.

Disbursement

For Option 2 schools, once the school has acknowledgment that a completed and signed promissory note is on file, and the borrower meets eligibility requirements, the school can make a loan disbursement to the student or parent (either by check or by crediting the student's account). However, for Standard Origination and Option 1 schools there must be an accepted promissory note on file at the LOC.

Schools submit a file (DESD02IN) containing disbursement activity by Loan ID. Each actual disbursement transaction is considered by the LOC to be a unique transaction and is treated as such for reconciliation purposes. For example, once a disbursement is submitted to the LOC, any modification to the disbursement amount requires another disbursement record. Schools should store each transaction submitted to the LOC on their databases.

The LOC edits the information against the loan origination record data stored on its system. See the Disbursement Reject Codes table in this guide for a list of LOC edits.

The LOC returns an acknowledgment (DIOD02OP) to the school indicating whether or not each disbursement record is accepted. This acknowledgment is the same record layout as the disbursement export file. The school may receive a record from the LOC indicating that the disbursement record is rejected. The school needs to resolve the reject and retransmit it to the LOC.

The cancellation process is replaced by a process of adjusting individual disbursements and/or Loan Amount Approved to zero. This provides the schools more flexibility by simply recording and sending the LOC an upward adjustment if the loan or disbursement is to be re-activated. There is no longer the record type C = Canceled Disbursement (Actual). Instead, disbursements are adjusted to \$0.

Disbursement type "Q," Adjusted Disbursement Date, is for making adjustments to the actual disbursement date. The "Q" transaction can only be used after the school has sent an actual disbursement and received the disbursement acknowledgment from the LOC.

Disbursement record types "L" and "M" are to assist in determining when a disbursement activity has booked at the LOC. These record types are returned in the #B batch type.

Record type "P" is used to indicate payments received from the borrower at Servicing within 120 days of disbursement. If the borrower makes a payment to Servicing, this is indicated by a negative amount. If there is a reversal of the payment, this is indicated by a positive amount. This record type is returned in the SP batch type.

Disbursement Record Types

The six kinds of Disbursement Records are as follows:

Disbursement	Disbursement Activity D (#H)
Adjusted Disbursement Amount	Disbursement Activity A (#H)
Adjusted Disbursement Date	Disbursement Activity Q (#H)
Booking disbursement	Disbursement Activity L (#B)
Booking Adjustment	Disbursement Activity M (#B)
Servicer Refund	Disbursement Activity P (SP)

A Disbursement record contains data for the initial disbursement for a given disbursement number.

An Adjusted Disbursement Amount record is transmitted to the LOC when the amount of a disbursement needs to be increased or decreased. This includes disbursements being adjusted to zero. Refer to the DL School Guide and appropriate DL Bulletins for further information

An Adjusted Disbursement Date record is transmitted to the LOC when the date of an original disbursement needs to be changed.

A Booking Disbursement notification is transmitted to the school when the disbursement books at the LOC.

A Booking Adjustment notification is transmitted to the school when the adjustment amount books at the LOC.

A Servicer Refund Transaction is transmitted to the school when the LOC receives notification from Servicing that a payment was sent to Servicing by the borrower within 120 days of disbursement.

Process Loan and Disbursement Adjustments to \$0 (Making a Loan Inactive)

Adjusting loans to \$0 occur for a variety of reasons:

- Student no longer attending school
- Student or parent decides not to borrow after a loan has been originated
- School needs to change the Loan Origination Fee
- Student or parent no longer wants, or is entitled to, the entire loan or a specific loan disbursement

To adjust an entire loan to \$0 (**making a loan inactive**), perform the following:

- Reduce actual disbursements down to zero
- Send a Loan Origination Change Record adjusting the Loan Amount Approved to \$0

All activity can be generated and transmitted on the same day.

The anticipated disbursement amounts are reduced down to zero by the LOC when the Loan Amount Approved is changed to zero.

When an entire loan is adjusted to \$0, actual disbursement(s) are already made, and the borrower returns the money within 120 days of disbursement, all principal and fees are eliminated. This is also done to comply with regulatory or statutory requirements. Likewise, when a disbursement is adjusted to \$0, the principal and fees for that disbursement are eliminated. If an individual disbursement is adjusted to \$0, that change is sent as a disbursement record.

Adjusting a Loan to \$0 to Change the Loan Origination Fee

- Adjust any actual disbursement to \$0. Send a Loan Origination Change Record adjusting the Loan Amount Approved to \$0. (The fee can also be adjusted at this time. Sending the fee in this step is optional if it is sent on the second step in the specified order). These records can be processed in the same cycle.
- Send the change record to adjust the fee. Adjust the entire loan back up. (The change for the origination fee must be the 1st change on the change record to process the fee correctly. If you have multiple change records being transmitted, the origination fee change must be the first change on the first change record.)

Timing

For Option 1 and 2 schools, disbursement records are sent after the school has received a signed valid promissory note from the borrower. For Standard schools, disbursement records are sent to the LOC after an accepted promissory note acknowledgement is received for the borrower. Schools should ensure that the disbursement record cycle is complete at a record level before transmitting change records for adjustments to \$0.

Sequence of Disbursement Records

The LOC sorts and processes disbursement records by Loan ID, Disbursement Number, and Disbursement Sequence Number. Remember, disbursement activity must be submitted to the LOC within 30 days of the transaction date.

Confirmation Flag (For Schools in the Confirmation Pilot)

Schools participating in the Confirmation Pilot receive authorization from the borrower for the disbursement of funds under a Direct Subsidized Loan or a Direct Unsubsidized Loan. An Confirmation Flag exists on the Disbursement/Disbursement Acknowledgment. This flag indicates that the borrower at the school has confirmed the disbursement.

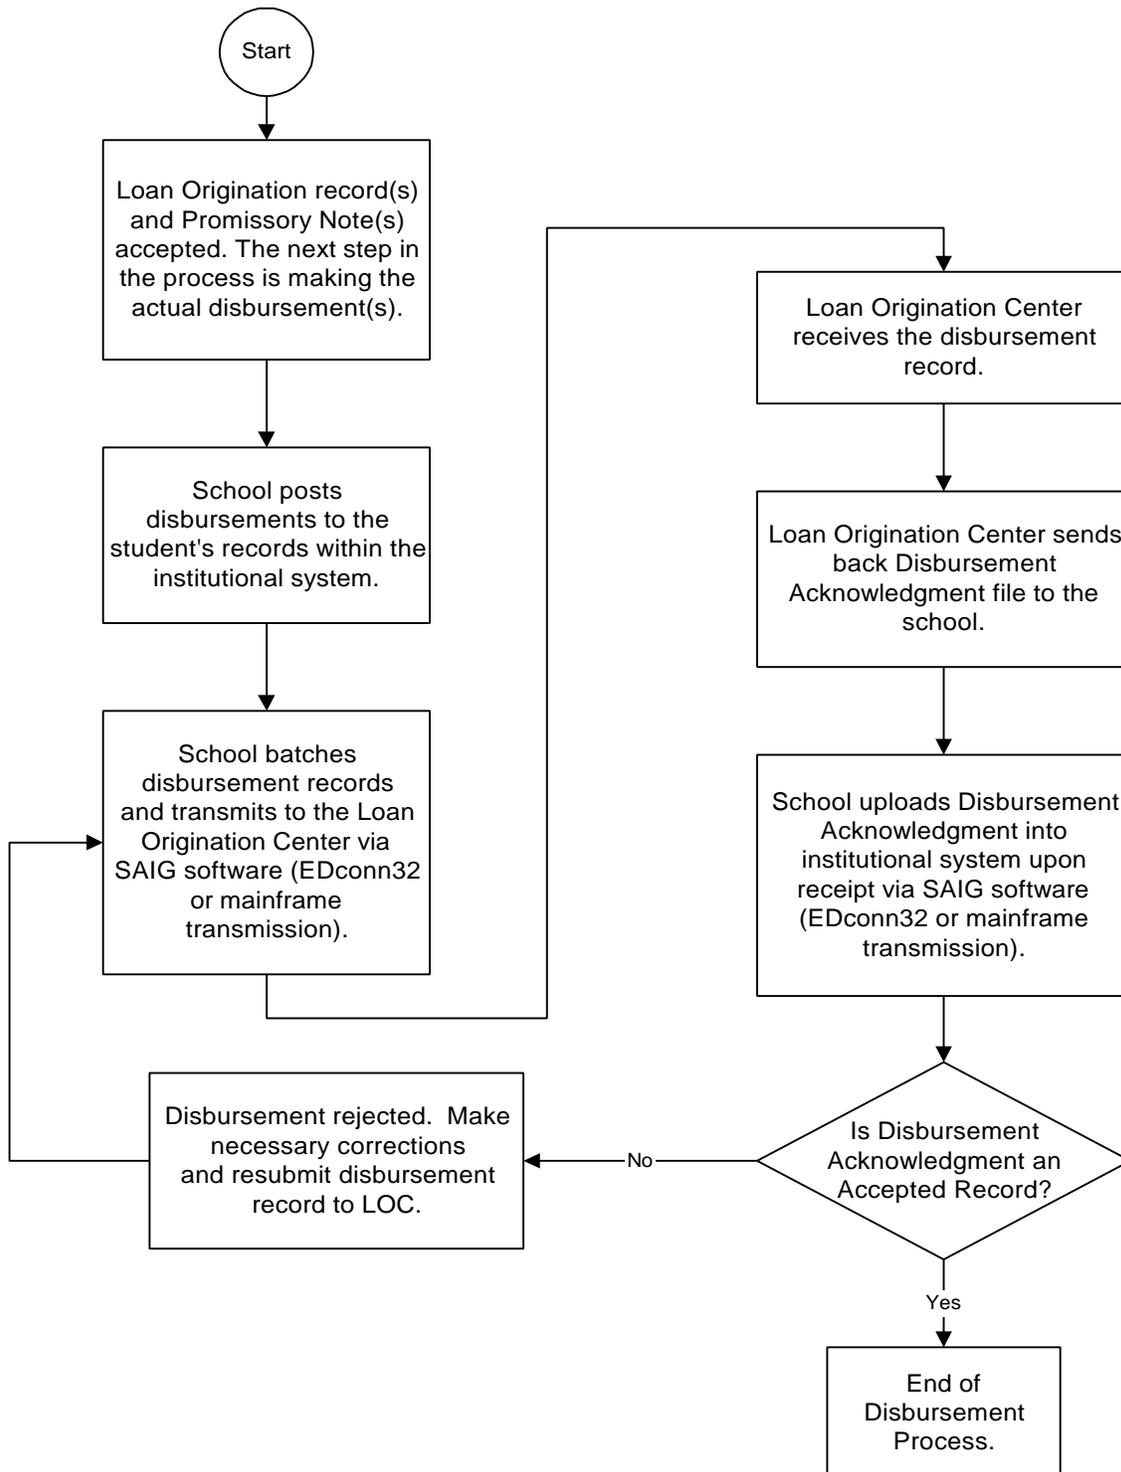

Disbursement Acknowledgments From the LOC

The LOC returns one acknowledgment record for each Disbursement Record submitted by the school. Each record in the export file is acknowledged in the import file. The import file header contains the batch ID of the export file. The acknowledgment record is in the same format as the Disbursement Record. If the LOC calculates different amounts than reported by the school, these amounts are returned in the acknowledgment. If there is no change to the amounts, these fields are returned blank in the DIOD02OP file.

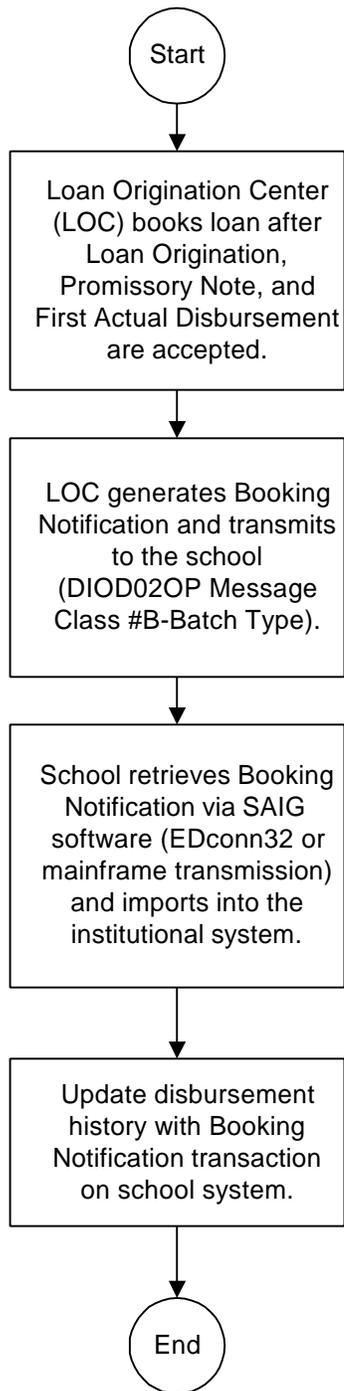

Note: The disbursement acknowledgment date is always blank on the disbursement record (DESD02IN) going to the LOC. Please do not zero fill.

The disbursement acknowledgment date is provided by the LOC in the disbursement acknowledgment (DIOD02OP) transmitted from the LOC.

School Reconciliation

Schools must reconcile the school's Direct Loan records on file at the LOC with the school's internal Direct Loan records. This process is School Reconciliation and should be performed by the school on a monthly basis. For more details, see the Direct Loan School Guide.

School Reconciliation for 2001–2002 Direct Loan School Account Statement (DLSAS)

The LOC initiates the reconciliation process. On a monthly basis, the LOC sends a Direct Loan School Account Statement (DLSAS) to each school (designated by DL school code) in the Direct Loan program. This electronic file may be imported and formatted for printing to look similar to a bank statement. The DLSAS reports on the LOC data on cash balances, cash details, booked loans, and booked or unbooked disbursement transactions. Six types of reconciliation data are sent to the schools: Year-To-Date Cash Summary, Year-To-Date Disbursement Summary by Loan Type, Monthly Cash Summary, Monthly Disbursement Summary by Loan Type, Cash Detail, and Loan Detail. Each school is responsible for reviewing the monthly statement to ensure the accuracy of the data. This data must also be reconciled to the school's internal student account records and bank records.

School Options

A school may elect to receive the DLSAS file with Year-To-Date Cash Summary, Year-To-Date Disbursement Summary by Loan Type, Monthly Cash Summary, Monthly Disbursement Summary by Loan Type, and Cash Detail sections on the monthly School Account Statement, omitting the Loan Detail records. The Loan Detail records are optional whereas the other record types are mandatory for the DLSAS. Schools initially receive the full file; contact the LOC if you want to receive the file without the Loan Detail records.

Additionally, a school may elect to send the LOC an electronic file, the Optional Loan Detail Exception File (DERC##IN), with Year-to-Date (YTD) unbooked transactions or booked transactions for a particular month. The LOC compares the school's data sent in this file with that of the LOC's. A preformatted Loan Detail Exception Report for Booked (ED01##OP) or Unbooked (ED02##OP) loans is returned to the school if there are discrepancies or exceptions to be resolved. This process assists the schools in resolving discrepancies found while reviewing the monthly DLSAS. A school initiates this process simply by sending the Loan Detail Export file to the LOC.

Resolving Discrepancies

These two processes, the DLSAS and the Optional Loan Detail Exception File, assist the schools with reconciling their data with the data at the LOC. When discrepancies are found, schools should perform the following:

- Ensure that all origination, promissory note, and disbursement processing is complete.
- Export all pending data batches for origination records, promissory notes, and disbursements.
- Import all pending data batches to update the accepted status and booked status flags on your school's system.

Custom schools and software providers may develop reports to resolve discrepancies on the DLSAS. A sample DLSAS report with description is provided in Appendix A.

Up-front Interest Rebate Implementation for 2001 –2002

To assist you in making system modifications for the 2001–2002 Program Year implementation of the up-front interest rebate, we are providing you with this section of the Custom System Requirements to identify impacts to your system, especially disbursements. The section includes the business rules and calculations for gross disbursement, loan fee, net disbursement, and interest rebate amounts. The net disbursement and interest rebate amount calculations are new for Program Year 2001–2002 and forward because of the up-front interest rebate program.

Business Rules:

- An up-front interest rebate amount is calculated at the disbursement level by the schools for each Direct Subsidized, Direct Unsubsidized and Direct PLUS loan.
- The up-front interest rebate percentage that is in effect starting with 2001–2002 Direct Loans is 1.5 percent.
- The current method to calculate individual Gross Disbursement Amounts and the current rounding logic remain as is. The variance is still applied to the last anticipated disbursement.
- The method to calculate the Net Disbursement Amount and Interest Rebate Amount is new. The new calculations are explained below.
- The resulting Loan Fee Amount and Interest Rebate Amount are truncated. Truncated means the cents are removed and the remaining whole dollar is the amount to use. Do not round up or down.
- When calculating the Combined Fee/Interest Rebate Amount and the Loan Fee Amount, take all results out 3 decimal places to ensure consistent results in automated tools such as MS Excel.
- Twenty new 5-byte fields for the Anticipated Disbursement Interest Rebate Amount are added to the 2001–2002 LOR layout for each anticipated disbursement. The LOR acknowledgment has not changed.
- Two new 5-byte fields, Disbursement Actual Interest Rebate Amount and Disbursement Actual Interest Rebate Amount-LOC, are added to the 2001–2002 Disbursement record layout.
- The size of the Disbursement and Disbursement Acknowledgment record layouts is unchanged and remains 152 bytes.
- Schools send to the LOC the gross disbursement amount, loan fee amount, and net disbursement amount for anticipated and actual disbursements. Additionally, they are sending the interest rebate amount for both anticipated and actual disbursements.

Gross Disbursement Calculations

Gross disbursement calculations do not change with the interest rebate implementation.

When determining gross disbursement amounts for a loan, dollar figures are rounded to the nearest dollar and all disbursements are equal with the exception of the last disbursement, in some cases. This is due to any variance being applied to the last disbursement.

When computing gross disbursement amounts, use the following specifications:

Step 1: Individual disbursement amount is Loan Amount Approved divided by the total number of disbursements. If necessary, truncate any positions that exist past 2 decimal places.

Step 2: Round the individual disbursement amount. Rounding occurs at the 1st and 2nd decimal places to the nearest dollar.

If the 1st and 2nd decimal places are 50 or greater, increment the 1st digit to the left of the decimal sign by one.

If the 1st and 2nd decimal places are less than 50, do not change the 1st digit to the left of the decimal sign.

Step 3: To determine the amount of the last disbursement, multiply the individual disbursement amount by the number of disbursements.

If the sum of the disbursements is greater than the Loan Amount Approved, subtract the difference from the last disbursement.

If the sum of the disbursements is less than the Loan Amount Approved, add the difference to the last disbursement.

Example 1: Determining Gross Disbursement Amount for two disbursements

Loan Amount Approved: \$2625

Step 1: $2625 \text{ divided by } 2 = 1312.5000$

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore 1312.5000 truncates to 1312.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by 1.

If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 1312.50 to 1313. Therefore, all disbursement amounts are 1313 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 1313 by 2 = 2626

Since \$2626 is more than \$2625, subtract the difference of \$1. The last disbursement is equal to \$1313-\$1 or \$1312.

Final Results: 1st Gross Disbursement Amount = 1313

2nd Gross Disbursement Amount = 1312

Total Loan Amount = \$2625

Example 2: Determining Gross Disbursement Amount for three disbursements

Loan Amount Approved: \$1000

Step 1: $1000 \div 3 = 333.3333$

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore 333.3333 truncates to 333.33

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by one.

If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 333.33 to 333. Therefore, all disbursement amounts are 333 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 333 by 3 = 999

Since \$999 is less than \$1000 you add the difference of \$1. The last disbursement is equal to \$333 + \$1 or \$334.

Final Results: 1st Gross Disbursement Amount = \$333

2nd Gross Disbursement Amount = \$333

3rd Gross Disbursement Amount = \$334

Total Loan Amount = \$1000

Example 3: Determining Gross Disbursement Amount for six disbursements

Loan Amount Approved: \$22,167

Step 1: 22167 divided by 6 = 3694.5000

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore 3694.5000 truncates to 3694.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by 1.

If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 3694.50 to 3695. Therefore, all disbursement amounts are 3695 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 3695 by 6 = 22170

Since \$22170 is more than \$22167, subtract the difference of \$3. The last disbursement is equal to \$3695-\$3 or \$3692.

Final Results: 1st Gross Disbursement Amount = \$3695
2nd Gross Disbursement Amount = \$3695
3rd Gross Disbursement Amount = \$3695
4th Gross Disbursement Amount = \$3695
5th Gross Disbursement Amount = \$3695
6th Gross Disbursement Amount = \$3692
Total Loan Amount = \$22,167

Net Disbursement Amount, Loan Fee Amount, and Interest Rebate Amount Calculations

Loan fee amount calculations do not change with the interest rebate implementation. However, net disbursement amount and interest rebate amount calculations are new.

When determining the Combined Fee/Interest Rebate Amount and Loan Fee Amount truncate the result. Truncation is using only the whole dollar part of the amount with no rounding up or down. The combined fee/interest is a field used to assist in the calculation of the net disbursement amount.

When calculating individual disbursement loan fee amount, interest rebate amount, and net disbursement amount, use the following specifications for all disbursements:

To calculate **Net Disbursement Amount**:

Step 1: Combined Fee/Interest Rebate Amount (go out to 3 decimal places) = Gross Disbursement Amount x (Loan Fee Percentage – Interest Rebate Percentage)

Step 2: Truncate the Combined Fee/Interest Rebate Amount

Step 3: Net Disbursement Amount = Gross Disbursement Amount – Combined Fee/Interest Rebate Amount

To calculate **Loan Fee Amount**:

Step 4: Loan Fee Amount (go out to 3 decimal places) = Gross Disbursement Amount x Loan Fee Percentage

Step 5: Truncate the Loan Fee Amount

To calculate **Interest Rebate Amount**:

Step 6: Interest Rebate Amount = Net Disbursement Amount – (Gross Disbursement Amount – Loan Fee Amount)

To calculate from **Net Disbursement Amount to Gross Disbursement Amount** use the following calculation:

Net disbursement amount multiplied by 100 divided by 100 minus (Fee% - Rebate%)

OR Net disbursement amount divided by .985 = Gross disbursement amount (truncated)

Then proceed with Step 1 listed above.

Leap Year Logic

EDEExpress uses the following date format and leap year logic in the date fields on its databases:

- The date field format is CCYY/MM/DD.
- For (CC), the date field must contain only 19 or 20.
- For (YY), the date field must contain only 00–99.
- For month (MM), the date field must contain only 01–12.
- For day (DD), valid range depends on the month, as follows:

<u>Month</u>	<u>Valid Day Range</u>
01	01–31
02	01–28 (unless year is divisible by 4 when 01–29 is valid)
03	01–31
04	01–30
05	01–31
06	01–30
07	01–31
08	01–31
09	01–30
10	01–31
11	01–30
12	01–31

Implementation Guide

Overview

This section provides assistance to Direct Loan Custom Schools, Third Party Servicers, and Software Providers with implementing the system changes for the 2001–2002 Direct Loan Program. It describes 2001–2002 Direct Loan modifications and serves as a companion to the record layouts and edits contained in Section 1, Custom Layouts, and Section 2, Custom Edits.

A summary of the 2001–2002 Direct Loan modifications is provided in 2001–2002 Modifications at a Glance.

To help you understand the new guidelines, the modifications are classified into eight specific functional areas:

- Loan Origination and Change Records
- Promissory Notes
- Disbursements
- Reports
- Software Providers Interface
- Data Recovery
- Up-front Interest Rebate
- Disclosure Statement

Within each functional area, individual modifications are described and discussed. This discussion includes the business rules for implementation and, when applicable, an example of the modification.

If you have questions regarding the material in this section, please call the Direct Loan Origination Center (LOC) between the hours of 8 a.m. and 8 p.m. (ET) at:

Loan Origination and Change Records

Add Student's E-mail Address to Full Loan Origination Record

2001–2002 Modification: The Student's E-mail Address field—Field #169, has been added to the Full Loan Origination record (LOR) layout.

The e-mail addresses are collected on the Free Application for Federal Student Aid (FAFSA) on the Web. The Central Processing System (CPS) captures the e-mail addresses and reports them on the Institutional Student Information Record (ISIR).

Business Rules:

- A new 50-character Student's E-mail Address field (Field #169) is added to the 2001–2002 Full Loan Origination record layout. The new LOR length of 1064 accommodates the new field.
- The Student's E-mail Address field is an optional field for Subsidized, Unsubsidized, and PLUS LORs.
- The e-mail address can consists of upper and lower case letters, numbers, and special characters.
- A new Change Field Transmit Number (S126) for the Student's E-mail Address field allows this information to be modified.
- The length of the Change Record Value fields 01–10 is increased from 28 to 50 characters to accommodate the new e-mail address.
- The LOC edits the Student's E-mail Address field on the LOR and Change Record for both the "@" character and the dot to the right of the "@" character.
- If the "@" character or a dot to the right of the "@" character is not present in the Student's E-Mail Address, the LOC does not store the data and does not reject the LOR or change record.
- When a loan is booked at the LOC, the Student's E-Mail Address is sent to the Direct Loan Servicing Center (DLSC).
- See the Custom Layout section of the *2001–2002 Direct Loan Technical Reference* guide for the new LOR and Change Field Transmit Number layouts.

Increase Address Field Length

2001–2002 Modification: The Borrower’s Permanent Address and the Student’s Local Address fields have increased from 28 to 35 characters on the Full Loan Origination record (LOR) layout.

Currently, the length of the Borrower’s Permanent Address field and the Student’s Local Address field is 28 characters on both the LOR and the Change Field Transmit Numbers.

Starting in 2001–2002, the length of the Borrower’s Permanent Address—Field #6—and the Student’s Local Address—Field #135—has increased from 28 to 35 characters on the LOR. This aligns with the 35-character address field increase on the Free Application for Federal Student Aid (FAFSA) for 2001–2002. Also, the length of the Change Field Transmit Number for both the Borrower’s Permanent Address (S009) and the Student’s Local Address (S100) has increased from 28 to 35 characters.

Business Rules:

- The Borrower’s Permanent Address field (Field #6) and the Student’s Local Address field (Field #135) are increased from 28 to 35 characters on the 2001–2002 Full Loan Origination record layout. The new record length of 1064 bytes accommodates the increased field length.
- The length of the Change Field Transmit Number for the Borrower’s Permanent Address field (S009) and the Student’s Local Address field (S100) is increased from 28 to 35 characters.
- When printing the Master Promissory Note or the PLUS Loan Application and Promissory Note, allow up to 35 characters for the borrower’s address fields.
- See the Custom Layout section of the *2001–2002 Direct Loan Technical Reference* guide for the new LOR and Change Field Transmit Number layouts.

Increase First Name Field Length

2001–2002 Modifications: The Borrower’s First Name field and the Student’s First Name field are increased from 9 to 12 characters on the Full Loan Origination record layout.

Currently, the length of the Borrower’s First Name field and the Student’s First Name field is 9 characters on both the Full Loan Origination record (LOR) and on the Change Field Transmit Numbers.

Starting in 2001–2002, the length of the Borrower’s First Name—Field #3—and the Student’s First Name—Field #126—is increased from 9 to 12 characters on the LOR. This aligns with the 12-character name field increase on the Free Application for Federal Student Aid (FAFSA) for 2001–2002. Also, the length of the Change Field Transmit Number for both the Borrower’s First Name (S006) and the Student’s First Name (P003) is increased from 9 to 12 characters.

Business Rules:

- The Borrower’s First Name field (Field #3) and the Student’s First Name field (Field #126) have increased from 9 to 12 characters on the 2001–2002 Full Loan Origination record layout. The new record length of 1064 accommodates the increased field length.
- The length of the Change Field Transmit Number for the Borrower’s First Name field (S006) and the Student’s First Name field (P003) has increased from 9 to 12 characters.
- When printing the Master Promissory Note or the PLUS Loan Application and Promissory Note, allow up to 12 characters for the borrower’s first name fields.
- See the Custom Layout section of the *2001–2002 Direct Loan Technical Reference* guide for the new LOR and Change Field Transmit Number layouts.

Process New Grade Levels

2001-2002 Modifications: The Student's College Grade Level field has decreased from 2 characters to 1 character on the Full Loan Origination record layout. The grade level values are redefined to correspond to the 1-character college grade level. Upon implementation, this modification affects only Program Year 2001–2002.

Currently, the Student's College Grade Level is a 2-byte field on the Full Loan Origination record (LOR) and the Change Field Transmit Number and the values range from 01–10. See the following table:

Grade Level Values Prior to 2001–2002

Values Received at the LOC From the School Program Years 1999–2000 and 2000–2001
01 = 1st year, never attended college
02 = 1st year, attended college before
03 = 2nd year/sophomore
04 = 3rd year/junior
05 = 4th year/senior
06 = 5th year or more undergraduate
07 = Graduate/professional and beyond
Program Year 1998–1999
01 = 1st year, never attended college
02 = 1st year, attended college before
03 = 2nd year/sophomore
04 = 3rd year/junior
05 = 4th year/senior
06 = 5th year or more undergraduate
07 = 1st year graduate/professional
08 = 2nd year graduate/professional
09 = 3rd year graduate/professional
10 = Beyond 3rd year graduate/professional

Starting in 2001–2002, the length of the Student's College Grade Level field—Field #17—has decreased from 2 characters to 1 character on the Full Loan Origination record (LOR). This aligns with the 1-character grade level field on the Free Application for Federal Student Aid (FAFSA). Also, the length of the Change Field Transmit Number for the Student's College Grade Level field (S026) has decreased from 2 bytes to 1 byte.

The redefined values for the Student’s College Grade Level field range from 0–7 and correspond to those listed on the FAFSA.

Business Rules:

- The length of the Student’s College Grade Level field (Field #17) on the 2001–2002 Full Loan Origination record layout is decreased to 1 byte.
- The length of the Change Field Transmit Number for the Student’s College Grade Level field (S026) is decreased to 1 byte.
- The new values for the Student’s College Grade Level field range from 0–7 and apply to 2001–2002 LORs. See the following table:

Grade Level Values Starting in 2001–2002

Values Received at the LOC From the School
Program Year 2001–2002
0 = 1st year undergraduate/never attended college
1 = 1st year undergraduate/attended college before
2 = 2nd year undergraduate/sophomore
3 = 3rd year undergraduate/junior
4 = 4th year undergraduate/senior
5 = 5th year/other undergraduate
6 = 1st year graduate/professional
7 = Continuing graduate/professional or beyond

- All grade level values for program years prior to 2001–2002 are still in effect for the corresponding program year.

Eliminate Master Promissory Note ID from Full Loan Origination Acknowledgement

2001–2002 Modification: The 21-character Master Promissory Note (MPN) ID field is removed from the Full Loan Origination Acknowledgement layout. A 1-character Master Promissory Note Indicator field has been added to the Full Loan Origination Acknowledgement layout.

Currently, the MPN ID is included on the Full Loan Origination Acknowledgement to identify the MPN that the loan has been linked to at the LOC. The MPN ID can be blank on the Full Loan Origination Acknowledgement if an LOR is accepted at the LOC, but a valid MPN is not available or if an LOR is rejected at the LOC.

Starting in 2001–2002, the MPN ID is removed from the Full Loan Origination Acknowledgement because the Direct Loan Program does not require MPN IDs to be tracked by schools. The new field, Master Promissory Note Indicator—Field #8—is added to the Full Loan Origination Acknowledgement. The new field indicates whether or not the LOR has been linked to a valid MPN at the LOC.

Business Rules:

- The 21-character MPN ID is removed from the 2001–2002 Full Loan Origination Acknowledgement record layout.
- A new 1-character field, Master Promissory Note Indicator—Field #8—has been added to the Full Loan Origination Acknowledgement record layout.
- On the 2001–2002 Full Loan (Subsidized/Unsubsidized) Origination Acknowledgement, the valid values for the new 1-character MPN Indicator are “Y” and “N.”
 - A value of “Y” in the MPN Indicator (Field #8) on the Full Loan Origination Acknowledgement indicates that the LOR has been linked to a valid MPN at the LOC.
 - A value of “N” in the MPN Indicator (Field #8) on the Full Loan Origination Acknowledgement indicates that the LOR has not been linked to an MPN at the LOC.
- On the 2001–2002 Full Loan PLUS Origination Acknowledgement, the only valid value for the new 1-character MPN Indicator is “blank”.
- The 21-character MPN ID, although removed from the Full Loan Origination Acknowledgement, is still present on the MPN/PLUS Promissory Note Acknowledgement for schools who use the MPN ID as part of their processing.

Require Standard Origination and Option 1 Schools to Report Anticipated Disbursements with Loan Amount Approved Changes

2001–2002 Modification: Standard Origination and Option 1 schools are required to report changes to anticipated disbursements when making changes to the Loan Amount Approved (LAA) .

Currently, for all schools, when the LAA is reduced, the LOC compares the total of the anticipated disbursements to the new LAA. If the total of the anticipated disbursements is greater than the new LAA, the LOC adjusts the anticipated disbursements. The anticipated disbursements are recalculated by adjusting them downward starting with the last anticipated first (the anticipated with the latest date) until the sum of the anticipated disbursements equals the new LAA. If there are anticipated disbursements with the same date, the LOC uses the anticipated disbursement number in descending order. Only the anticipated disbursements that do not have an actual disbursement are adjusted downward. If the LAA is increased or if the LAA is decreased to \$0, the LOC does not recalculate the anticipated disbursements.

The following table demonstrates what happens when a LAA is reduced from \$3000 to \$1700, a \$1300 reduction. The LOC subtracts a maximum of \$1000 from the last anticipated disbursement (#3) and the remaining \$300 from the second anticipated disbursement (#2).

LAA Change	LAA at LOC	Anticipated Disbursement 1	Anticipated Disbursement 2	Anticipated Disbursement 3
	3000	1000	1000	1000
1700	1700	1000	700	0

Starting in 2001–2002, As Standard Origination and Option 1 schools, you are required to submit changes to the anticipated disbursement amounts when making changes to the LAA. The LOC no longer recalculates the anticipated disbursements for these schools and rejects changes that result when the total amount of anticipated disbursements exceeds the LAA.

While the U.S. Department of Education recommends that all schools submit changes to anticipated disbursement amounts when making changes to the LAA, Option 2 schools can continue with their current procedure when changing the LAA.

Business Rules:

- Standard Origination and Option 1 schools are required to submit anticipated disbursement changes when making changes to the LAA. This change applies to all program years.
- The LOC rejects a decrease to the LAA if the sum of the anticipated disbursements is greater than the LAA for Standard Origination and Option 1 schools. The error code 12-Total Amount Disbursed Must Be Less Than or Equal to the Loan Amount Approved is returned to the school.
- The LOC continues to recalculate anticipated disbursements amounts for Option 2 schools when you reduce LAA without reducing the anticipated disbursement amounts.
- Standard Origination, Option 1, and Option 2 schools are no longer required to reduce all anticipated disbursements to zeroes before reducing the LAA to zero. The LOC automatically reduces all anticipated disbursements down to zero when it receives a LAA equal to zero. However, this occurs only if there are no actual disbursements or all actual disbursements are already reduced to zeroes at the LOC.

Reduce Turnaround Time for Processing PLUS Credit Check Requests

2001–2002 Modification: The LOC has reduced the turnaround time for acknowledging Full Loan PLUS Origination records to a single daily processing cycle.

Currently, the LOC submits borrower information for all accepted Full Loan PLUS Origination records to its credit check system. This system acknowledges the credit check request with a pass, fail, or incomplete credit check decision for every borrower record.

If an incomplete credit check decision is received, the LOC's Credit Check team investigates the incomplete or inaccurate borrower's data and corrects it before resubmitting the credit check request. This process can delay acknowledging PLUS batches for 2–5 days because of batch integrity. The LOC's goal is to get an accepted or denied credit decision on each accepted Full Loan PLUS Origination record before acknowledging the PLUS batch to the schools. The LOC acknowledges the entire PLUS batch on the 5th business day even if a credit decision is not received for all PLUS loans. Each accepted Full Loan PLUS Origination record in the batch has either an accepted, denied, or pending credit check status. A pending status informs you that further investigation needs to be done by the LOC to obtain an accepted or denied credit decision for the borrower.

When an accepted or denied credit check decision is received, after the accepted Full Loan PLUS Origination record has been acknowledged to the school with a pending status, the LOC sends a PLUS Credit Decision Acknowledgement (batch type #C) that contains the new credit check decision.

Starting in 2001–2002, all accepted Full Loan PLUS Origination records are acknowledged with either an accepted, denied, or pending credit decision within a single processing cycle. A single processing cycle is defined as less than a 24-hour period. The LOC continues its current investigative and subsequent acknowledgement procedures for all PLUS loans initially acknowledged with a pending credit check decision.

Business Rules:

- Acknowledging PLUS batches within a single processing cycle apply to all Full Loan PLUS Origination records received after the February 2001 implementation.
- The LOC continues to investigate and resolve pending credit check decisions received from the credit check system. For pending credit check decisions, you receive an "X" in the Full Loan Origination Status Flag (Field #4) on a Full Loan PLUS Origination Acknowledgement.
- The LOC continues to send you PLUS Credit Decision Acknowledgements (Batch Type #C) when an accepted or denied credit check decision is received for Full Loan PLUS Origination records originally acknowledged with a pending credit check decision.

Run Multiple Daily Loan Origination Center Cycles

2001–2002 Modification: To decrease loan origination data turn around time to schools, the Loan Origination Center (LOC) runs multiple production batch cycles during a 24-hour time period.

Currently, the LOC batch cycle is run once during the night. All data sent by schools is retrieved by the LOC during the evening and processed in the nightly batch cycle run. Schools receive an acknowledgement from the LOC the next morning.

Starting in 2001–2002, the current production run schedule has been modified to allow up to three LOC batch cycles during a 24-hour period. This includes the current nightly batch cycle. By processing multiple batch cycles, the LOC provides schools with more flexibility and better turn around time for the submission and processing of records.

Business Rules:

- This change is applicable to all Subsidized, Unsubsidized, and PLUS loans for all program years.
- Two additional LOC production cycles are performed during a 24-hour period.
- The LOC performs two additional acknowledgement transmissions to schools in a 24-hour period.

Promissory Notes

Use Master Promissory Note (MPN) Expiration Date for Multi-Year Schools When Determining MPN Availability

2001–2002 Modification: At the time of linking Full Loan (Subsidized/Unsubsidized) Origination records (LORs) to MPNs, the LOC uses the expiration date of the MPN to determine MPN availability.

Currently, multi-year use of an MPN expires 12 months after the earliest 1st anticipated disbursement date of any LOR linked to it if no actual disbursement activity has occurred on any of the LORs within the last 12 months. Current processing does not use an MPN expiration date associated with the availability of a borrower's MPN.

Starting in 2001–2002, for multi-year functionality, the LOC uses the MPN expiration date to determine if an LOR should be linked to the MPN. If the MPN is not expired when the LOR is accepted and the Loan Period Start Date is prior to the MPN expiration date, the LOC links the LOR to the MPN. A value of “Y” —LOR has been linked to an MPN at the LOC—is placed in the Master Promissory Note Indicator (Field #8) on the Full Loan (Subsidized/Unsubsidized) Origination Acknowledgement when the LOR is linked to the MPN. Likewise, an “N” —LOR is not linked to an MPN on file at the LOC—is placed in the Master Promissory Note Indicator (Field #8) on the Full Loan (Subsidized/Unsubsidized) Origination Acknowledgement when an MPN is expired or not on file at the LOC.

The MPN expiration date is calculated using one of the following three criteria: (1) 12 months after receipt of the accepted MPN if an LOR is not on file at the LOC; (2) 12 months after the earliest first anticipated disbursement if an LOR is on file but no actual disbursements; or (3) 10 years after the earliest first anticipated disbursement if an LOR and actual disbursement are on file at the LOC. The LOC links LORs to MPNs with the latest expiration date for multi-year schools. The MPN expiration date is displayed on the LO Online Web Application to assist you in knowing when an MPN for the borrower has expired or is close to expiring.

Once a loan is linked to an MPN, all disbursement activity is accepted for the loan provided the activity passes the other disbursement-related edit checks. The disbursement activity is accepted even if it is received after the MPN expiration date. However, when an MPN expires, it is no longer eligible for multi-year processing.

Business Rules:

- For multi-year schools, the LOC uses the MPN expiration date functionality when linking LORs to MPNs for program year 2000–2001 and forward.
- An expired MPN is no longer eligible for multi-year processing. This means no other loans can be linked to the MPN once it expires.
- The MPN expiration date is calculated based on one of the following criteria:
 - The MPN expiration date can be 12 months after the date it is received at the LOC if no LOR has been linked to it.
 - The MPN expiration date can be 12 months after the earliest 1st anticipated disbursement date of any LORs linked to the MPN when no actual disbursement activity has occurred for any of the LORs.
 - The MPN expiration date can be 10 years after the earliest 1st anticipated disbursement date of any LORs linked to the MPN when actual disbursement activity has occurred for any of the LORs.
- If the loan period start date is before the MPN expiration date, the LOC links the LOR to the MPN and returns a value of “A” on the MPN Status (Field #6) and a value of “Y” on the MPN Indicator (Field #8) on the Full Loan Origination Acknowledgement.
- If the loan period start date is after the MPN expiration date, the LOC does not link the LOR to the MPN and returns a value of “N” on the MPN Indicator (Field #8) on the Full Loan Origination Acknowledgement.
- For each borrower, the LOC links incoming LORs to the MPN with the latest expiration date.
- The MPN expiration date is displayed on the LO Online Web Application to assist you in determining the borrower’s MPN availability at the LOC.
- Actual disbursement activity is accepted by the LOC for loans that have been linked to an MPN which has subsequently expired.
 - If the disbursement activity date is on or before the MPN expiration date, the MPN expiration date is extended 10 years after the earliest 1st anticipated disbursement date of the LOR.
 - If the disbursement activity date is after the MPN expiration date, the MPN expiration date remains unchanged and no subsequent LORs can be linked to the expired MPN.

Use Academic Year for Single-Year Schools When Determining MPN Availability

2001–2002 Modification: At the time of linking Full Loan (Subsidized/Unsubsidized) Origination records (LORs) to MPNs, the LOC uses the academic year of the LOR to determine MPN availability.

Currently, the program year on the 21-character loan id is used to determine MPN availability for single-year schools.

Starting in 2001–2002, the LOC uses the Academic Year Start Date and Academic Year End Date to link loans to MPNs for single-year schools. To be in compliance with Direct Loan Regulations, single-year schools are required to submit a new MPN to the LOC for every academic year for each borrower.

Business Rules:

- For single-year schools, the LOC uses the academic year of the LOR when linking LORs to MPNs for program year 2001-2002 and forward.
- For each borrower, you are required to submit an MPN for every academic year.
- The LOC links Subsidized and Unsubsidized loans for a borrower to the same MPN if they are from the same school with the same academic year start date and same academic year end date.
- If more than one LOR has been linked by the LOC to an MPN, the LOC rejects the Loan Origination Change for the academic year start date and/or academic year end date with error code A6 – Cannot Change Academic Year Start or End Date—because the loan is linked to an MPN based on academic year date and it cannot be changed.
- In order to change a borrower’s academic period when more than one loan is linked to an MPN, you must perform the following steps:
 1. Inactivate all loans linked to the MPN on file at the LOC
 2. Originate new loans with the new academic year start and end dates
 3. Submit a new MPN to the LOC

Modify MPN and Full Loan Origination Record Linking Processing

2001–2002 Modifications: At the time of linking Full Loan Origination records (LORs) to Master Promissory Notes (MPNs), the LOC uses the first three characters of the borrower's last name when the borrower's first name is blank on the LOR.

Currently, LORs are linked to MPNs using Social Security number (SSN), date of birth (DOB), and the first three characters of the first name. If there is no match between the first three characters of the first name on the LOR and the MPN, the LOR is not linked. This could prevent the loan from booking if the MPN is the only missing booking element.

Starting in 2001–2002, MPNs are linked using the SSN, DOB, and first three characters of the borrower's first name or the first three characters of the borrower's last name if the borrower's first name is blank on the LOR. This modification increases the probability of linking LORs to MPNs.

Business Rules:

- The LOC uses the first three character of the borrower's last name if the borrower's first name is blank on the LOR when linking LORs to MPN for all Subsidized and Unsubsidized LORs received after the February 2001 implementation
- The LOC links LORs to MPNs using the SSN, DOB, and the first 3 characters of the borrower's first name.
- If the borrower's first name is blank on the LOR, the LOC uses the SSN, DOB, and first 3 characters of the last name to link LORs to MPNs.

Disbursements

Provide Flexibility for Selecting Any Disbursement Number as the First Actual Disbursement

2001–2002 Modification: The restriction that schools must send actual disbursement number “01” as the first disbursement to the Loan Origination Center (LOC) is removed. To provide this flexibility, a new field—First Disbursement Flag—has been added to the Disbursement record layout. However, the Disbursement record length is still 152 bytes. Upon implementation, this modification affects only Program Year 2001–2002. Currently, you are required to send the first actual disbursement to the LOC with disbursement number “01,” having the earliest disbursement activity date for the loan. For Program Year 2000–2001, subsequent actual disbursements can be submitted in any disbursement number and date order as long as the date of the first actual disbursement (01) is the earliest. For program years prior to 2000–2001, subsequent disbursements must be sent in disbursement number and date order.

Starting in 2001–2002, you have the flexibility to select the first actual disbursement as any disbursement number from 01–20 for Subsidized/Unsubsidized loans and from 01–04 for PLUS loans. A new First Disbursement Flag field—Field #24—has been added to the Disbursement (DESD02IN/Batch Type #H) and the Disbursement Acknowledgement (DIODD02OP/Batch Type #H) record layouts. This field is used to indicate the first actual disbursement. If the first actual disbursement is disbursement number “01” and it has the earliest disbursement activity date, you do not need to populate the First Disbursement Flag field. If disbursement number 02–20 for a Subsidized/Unsubsidized loan or 02–04 for a PLUS loan is the first actual disbursement, you must populate the First Disbursement Flag field with an “F” on the disbursement record associated with that disbursement number.

If a first disbursement has been established at the LOC and you realize that another disbursement was disbursed with an earlier activity date, you have the ability to submit a new first disbursement. This is accomplished by submitting the new disbursement record with a “C” in the First Disbursement Flag field. The “C” indicates to the LOC that the disbursement record being submitted is now the new first actual disbursement.

Subsequent actual disbursements can be sent in any number and date order as long as their disbursement activity date is the same or after the established first actual disbursement at the LOC.

You are able to change the first actual disbursement a maximum of two times before requiring U.S. Department of Education approval.

Note: The ability for schools to change the first actual disbursement should only be used in extreme cases. Schools should not perceive this option as part of their regular processing.

Business Rules:

- The flexibility to identify the first actual disbursement applies to Program Year 2001–2002 Subsidized, Unsubsidized, and PLUS loans.
- A First Disbursement Flag field—Field #24—has been added to the Disbursement (DESD02IN/Batch Type #H) and Disbursement Acknowledgement (DIOD02OP/Batch Type #H) record layouts to indicate the first actual disbursement for a loan. The disbursement record length is not changed. It is still 152 bytes.
- The only valid values for the First Disbursement Flag field are as follows:
 - “F” to identify the first actual disbursement with the earliest disbursement activity date.
 - “C” to identify the new first actual disbursement with the earliest disbursement activity date.
 - Blank for any subsequent disbursement, date adjustment, or amount adjustment.
- The First Disbursement Flag field is populated only on actual disbursement records (Disbursement Activity = “D”).
- The First Disbursement Flag field can be populated with an “F” for any disbursement number from 01–20 for Subsidized and Unsubsidized loans and 01–04 for PLUS loans.
- If disbursement number “01” is the first disbursement you send to the LOC and it has the earliest disbursement activity date, your system does not have to populate the First Disbursement Flag field with an “F.” Disbursement number “01,” by default, is considered the first actual disbursement unless another disbursement number is transmitted with an “F” in the First Disbursement Flag field.
- Any disbursement number from 02–20 requires an “F” in the First Disbursement Flag field if it is the first actual disbursement.

- You can continue to submit subsequent actual disbursement activity in any disbursement number and disbursement activity date order as long as the disbursement activity date is equal to or after the date of the first actual disbursement.
- The LOC continues to apply all existing disbursement edits to any disbursement records received at the LOC, including the flagged actual disbursements.
- If several actual disbursements for the same loan are received on the same batch cycle, the disbursements with the First Disbursement Flag field populated are processed first, and the remaining disbursements records are processed in chronological order, starting with the earliest.
- Anticipated disbursements on the Full Loan Origination record continue to be required in sequential and chronological order.
- The following table shows the new Disbursement Reject Codes (44–51) for First Disbursement Flag processing:

Code	Error Message	Edit Description
44	First actual disbursement date cannot be after any subsequent disbursements	Transaction date of the first disbursement should be earlier than the disbursement date of any other disbursement for the loan. For Example: The earliest disbursement date from all subsequent disbursements is "05/21/2001" The disbursement date of the first disbursement can be changed to on or before "05/21/2001"
45	Invalid First Disbursement Flag	First disbursement flag should be "F", "C", or blank for actual disbursement (disbursement activity = "D") -- OR -- First disbursement flag is not blank for adjusted disbursement amounts and dates (disbursement activity = "A" or "Q")
46	First disbursement must be received before any subsequent disbursements	Disbursement numbers 02–20 must have a first disbursement flag of "F" when no disbursement is currently on file at the LOC. First disbursement can be disbursement number 01, or any other disbursement with the first disbursement flag set to "F"

Code	Error Message	Edit Description
47	First disbursement must be received before any changes to the first disbursement	First disbursement flag cannot be "C" when a first disbursement has not been accepted at the LOC
48	First disbursement already received	First disbursement flag must be "C" or blank when a disbursement is already on file at the LOC First disbursement flag cannot be "F" when a first disbursement is already on file at the LOC
49	First disbursement changed more than twice	First disbursement can be changed a maximum of two times before requiring the U.S. Department of Education's approval First disbursement flag cannot be "C" when two prior transactions, with a first disbursement flag of "C," for the loan were accepted by the LOC
50	More than one disbursement record contains the same First Disbursement Flag for this loan	More than one actual disbursement was submitted to the LOC with a first disbursement flag of "F" for this loan in the same cycle -- OR -- More than one actual disbursement was submitted to the LOC with a first disbursement flag of "C" for this loan in the same cycle
51	First disbursement must have the earliest disbursement date	Transaction date of the first disbursement should be before the disbursement date of any other disbursement: For example: The current first disbursement date is "05/21/2001" The disbursement date of any disbursement with a first disbursement flag of "C" should be on or before "05/21/2001" The disbursement date of any disbursement with a blank first disbursement flag should be on or after "05/21/2001"

The following table defines the results of several scenarios concerning the order in which disbursement records can be processed:

Current at the LOC	Disbursement Number	First Disbursement Flag on Incoming Disbursement	Results
No First Actual Disbursement	01	Blank	LOC will accept. Disbursement Number 01 is established as first actual disbursement.
No First Actual Disbursement	01	F	LOC will accept. Disbursement Number 01 is established as first actual disbursement.
No First Actual Disbursement	02	Blank	LOC will reject with error code 46 because the first actual disbursement has not been established at the LOC.
No First Actual Disbursement	02	X	LOC will reject with error code 45 because the First Disbursement Flag has an invalid value.
No First Actual Disbursement	02	F	LOC will accept. Disbursement Number 02 is established as the first actual disbursement.
No First Actual Disbursement	05	C	LOC will reject with error code 47 because a first disbursement flag cannot be established when the LOC does not have an accepted first actual disbursement.
01 is First Actual Disbursement	01	Blank	LOC will reject with error code M because of a duplicate disbursement number. "01" already exists at the LOC.
01 is First Actual Disbursement	02	F	LOC will reject with error code 48 because the first actual disbursement (01) has already been established at the LOC
01 is First Actual Disbursement	04 with a disbursement activity date after the activity date of 01	Blank	LOC will accept because it is a subsequent disbursement.
01 is First Actual Disbursement	04 with a disbursement activity date prior to the activity date of 01	Blank	LOC will reject with error code 51 because it has an activity date earlier than the first actual disbursement.

Current at the LOC	Disbursement Number	First Disbursement Flag on Incoming Disbursement	Results
01 is First Actual Disbursement	04 with a disbursement activity date prior to the activity date of 01	C	LOC will accept and establish 04 as the first actual disbursement because the First Disbursement Flag has a "C" and an activity date prior to the current first actual disbursement (01) on file at the LOC.
01 is First Actual Disbursement	A date adjustment (activity code = Q) for 01	Blank	LOC will accept and update the disbursement activity date for 01.
01 is First Actual Disbursement	A date adjustment (activity code = Q) for 01	A Non-Blank Character	LOC will reject with error code 45 because Blank is the only valid value for the First Disbursement Flag on a Disbursement Date Adjustment record.

Expand Disbursement Reject Codes and Descriptions

2001–2002 Modification: The LOC disbursement reject codes are modified to be consistent with those in the *2001–2002 Direct Loan Technical Reference* guide and to provide information to schools on why a disbursement record rejected.

Currently, the LOC batch disbursement programs create and store internal reject codes when errors are found while validating disbursement records (DESD##IN/Batch type #H) received from schools. These internal reject codes are not always the same as the external reject codes defined in the *2001–2002 Direct Loan Technical Reference* guide. The LO Online Web Application displays the LOC internal reject codes generated by the batch disbursement programs for rejected disbursement transactions to schools. This results in confusion when schools view reject codes for rejected records via the LO Online Web Application.

Starting in 2001–2002, the LOC expands the number and description of disbursement reject codes to more accurately identify the reject reasons. Also, the updated descriptions provide schools with assistance on resolving rejected disbursement records. This ensures that the LOC and the Direct Loan Technical Reference reject codes are consistent.

The following tables list the disbursement reject codes for Program Year 2001–2002 and the new reject codes for previous program years 2000–2001 and 1999–2000. Previous years are listed to maintain consistency with 2001–2002.

Reports

Modify DLSAS and 732 Reports

2001–2002 Modification: The DLSAS and 732 reports are modified to provide additional information to assist schools in their reconciliation and program year close out (PYCO) processes. A new 732 report, Disbursement Activity Detail, is electronically transmitted to schools on a monthly basis.

Currently, the Direct Loan School Account Statement (DLSAS) is created on a monthly basis and contains a monthly cash summary, cash detail, and loan detail at the disbursement-level record. Schools have the option to request loan detail information with or without the cash summary and cash detail. The 732 Report is generated biweekly for Program Years 1997–1998, 1998–1999, and monthly for Program Years 1999–2000 and 2000–2001. The 732 Report consists of year-to-date cash summary, cash detail, and loan-level detail information for a school.

Starting in 2001–2002, year-to-date cash summary, year-to-date disbursement summary, and monthly disbursement summary information are included on the DLSAS. The disbursement summary information is sorted by loan type—Subsidized, Unsubsidized, and PLUS. You have the option to request the DLSAS in the current format (text file) (DSAS02OP/Batch Type AS) or as a comma-delimited ASCII file (DSAC02OP/Batch Type AS). Both are transmitted to schools via the Student Aid Internet Gateway (SAIG).

You have two options available for receiving the 732 report. Option one is the current 732 Loan Detail Report with the new year-to-date disbursement summary information. The second option is the new 732 Disbursement Activity Report which includes disbursement summary, cash receipt, excess cash, and disbursement activity detail information. The 732 Disbursement Activity Report displays information for the Actual Disbursement and Adjustment Disbursement Amount activities. Disbursement date adjustments are not included.

Business Rules:

- DLSAS and 732 Report new record layouts apply to Program Year 2001–2002.
- DLSAS and 732 Reports for program years prior to 2001–2002 continue in the current record layout.
- You have the option, for each open program year, to receive or not receive the DLSAS and 732 reports. However, once the LOC receives activity for your school, you must receive either the DLSAS, 732, or both.

- Contact your Loan Origination Center Customer Service Representative or use the LO Online Web Application to set or change your DLSAS and 732 Report options.
- The new DLSAS and 732 record layouts are included in Section 1, Custom Layouts, of the *2001–2002 Direct Loan Technical Reference* guide. See Appendix A for a sample report layout of the DLSAS report

Changes Unique to the 732 Report:

- 732 Reports for your school are automatically generated upon receipt of disbursement, drawdown, or excess cash activity for your school at the LOC. This provides you with the 732 Report early in the program year.
- You have the option to receive either the 732 Loan Detail Report or the new 732 Disbursement Activity Detail Report. By default, the LOC generates the 732 Loan Detail Report if you do not specify the 732 Disbursement Activity Detail Report. The new 732 Disbursement Activity Detail Report gives you detailed disbursement activity information for your loans on file at the LOC.
- A new Disbursement Summary Record by Loan Type, Section I, is added to the 732 Loan Detail Report and 732 Disbursement Activity Detail Report. This section consists of four (4) different record types—Disbursement Total for Subsidized Loans (YS), Disbursement Total for Unsubsidized Loans (YU), Disbursement Total for PLUS Loans (YP), and Disbursement Total for Subsidized/Unsubsidized/PLUS Loans (YT).
- Each disbursement total loan type record gives year-to-date summary information such as Booked and Unbooked Gross Amounts, Booked and Unbooked Fee Amounts, Booked and Unbooked Interest Rebate Amounts, and Booked and Unbooked Net Amounts.
- Except for the Record Type (Field #4—YS, YU, YP, or YT) the record layout is the same for each disbursement total loan type record.
- The Disbursement Summary Record by Loan Type section provides you with summary disbursement amounts for each loan type (Subsidized, Unsubsidized, and PLUS) and the total for all loan types.
- A new Disbursement Activity Detail, Section V, is created for the 732 Disbursement Activity Detail Report. This section consists of two (2) different record types—Booked Disbursement Activity Detail (B) and Unbooked Disbursement Activity Detail (U).

- Each disbursement activity detail record type lists the disbursement (disbursement activity = “D”) or adjusted disbursement amount (disbursement activity = “A”) detail information such as Gross Amount, Fee Amount, Interest Rebate Amount, Net Amount, Net Adjustment Amount for a loan.
- The Total Gross Amount, Total Fee Amount, Total Interest Rebate Amount, and Total Net Amount at the loan level are included in the last disbursement activity detail record for the particular loan.
- Except for the Record Type (B or U) and Disbursement Activity Type (D or A) the record layout is the same for each disbursement activity detail record.
- The 732 Loan Detail Report option generates two files that are sent in the following record type order:
 - The first file includes the Disbursement Total For Subsidized Loans, Disbursement Total For Unsubsidized Loans, Disbursement Total For PLUS Loans, Disbursement Total For Subsidized/Unsubsidized/PLUS Loans, Cash Receipts, Excess Cash, Booked Loan Detail, and Unbooked Loan Detail record types. The message classes are ED1202OP (monthly) and ED0902OP (bi-weekly)
 - In the second file, the Cash Summary record is provided. The message classes are ED1302OP (monthly) and ED1102OP (bi-weekly).
- The 732 Disbursement Activity Detail Report option generates two files that are sent in the following record type order:
 - The first file includes the Disbursement Total For Subsidized Loans, Disbursement Total For Unsubsidized Loans, Disbursement Total for PLUS Loans, Disbursement Total For Subsidized/Unsubsidized/PLUS Loans, Cash Receipts, Excess Cash, Booked Disbursement Activity Detail, Unbooked Disbursement Activity Detail, and Cash Summary record types. The new message class is DDAM02OP (monthly) and DDAD02OP (on demand).
 - A separate file provides the Cash Summary record. The message classes are ED1302OP (monthly) and ED1102OP (bi-weekly).
- The 732 Booked Loan Detail, Unbooked Loan Detail, Booked Disbursement Activity Detail, and Unbooked Disbursement Activity Detail record types are sorted by loan type (Subsidized/Unsubsidized/PLUS) and then by loan SSN. For example, all subsidized loans are reported together and sorted by the first 9 characters of the 21-character loan identifier.
- The Cash Summary information is in a separate file in both the 732 Loan Detail Report and 732 Disbursement Activity Detail Report. As an additional flexibility, if you request the 732 Disbursement Activity Detail Report, the Cash Summary record is also included in the first file of this report so you can import one file in order to receive all your 732 information.

Changes Unique to the DLSAS:

- The new Year-to-Date Cash Summary section is provided in addition to the current, monthly Cash Summary section within the DLSAS.
- The Cash Summary Statement Record Type continues to be “T” for both monthly and year-to-date total records.
- Except for the Cash Summary Type (Field #5—Y1 for Year-to-Date and M1 for Monthly) the Year-to-Date Cash Summary and Monthly Cash Summary have the same record layouts.
- You have the option, via the LO Online Web Application or calling your LOC CSR, to request and receive the DLSAS in either the current text format or the new comma-delimited format for Program Year 2001–2002.
- By default, the LOC transmits the DLSAS in the current text file format unless you request it in the new comma-delimited ASCII format.
- The Year-to-Date Disbursement Summary by Loan Type (Record Type “Y”) and Monthly Disbursement Summary by Loan Type (Record Type “M”) are new record types created on the DLSAS.
- The new Year-to-Date Disbursement Summary by Loan Type section consists of four (4) different record types:
 - Year-to-Date Disbursement Total for Subsidized Loans (YS)
 - Year-to-Date Disbursement Total for Unsubsidized Loans (YU)
 - Year-to-Date Disbursement Total for PLUS Loans (YP)
 - Year-to-Date Disbursement Total for Subsidized/Unsubsidized/PLUS Loans (YT)
- The new Monthly Disbursement Summary by Loan Type section consists of four (4) different record types:
 - Monthly Disbursement Total for Subsidized Loans (MS)
 - Monthly Disbursement Total for Unsubsidized Loans (MU)
 - Monthly Disbursement Total for PLUS Loans (MP)
 - Monthly Disbursement Total for Subsidized/Unsubsidized/PLUS Loans (MT)
- Each disbursement total loan type record gives year-to-date or monthly summary information such as Booked and Unbooked Gross, Booked and Unbooked Fee, Booked and Unbooked Interest Rebate, and Booked and Unbooked Net amounts.

- Except for the Statement Record Type (Field #1—Y for Year-to-Date and M for Monthly) and Disbursement Summary Type (YS, YU, YP, or YT and MS, MU, MP, or MT) the record layout is the same for the year-to-date and monthly disbursement total loan type record.
- The Disbursement Summary by Loan Type sections provide you with year-to-date or monthly summary disbursement amounts for each loan type (Subsidized, Unsubsidized, and PLUS) and the total for all loan types.
- When you request the DLSAS, the LOC always sends the Year-to-Date Cash Summary, Year-to-Date Disbursement Summary, Monthly Cash Summary, Monthly Disbursement Summary, and Cash Detail.
- The LOC sends the Loan Detail (Record Type = L) unless you have informed the LOC that you do not want to receive it. The Loan Detail is still an optional record type.
- The DLSAS Loan Detail Record Type “L” is sorted by loan type (Subsidized/Unsubsidized/PLUS) and then by loan SSN.

Provide More School Report Options

2001–2002 Modification: The current formatted school reports are now available as comma-delimited reports.

Currently, the 30-Day Warning Report, Anticipated Disbursement Listing (ADL), Actual Disbursement Roster (ADR), Inactive Loans Report, SSN/Name/DOB Change Report, Pending SSN Changes Over 45 Days Report, Duplicate Student Borrower Report, and the Disbursement Not Yet Booked At Servicing Report are all transmitted to the schools in a predefined report format.

Starting in 2001–2002, the 30-Day Warning Report (DIWC02OP), Anticipated Disbursement Listing (ADL) (DALC02OP), Actual Disbursement Roster (ADR) (DARC02OP), Disbursement Not Yet Booked At Servicing Report (DASC02OP), Duplicate Student Borrower Report (DUPC02OP), Inactive Loans Report (DILC02OP), Pending SSN Changes Over 45 Days Report (DPSC02OP), and the SSN/Name/DOB Change Report (DSNC02OP) are available in the current predefined report format or in comma-delimited ASCII format. You have the flexibility and the option to request these reports in either the predefined report format or the ASCII delimited format depending on how you want to receive and process the data.

Additionally, you have the option not to receive any of the reports for a reporting period, except for the Actual Disbursement Roster. The LOC continues to send you the ADR on a weekly basis if you currently receive it and have drawdown activity.

Business Rules:

- Eight new comma-delimited school reports are available to provide you with more flexibility in how data is received. A comma (,) is used as the delimiter character on all delimited reports.
- You have the option to continue to receive your DL program reports in the predefined report format or in the new comma-delimited format.
- You have the option to receive or not receive a specific DL program school report. This option is not available for the ADR.
- To notify the LOC of your report option, call your LOC Customer Service Representative.
- If you do not select a report format option, the LOC continues to send the report in its current format.
- If you do not select to receive or not receive option, the LOC continues to send the report according to its current reporting frequency (daily, weekly, or monthly).

- If you select not to receive a report, the LOC generates the report for the reporting period and stores it in case you request it in the future.
- If you select not to receive a report, the LOC does not send the report until you notify the LOC that you would like to receive the report.
- The comma-delimited report has the following information at the beginning of the report, prior to the detail records:
 1. Header Information: U.S. DEPARTMENT OF EDUCATION:

Display Current and Prior Year Loans on Duplicate Student Borrower Report

2001–2002 Modification: The Duplicate Student Borrower Report that is sent to the schools is modified to report loan data only for the current and prior program years.

For 1998–1999, the selection criteria for reporting loans on the Duplicate Student Borrower Report was to report loans for the same borrower and loan year at different Direct Loan schools. For 1999–2000 and forward, the criteria is to report loans for the same borrower with equal or overlapping academic years at different Direct Loan schools. Currently, the Duplicate Student Borrower Report displays loan data for three academic years (1998–1999, 1999–2000, and 2000–2001).

Starting in 2001–2002, the Duplicate Student Borrower Report displays loans for the current year (2001–2002) and previous program year (2000–2001). Data for program years prior to 2000–2001 is not displayed on the report. This eliminates extraneous data being sent to schools, reduces the report size, and increases report manageability for schools.

Business Rules:

- Program Year 1999–2000 is included on the Duplicate Student Borrower Report until June 30, 2001.
- Starting on July 1, 2001, only Program Year 2000–2001 and 2001–2002 loan data is included on the Duplicate Student Borrower Report.
- The LOC continues to use the same loan selection criteria—Same borrower, different schools, and equal or overlapping academic years.

Note: See Appendix A, Direct Loan Reports, for a sample report.

Reduce Number of Loans Displayed on 30-Day Warning Report

2001–2002 Modification: Loans without a promissory note and an actual disbursement at the Loan Origination Center that appear on the 30-Day Warning Report for 90 days are removed from the 30-Day Warning Report.

Currently, the 30-Day Warning Report displays unbooked loans with the 1st anticipated disbursement date more than 30-days prior to the month end date. The report also gives detailed reasons why the loan is listed on the report. For example, if the loan is missing the promissory note, an actual disbursement, or a failed credit check for a PLUS, that loan is reported on the 30-Day Warning Report. If the missing information is not resolved, the loan continues to appear on the report. After a period of time, this information becomes extraneous to the schools.

Starting in 2001–2002, The LOC does not report an unbooked loan with a 1st anticipated disbursement date more than 90 days from the month end date if the loan does not have an accepted Promissory Note and an actual disbursement. This change in reporting reduces the size of the report and provides more meaningful and timely information. However, if a Promissory Note and an Actual Disbursement is received on an unbooked loan, it is reported on the 30-Day Warning Report.

Business Rules:

- This change is applicable to all program year loans.
- Loans are not reported on the 30-Day Warning Report if all of the following conditions are met:
 - The 1st Anticipated Disbursement date is more than 90-days from the month end date.
 - There is no accepted Promissory Note on file for the loan.
- There are no Actual Disbursements on file for the loan.

Note: See Appendix A, Direct Loan Reports, for a sample report.

Software Providers Interface

Test With Third Party Servicers/Software Providers

2001–2002 Modification: The LOC has established a testing environment, parallel to production, where Third Party Servicers/Software Providers and schools can test their software modifications.

Currently, the only available testing capability between the LOC and schools is the New School Testing environment. If a school is in production, it must switch to a testing status in order to test with the LOC. The school is not able to run production data when it is in a testing status.

Starting in 2001–2002, third party servicers/software providers and schools have the ability to test directly with the LOC in an environment that simulates production. Also, you are able to remain in production and simultaneously test your software modifications. Testing directly with third party servicers/software providers allows for more extensive testing and reduces the likelihood of rejected transactions by the LOC.

Business Rules

- Third party servicers/software providers begin testing with the LOC in January 2001.
- The two available periods of testing are (1) January 2001 through February 16, 2001 and (2) April 2001 through September 28, 2001. The period from February 16, 2001 through March 31, 2001, the LOC is validating its newly released 2001–2002 software enhancements. Once this is completed, the third party servicers/software providers testing environment reopens.
- You have the ability to conduct a full end-to-end test (input and acknowledgement records) that mimics the production process.
- The LOC provides you with a set of predetermined test cases complete with expected results. This includes test cases for the 2001–2002 enhancements, as well as, regression test cases for prior open program year changes.
- In addition to the predetermined test cases provided by the LOC, you have the flexibility to create your own test cases. However, you, not the LOC, is responsible for validating the results of your test cases.

- Third party servicers/software providers and schools are not required to switch from production to testing in order to test in the third party servicers environment. You are able to send and receive both production and test data simultaneously because the LOC has created two separate environments.
- The LOC assigns third party servicers/software providers and schools with separate test IDs and school codes so as not to interfere with production processing. This is provided to you prior to the January 2001 testing date.
- Technical support is provided to assist you with resolving any testing issues that may arise.
- A testing status report for each participating third party servicer/software provider is posted on the LO Online Web Application. This report only states whether your testing status is completed or in progress.
- A Third Party Servicers Testing Guide is provided to you prior to the January 2001 testing date to assist you in establishing and completing your testing effort.

Data Recovery

Automate Rebuild for Direct Loan Participants

2001–2002 Modification: An automated rebuild capability for Direct Loan participants is developed incorporating electronic files from the Loan Origination Center (LOC). A new Rebuild Loan File record layout (Message Class-DLRBLDOP/Batch Type-RB) is created to transmit the files from the LOC to schools.

Currently, the LOC provides a data dump on CD-ROM to Direct Loan participants to manually rebuild their Direct Loan databases. The school makes the request through the LOC Customer Service Representatives (CSRs).

Starting in 2001–2002, the LOC has developed an electronic rebuild capability for schools to respond to data recovery situations. The rebuild file provides current LOC origination, and disbursement data to the requesting school. The Rebuild Loan File (DLRBLDOP/Batch Type RB) includes two record types—Origination Detail Record and Disbursement Detail Record. You can request a rebuild loan file by calling your CSR at the LOC or by entering the request through the LO Online Web Application. The LOC then creates a standard electronic rebuild file according to the parameters specified by the school. The electronic rebuild loan file is sent to the school via the SAIG.

Business Rules:

- A new Rebuild Loan File (DLRBLDOP/Batch Type–RB) is created to transmit data recovery information from the LOC to schools. Only data for program years 2000–2001 and 2001–2002 is transmitted in the Rebuild Loan File.
- Standard Header and Trailer records are used to transmit the Rebuild Loan File to the schools via the SAIG. You can use the Cycle Indicator within the Batch Identifier (Field #4) to identify the program year of the data included in the Rebuild Loan File.
- You can request loan data recovery information by calling your LOC Customer Service Representative or by entering the request via the LO Online Web Application.
- The available loan data recovery request options are listed below:
 - Data by single or multiple program years (for example, 2000–2001, 2001-2002)
 - Data by date range (for example, MM/DD/CCYY–MM/DD/CCYY)
 - Data for a particular student by providing both the Social Security Number (SSN) and date of birth
 - Data for a specific loan by providing the 21-character Loan Identifier.

- Each Rebuild Loan File is program year specific. In other words, data for program year 2000–2001 is in a separate file from data for program year 2001–2002 as indicated in the Header record.
- The Rebuild Loan File consists of the following two record types:
 - Rebuild Origination Detail Record (Record Type = O)
 - Rebuild Disbursement Detail Record (Record Type = “D”)
- All Rebuild Origination Detail Records, matching your request, are reported first in the Rebuild Loan File followed by all Rebuild Disbursement Detail Records matching your request.
- A Rebuild Disbursement Detail Record for each of the following disbursement activities on the LOC database matching your request is included in the Rebuild Loan File:
 - Actual Disbursement (Disbursement Activity = D)
 - Adjusted Disbursement Amount (Disbursement Activity = A)
 - Adjusted Disbursement Date (Disbursement Activity = Q)
- Additionally, manual disbursement adjustments performed at the LOC are included as Rebuild Disbursement Detail Records in the Rebuild Loan File.
- Only data accepted by the LOC for Full Loan Origination, Loan Origination Change, and Disbursement records are included in the Rebuild Loan File. The Rebuild Origination Detail Record reflects the most current loan information at the LOC, inclusive of changes to loan data.
- Additional information included on the Rebuild Origination Detail Record is:
 - Credit Decision Indicator (PLUS) (Field #167)
 - Promissory Note Status (PLUS) (Field #168)
 - Master Promissory Note Status (Field #169)
 - Master Promissory Note Indicator (Field #170)
 - Master Promissory Note Identification (Field #171)
- Rebuild Disbursement Detail Records are not created for Booking Disbursements (Disbursement Activity = L), Booking Adjustments (Disbursement Activity = M), and Servicer Refund (Disbursement Activity = P) because they are not initiated by the school. However, the Rebuild Disbursement Detail Record does include the LOC’s Total Net Booked Loan Amount (Field #15) and the LOC’s Booked Date (Field #16).
- The rebuild record layouts are included in the Appendix E of the *2001–2002 Direct Loan Technical Reference* guide.

Up-front Interest Rebate

Implement Up-front Interest Rebate

2001–2002 Modification: Modify origination, disbursement, and report software modules to fully implement Phase II of the Up-front Interest Rebate program for Program Year 2001–2002 and forward.

Currently, as part of the Phase I Up-front Interest Rebate Program, the borrower receives an interest rebate amount credit for a 2000–2001 program year loan through the Direct Loan Servicing Center (DLSC). Since the rebate occurs after a loan has been disbursed, neither schools nor third party software providers were required to make system changes. The interest rebate amount is 1.5 percent of the gross disbursement amount and is credited to the borrower’s loan account at the DLSC.

Starting in 2001–2002, the LOC, schools, and third party software providers must modify their origination, disbursement, and reporting modules to implement the up-front interest rebate. The up-front interest rebate requires amount calculations at the time of origination and disbursement.

Business Rules:

- The up-front interest rebate applies to Program Year 2001–2002 and forward.
- The up-front interest rebate percentage for 2001–2002 continues to be 1.5 percent.
- The up-front interest rebate amount is calculated at the anticipated and actual disbursement level by the schools for each Direct Subsidized, Direct Unsubsidized and Direct PLUS loan.

- Twenty new 5-byte Disbursement Anticipated Interest Rebate Amount fields are added to the Full Loan Origination record layout. The Full Loan Origination record new length of 1064 bytes accommodates the new fields. The new fields are listed in the following table:

Field Number	Field Name and Description
24	1st Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 1st disbursement
29	2nd Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 2nd disbursement
34	3rd Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 3rd disbursement
39	4th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 4th disbursement
44	5th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 5th disbursement
49	6th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 6th disbursement
54	7th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 7th disbursement
59	8th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 8th disbursement
64	9th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 9th disbursement
69	10th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 10th disbursement
74	11th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 11th disbursement
79	12th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 12th disbursement

Field Number	Field Name and Description
84	13th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 13th disbursement
89	14th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 14th disbursement
94	15th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 15th disbursement
99	16th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 16th disbursement
104	17th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 17th disbursement
109	18th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 18th disbursement
114	19th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 19th disbursement
119	20th Disbursement Anticipated Interest Rebate Amount The anticipated interest rebate amount for the 20th disbursement

- A new 5-byte field, Disbursement Actual Interest Rebate Amount (Field #9) has replaced the Disbursement Actual Net Adjustment Amount (Field #9) on the Disbursement and Disbursement Acknowledgment (DESD02IN/DIOD02OP/Batch Type #H) record layout.
- The interest rebate amount calculated by the school is sent to the LOC in the Disbursement Actual Interest Rebate Amount (Field #9).
- The Disbursement Actual Net Adjustment-LOC field is removed from the Disbursement record layout. You are no longer required to calculate the Disbursement Actual Net Adjustment. When disbursement adjustment amounts are received, the LOC calculates and stores the Disbursement Net Adjustment amount. This amount continues to display on appropriate reports such as the DLSAS.

- A new 5-byte field, Disbursement Actual Interest Rebate Amount-LOC (Field #25) is added to the Disbursement (DESD02IN/DIOD02OP/Batch Type #H). The interest rebate amount calculated by the LOC is returned to the school in this field only if it is different than what the school calculated.
- The size of the Disbursement and Disbursement Acknowledgment record layouts is unchanged and remains 152 bytes.
- Schools must calculate the anticipated and actual disbursements using the following guidelines:
 - Loan Fee Percentage = 3 percent for Subsidized/Unsubsidized and 4 percent for PLUS
 - Interest Rebate Percentage = 1.5 percent
 - Combined Fee/Interest Rebate Percentage or Amount is a field only used to assist you in calculating your disbursement amounts.
 - Truncate means using only the whole dollar portion of any resulting amounts. Do not do any rounding.

Field Name	Calculation
Gross Disbursement Amount	Use current method to calculate individual Gross Disbursement Amount. The variance is still applied to the last anticipated disbursement.
Combined Fee/Interest Rebate Percentage	Loan Fee Percentage minus Interest Rebate Percentage
Combined Fee/Interest Rebate Amount Truncate the result	Gross Disbursement Amount multiplied by (Loan Fee Percentage minus Interest Rebate Percentage) --OR-- Gross Disbursement Amount multiplied by Combined Fee/Interest Rebate Percentage Take the calculation out to 3 decimal places
Loan Fee Amount Truncate the result	Gross Disbursement Amount multiplied by Loan Fee Percentage Take the calculation out to 3 decimal places
Net Disbursement Amount	Gross Disbursement Amount minus Combined Fee/Interest Rebate Amount
Interest Rebate Amount	Net Disbursement Amount minus (Gross Disbursement Amount minus Loan Fee Amount)

- Schools continue to send to the LOC the gross amount, loan fee amount, and net amount for each anticipated and actual disbursement. In addition, the calculated interest rebate amount is sent for each anticipated and actual disbursement.

- When anticipated disbursement amounts are received, the LOC edits the sum of all anticipated disbursements against the Loan Amount Approved to ensure the sum does not exceed the \$1 allowable tolerance. The LOC also calculates each individual anticipated disbursement amount and compares its amount to your calculated amounts to ensure consistency and accuracy of calculations.
- A new loan origination reject code, A5-Anticipated Interest Rebate Amount is Not Equal to the LOC's Interest Rebate Amount, is returned to you if your interest rebate amount calculation exceeds the \$1 allowable tolerance.
- The LOC continues to use reject code 27-Anticipated Net Amount is Not Equal to the LOC's Calculated Net Amount when your net amount calculation exceeds the \$1 allowable tolerance.
- When actual disbursement and disbursement adjustment amounts are received, the LOC edits the sum of all disbursement amounts to ensure the variance does not exceed the \$10 allowable tolerance when compared to the Loan Amount Approved and anticipated disbursements. The LOC also calculates each individual actual disbursement amount and compares its amount to your calculated amounts to ensure consistency and accuracy of calculations.

- The new disbursement reject codes for interest rebate processing and the LOC's internal calculations are listed in the following table:

Code	Field Name	Description
52	Disbursement Interest Rebate Amount is not numeric	Disbursement interest rebate amount should be numeric
53	Disbursement Interest Rebate Amount is invalid	Disbursement interest rebate amount should be greater than or equal to zero for adjusted disbursement amount
54	Disbursement Interest Rebate Amount does not equal the LOC's calculated interest rebate amount	<p>Disbursement interest rebate amount does not equal the LOC's calculated interest rebate amount</p> <p>The LOC's interest rebate amount is calculated using the following steps:</p> <p>Step 1: Calculate the Combined Fee/ Interest Rebate Percentage by subtracting the Interest Rebate Percentage from the Loan Fee Percentage</p> <p>Step 2: Calculate the Combined Fee/Interest Rebate Amount by multiplying the Gross Amount by the Combined Fee/Interest Rebate Percentage and truncating the result</p> <p>Step 3: Calculate the Fee Amount by multiplying the Gross Amount by the Loan Fee Percentage and truncating the result</p> <p>Step 4: Calculate the Interest Rebate Amount by subtracting the Combined Fee/Interest Rebate Amount from the Fee Amount</p>
55	Invalid Loan Fee Rate for First Anticipated Disbursement Date	Loan fee rate used to calculate the disbursement actual fee amount should match the valid fee rate in effect as of the first anticipated disbursement date

- The LOC includes the Interest Rebate Amount on the DLSAS, 732 Reports, Anticipated Disbursement Listing, Actual Disbursement Roster, Loan Detail Exception Report for Booked Loans, and Loan Detail Exception Report for Unbooked Loans.
- You provide the Interest Rebate Amount on the Optional Loan Detail Exception report when you send it to the LOC.
- A new 5-byte Change Field Transmit Number S193—Interest Rebate Percentage—allows you to change the interest rebate percentage. This is to accommodate future changes to the interest rebate percentage with minimal impact to your school software systems.

- In order to change the interest rebate percentage, you must perform the following steps:
 1. Send Disbursement record(s) reducing all actual disbursements down to zero (\$0), if any exist at the LOC
 2. Send a Loan Origination Change record with the new interest rebate percentage value using Change Field Transmit Number S193

Note: The Loan Origination Change record and the Disbursement record can be transmitted to the LOC in the same cycle.
- If the LOC accepts the new Interest Rebate Percentage and there are **NO** Actual Disbursements on file at the LOC, the LOC calculates and stores the new Disbursement Gross Amount, Loan Fee Amount, Interest Rebate Amount, and Net Disbursement Amount for each anticipated disbursement. When the LOC acknowledges the Interest Rebate Percentage as accepted it confirms that the new anticipated disbursement amounts have been recalculated. You can use the LO Online Web Application to view the new anticipated disbursement values.
- The LOC rejects the Interest Rebate Percentage change with reject code A8-All Actual Disbursements Are Not Reduced to Zero if you send an Interest Rebate Percentage change without reducing all actual disbursements at the LOC to zero. Remember, you can send the Loan Origination Change record and Disbursement record in the same cycle.
- The LOC rejects the Interest Rebate Percentage change with reject code A7-Invalid Interest Rebate Percentage if you send an interest rebate percentage that is not approved by the U.S. Department of Education.
- The interest rebate amount is included on the following reports:
 - Anticipated Disbursement List (ADL)
 - Actual Disbursement Roster (ADR)
 - 732 Loan Detail and Disbursement Activity Detail Reports
 - Direct Loan School Account Statement (DLSAS)
 - Optional Loan Detail Exception Report
 - Disbursement Activity Not Yet Booked at Servicing Report
- See Section 1, Custom Layout section of the *2001–2002 Direct Loan Technical Reference* guide for the 2001–2002 Full Loan Origination, Disbursement, and Disbursement Acknowledgement record layouts.

Disclosure Statement

Modify Disclosure Statement and Process

2001–2002 Modification: Modify the Disclosure Statement to accommodate the full implementation of the up-front interest rebate program for Program Year 2001–2002 and forward.

Currently, one Disclosure Statement is used for Program Years 1999–2000 and 2000–2001. Since interest rebate is new for Program Year 2001–2002, the interest rebate is not reflected on the current Disclosure Statement.

Starting in 2001–2002, a new Disclosure Statement for Program Year 2001–2002 is used in addition to the one currently used for Program Years 1999–2000 and 2000–2001. The new Disclosure Statement is created to include the interest rebate information. Also, up to 40 anticipated disbursements (20 for Subsidized and 20 for Unsubsidized) are printed on the front of the Disclosure Statement.

Business Rules:

- The new Disclosure Statement is for 2001–2002 loans and forward. You and the Loan Origination Center (LOC) continue to use the existing Disclosure Statement for 1999–2000 and 2000–2001 loans.
- The Disclosure Statement for all program years is printed 30 calendar days prior to the date of the first anticipated disbursement. The exception to this rule is that the LOC prints the Disclosure Statement whenever an actual disbursement is accepted before the 30-day printing criteria.
- Since the new Disclosure Statement can accommodate up to 20 anticipated disbursements for each Subsidized and each Unsubsidized loan on the front of the statement, the LOC is no longer required to print the Disclosure Statement for loans with more than 12 non-zero anticipated disbursements. Loan Origination Change Reject Code 99—Anticipated Disbursement Greater Than 12. LOC is Required to Print the Disclosure Statement—has been eliminated.
- On the new Disclosure Statement, disbursement numbers 01 through 10 are printed in the left-hand column and 11 through 20 are printed in the right-hand column.
- To accommodate interest rebate, the gross loan amount, loan fee amount, interest rebate amount, and net loan amount for each loan are included on the new Disclosure Statement.

- The LOC prints and mails the Plain Language Disclosure with the Disclosure Statement to the borrower only when subsequent loans are linked to an MPN.
- The school prints and mails the Plain Language Disclosure with the Disclosure Statement for loans that do not require the borrower to sign another MPN.
- The LOC or school is no longer required to print the Disclosure Statement every time the LAA and anticipated disbursements change. This applies to all program years. Although reprinting is not required, the U.S. Department of Education recommends that you use your discretion and current business processing guidelines to determine when to reprint.
- The LOC or school does not print a Disclosure Statement for a loan if at the time of meeting the 30 day printing criteria, the loan is inactive (all anticipated disbursement amounts = \$0).
- The LOC or school prints the Disclosure Statement if a loan is inactivated before the 30-day printing criteria and reactivated anytime after the 30-day printing criteria. The Disclosure Statement is printed immediately upon reactivation of the loan. This ensures that the student receives a Disclosure Statement once the loan becomes active.
- The Change Field Transmit Number S115—Disclosure Statement Print Indicator—has a new valid value of “Z”. “Z” indicates to the LOC that you want the LOC to reprint the Disclosure Statement.
- The Total Net Amount and Total Fee Amount are added to the Disclosure Statement used for 1999–2000 and 2000–2001 loans.
- A copy of the 2001–2002 Disclosure Statement and Plain Language Disclosure are in Appendix D.
- See Section 3, Custom System Requirements, of the *2001–2002 Direct Loan Technical Reference* guide for the 2001–2002 Disclosure Statement Print Specifications.

Combination Layouts

Introduction

The file layouts in this section are to be used by a Combination EDEXpress/Institution System to:

1. Import data from another institutional system into the EDEXpress database to create loan origination records (DIEA02OP) or make changes to loan origination records (DIEC02OP); or
2. Export useful data from the EDEXpress system to be used by other institutional systems such as disbursement and loan origination data. The user may use file formats and user-defined queries from within EDEXpress to select the desired fields and specific records for exporting. See the online Help in EDEXpress for details on how to create queries and file formats.

Because each institutional system has unique requirements for importing data files, the export files created by EDEXpress for use by external systems are created without header or trailer records attached. If needed, the appropriate header or trailer records must be created by your institutional system upon import. Also, these export files are created in ASCII format and the end of each record is delineated or marked with carriage return/line feed characters (ASCII 10 and 13). There is no end of file marker (EOF), only the final carriage return/line feed marker after the last record.

Similarly, EDEXpress receives data from external systems without a header and trailer record but does require an ASCII format with the end of each record marked with carriage return/line feed characters (ASCII 10 and 13). Again, there is no end of file marker (EOF); only the final carriage return/line feed marker after the last record.

Note: If the file is incorrectly formatted without the carriage return/line feed, the import fails and the following error message displays: *invalid record length*. (You are given the record size of the import file.)

External Loan Data

You may define your own file layouts and queries from within EDEExpress to select the desired fields and specific records for exporting.

Files exported out of EDEExpress using File Formats can be either standard fixed-length files or a field with each field separated by a delimiter. When exporting a file, if you choose fixed-length, the system exports the file in a standard layout, with each field exported into a specific field position within the layout. If you choose comma, tab, or custom delimiter, the software exports the file with each field separated by the chosen delimiter. Some systems may find it easier to import the file with a selected delimiter, rather than using a fixed-length layout for all exports.

The following layout is a sample if “All Fields” are selected when creating a file format (layout). The file layouts are applied by selecting a file format code when you select an Export type of “Disbursement External,” “Origination External,” or “Origination External” (PLUS only). In these cases the file names are the same (DEER02IN). To narrow or select a specific set of records, you may also use a query in combination with the user defined file layout.

The export process pulls the records from the associated database and resets the Export to External flag to “N” to indicate these records have been exported for use in an external system.

Up-Front Interest Rebate Implementation for 2001–2002

To assist you in making system modifications for the 2001-2002 Program Year implementation of the up-front interest rebate, we are providing you with this section to identify impacts to your system, especially disbursements. This section includes the business rules and calculations for:

- gross disbursement,
- loan fee,
- net disbursement, and
- interest rebate amounts.

The net disbursement and interest rebate amount calculations are new for Program Year 2001-2002 and forward because of the up-front interest rebate program.

Business Rules

- An up-front interest rebate amount will be calculated at the disbursement level by the schools for each Direct Subsidized, Direct Unsubsidized and Direct PLUS loan.
- The up-front interest rebate percentage that is in affect starting with 2001-2002 Direct Loans is 1.5% of the gross disbursement amount.
- The current method to calculate individual Gross Disbursement Amounts and the current rounding logic remain as is. The variance is still applied to the last anticipated disbursement.

- The method to calculate the Net Disbursement Amount and Interest Rebate Amount is new. The new calculations are explained below.
 - The resulting Loan Fee Amount and Interest Rebate Amount are truncated. Truncated means the cents are removed and the remaining whole dollar is the amount to use. Do not round up or down.
 - When calculating the Combined Fee/Interest Rebate Amount and the Loan Fee Amount, take all results out 3 decimal places to ensure consistent results in automated tools such as MS Excel.
- Twenty new 5-byte fields for the Anticipated Disbursement Interest Rebate Amount are added to the 2001-2002 LOR layout for each anticipated disbursement. The LOR acknowledgment has not changed.
- Two new 5-byte fields, Disbursement Actual Interest Rebate Amount and Disbursement Actual Interest Rebate Amount-LOC, are added to the 2001-2002 Disbursement record layout.
- The size of the Disbursement and Disbursement Acknowledgment record layouts is unchanged and remains 152 bytes.
- Schools send to the LOC the gross disbursement amount, loan fee amount, and net disbursement amount for anticipated and actual disbursements. Additionally, schools send the interest rebate amount for both anticipated and actual disbursements.

Gross Disbursement Calculations

Gross disbursement calculations do not change with the interest rebate implementation.

When determining gross disbursement amounts for a loan, dollar figures are rounded to the nearest dollar and all disbursements are equal with the exception of the last disbursement, in some cases. This is due to any variance being applied to the last disbursement.

When computing gross disbursement amounts, use the following specifications:

Step 1: Individual disbursement amount is Loan Amount Approved divided by the total number of disbursements.

If necessary, truncate any positions that exist past 2 decimal places.

Step 2: Round the individual disbursement amount. Rounding occurs at the 1st and 2nd decimal places to the nearest dollar.

- If the 1st and 2nd decimal places are 50 or greater, increment the 1st digit to the left of the decimal sign by one.
- If the 1st and 2nd decimal places are less than 50, do not change the 1st digit to the left of the decimal sign.

Step 3: To determine the amount of the last disbursement, multiply the individual disbursement amount by the number of disbursements.

- If the sum of the disbursements is greater than the Loan Amount Approved, subtract the difference from the last disbursement.
- If the sum of the disbursements is less than the Loan Amount Approved, add the difference to the last disbursement.

The variance is applied to the last disbursement.

Three examples are provided on the next pages.

Example 1: Determining Gross Disbursement Amount for Two Disbursements

Loan Amount Approved: \$2625

Step 1: 2625 divided by 2 = 1312.5000

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore, 1312.5000 truncates to 1312.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

- If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by 1.
- If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 1312.50 to 1313. Therefore, all disbursement amounts are 1313 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 1313 by 2 = 2626

Since \$2626 is more than \$2625, subtract the difference of \$1. The last disbursement is equal to \$1313-\$1 or \$1312.

Final Results:

1st Gross Disbursement Amount = 1313

2nd Gross Disbursement Amount = 1312

Total Loan Amount = \$2625

Example 2: Determining Gross Disbursement Amount for Three Disbursements

Loan Amount Approved: \$1000

Step 1: 1000 divided by 3 = 333.3333

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore, 333.3333 truncates to 333.33

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

- If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by one.
- If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 333.33 to 333. Therefore, all disbursement amounts are 333 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 333 by 3 = 999

Since \$999 is less than \$1000 you add the difference of \$1. The last disbursement is equal to \$333 + \$1 or \$334.

Final Results:

1st Gross Disbursement Amount = \$333

2nd Gross Disbursement Amount = \$333

3rd Gross Disbursement Amount = \$334

Total Loan Amount = \$1000

Example 3: Determining Gross Disbursement Amount for Six Disbursements

Loan Amount Approved: \$22,167

Step 1: 22167 divided by 6 = 3694.5000

First truncate any positions that exist past 2 decimals as rounding occurs at the 1st and 2nd decimal places.

Therefore, 3694.5000 truncates to 3694.50

Step 2: Round at the 1st and 2nd decimal places to determine the individual disbursement amount.

- If the 1st and 2nd decimal places are .50 or greater, increment the 1st digit to the left of the decimal sign by 1.
- If the 1st and 2nd decimal places are less than .50, do not change the 1st digit to the left of the decimal sign.

Round 3694.50 to 3695. Therefore, all disbursement amounts are 3695 except the last disbursement.

Step 3: To determine the last disbursement amount, multiply the individual disbursement amount by the number of disbursements.

Multiply 3695 by 6 = 22170

Since \$22170 is more than \$22167, subtract the difference of \$3. The last disbursement is equal to \$3695-\$3 or \$3692.

Final Results:

1st Gross Disbursement Amount = \$3695

2nd Gross Disbursement Amount = \$3695

3rd Gross Disbursement Amount = \$3695

4th Gross Disbursement Amount = \$3695

5th Gross Disbursement Amount = \$3695

6th Gross Disbursement Amount = \$3692

Total Loan Amount = \$22,167

Net Disbursement Amount, Loan Fee Amount, and Interest Rebate Amount Calculations

Loan fee amount calculations do not change with the interest rebate implementation. However, net disbursement amount and interest rebate amount calculations are new.

When determining the Combined Fee/Interest Rebate Amount and Loan Fee Amount truncate the result. Truncation is using only the whole dollar part of the amount with no rounding up or down. The combined fee/interest is a field used to assist in the calculation of the net disbursement amount.

When calculating individual disbursement loan fee amount, interest rebate amount, and net disbursement amount, use the following specifications for all disbursements:

To calculate **Net Disbursement Amount**:

Step 1: Combined Fee/Interest Rebate Amount (go out to 3 decimal places) = Gross Disbursement Amount x (Loan Fee Percentage – Interest Rebate Percentage)

Step 2: Truncate the Combined Fee/Interest Rebate Amount

Step 3: Net Disbursement Amount = Gross Disbursement Amount – Combined Fee/Interest Rebate Amount

To calculate **Loan Fee Amount**:

Step 4: Loan Fee Amount (go out to 3 decimal places) = Gross Disbursement Amount x Loan Fee Percentage

Step 5: Truncate the Loan Fee Amount

To calculate **Interest Rebate Amount**:

Step 6: Interest Rebate Amount = Net Disbursement Amount – (Gross Disbursement Amount – Loan Fee Amount)

To calculate from **Net Disbursement Amount to Gross Disbursement Amount** use the following calculation:

Net disbursement amount multiplied by 100 divided by 100 minus (Fee% - Rebate%)

OR Net disbursement amount divided by .985 = Gross disbursement amount (truncated)

Then proceed with Step 1 listed above.

Example 1: Determining Combined Fee/Interest Rebate Amount, Disbursement Net Amount, Loan Fee Amount, and Interest Rebate Amount for Three Disbursements

3rd through 20th Interest Rebate Amount	3rd through 20th Net Disbursement Amount minus (3rd through 20th Gross Disbursement Amount minus 3rd through 20th Loan Fee Amount)
Total Gross Disbursements	Sum of all gross disbursements
Total Loan Fee Amount	Sum of all loan fee amounts
Total Interest Rebate Amount	Sum of all interest rebate amounts
Total Net Disbursements	Sum of all net disbursements

Rounding Logic for Disbursement Amount Calculations Table (Continued)

The following table provides a summary of the fields that are calculated when **PLUS disbursements** are entered or changed:

Loan Fee Percentage = 4 percent and Interest Rebate Percentage = 1.5 percent.

Field Name	Description
1st Gross Disbursement Amount	Per Gross Disbursement Calculations
1st Combined Fee/Interest Rebate Amount	1st Gross Disbursement Amount multiplied by (Loan Fee Percentage minus Interest Rebate Percentage)
1st Loan Fee Amount	1st Gross Disbursement Amount multiplied by Loan Fee Percentage
1st Net Disbursement Amount	1st Gross Disbursement Amount minus 1st Combined Fee/Interest Rebate Amount
1st Interest Rebate Amount	1st Net Disbursement Amount minus (1st Gross Disbursement Amount minus 1st Loan Fee Amount)
2nd Gross Disbursement Amount	Per Gross Disbursement Calculations
2nd Combined Fee/Interest Rebate Amount	2nd Gross Disbursement Amount multiplied by (Loan Fee Percentage minus Interest Rebate Percentage)
2nd Loan Fee Amount	2nd Gross Disbursement Amount multiplied by Loan Fee Percentage
2nd Net Disbursement Amount	2nd Gross Disbursement Amount minus 2nd Combined Fee/Interest Rebate Amount
2nd Interest Rebate Amount	2nd Net Disbursement Amount minus (2nd Gross Disbursement Amount minus 2nd Loan Fee Amount)

Rounding Logic for Disbursement Amount Calculations Table (Continued)

Optional:	
3rd /4th Gross Disbursements:	Per Gross Disbursement Calculations
3rd /4th Combined Fee/Interest Rebate Amount	3rd /4th Gross Disbursement Amount multiplied by (Loan Fee Percentage minus Interest Rebate Percentage)
3rd /4th Loan Fee Amount	3rd /4th Gross Disbursement Amount multiplied by Loan Fee Percentage
3rd /4th Net Disbursements	3rd /4th Gross Disbursement Amount minus 3rd /4th Combined Fee/Interest Rebate Amount
3rd /4th Interest Rebate Amount	3rd /4th Net Disbursement Amount minus (3rd /4th Gross Disbursement Amount minus 3rd /4th Loan Fee Amount)
Total Gross Disbursements	Sum of all gross disbursements
Total Loan Fee Amount	Sum of all loan fee amounts
Total Interest Rebate Amount	Sum of all interest rebate amounts
Total Net Disbursements	Sum of all net disbursements

Leap Year Logic

EDEExpress uses the following date format and leap year logic in the date fields on its databases:

- The date field format is **CCYYMMDD**
- For (**CC**), the date field must contain only: 19 or 20
- For (**YY**), the date field must contain only: 00 - 99
- For month (**MM**), the date field must contain only: 01 - 12
- For day (**DD**), valid range depends upon month as follows:

<u>Month</u>	<u>Valid Day Range</u>
01	01 - 31
02	01 - 28
	(unless year is divisible by 4 when 01 - 29 is valid)
03	01 - 31
04	01 - 30
05	01 - 31
06	01 - 30
07	01 - 31
08	01 - 31
09	01 - 30
10	01 - 31
11	01 - 30
12	01 - 31

Importing Data into the EExpress Direct Loan Software

Interfacing your institution's system with EExpress allows you to take advantage of the built-in edits and PC communication software. It reduces the data preparation effort by importing student data from your existing systems into EExpress. After processing Direct Loan records with EExpress, you can create a customized export file to share the data with your other institutional systems.

Certain borrower information is required before you can originate a loan. This information includes data about the borrower such as the name, address, date of birth, citizenship, and year in college. Also, it includes information specific to the loan such as the loan amount approved and loan period start and end dates. When creating the import file, please refer to the column marked 'required field' in the External Import Loan Origination Add file (DIEA) record layout.

As an EExpress user, you have the following three options when entering data required to originate a Direct Loan:

1. Key enter data from the SAR and other hardcopy documents
2. Import data from EExpress' ISIR and/or packaging system databases
3. Import data from an institutional system (External System)

The following specifications address the third option - importing data from an institutional system. For information regarding the first and second options, please refer to the online Help in the Direct Loan software.

Notes:

- EExpress automatically performs origination for all records containing all of the required origination fields. This step is performed during the import process for all records with a loan origination status of N.
- If your institution chooses to fill field #1 with a preassigned Loan ID, you may assign any loan sequence number (001-999). However, we strongly recommend that you start loan sequence number creation with 001 and do not start with 101.

If you have developed systems to capture information required to originate a loan, two general import capabilities are available.

Importing New Records

This import option allows you to add records to the EDEExpress Direct Loan database. You must create a file of borrower records according to a standard file layout. See the Combination Layout Section for layout and file creation specifications. If the record passes reject editing and a Loan ID is not specified in the import file, the loan record is added to the EDEExpress database and a 21-digit Loan ID is assigned. The Loan ID is important to systems interfacing with EDEExpress because it is needed when making changes to existing records.

When a loan record is imported, EDEExpress searches for records with an identical student's SSN, Loan Type, Loan Year, and Direct Loan School Code. If there is no match, EDEExpress assigns 001 as the Loan Sequence Number.

If EDEExpress discovers a match on a student's SSN, Loan Type, Loan Year, and Direct Loan School Code, it proceeds using your selected add options. You request to be prompted for duplicates by selecting "Y."

- You can request EDEExpress to create a new loan record when a duplicate record is found by selecting "C" (*Create All*). When a duplicate is found, EDEExpress assigns the next highest Loan Sequence Number.
- You can request EDEExpress to skip the duplicate by selecting "N" (*Skip Duplicate Record*). The record is skipped and counted on the Import Add Report as a skipped record.

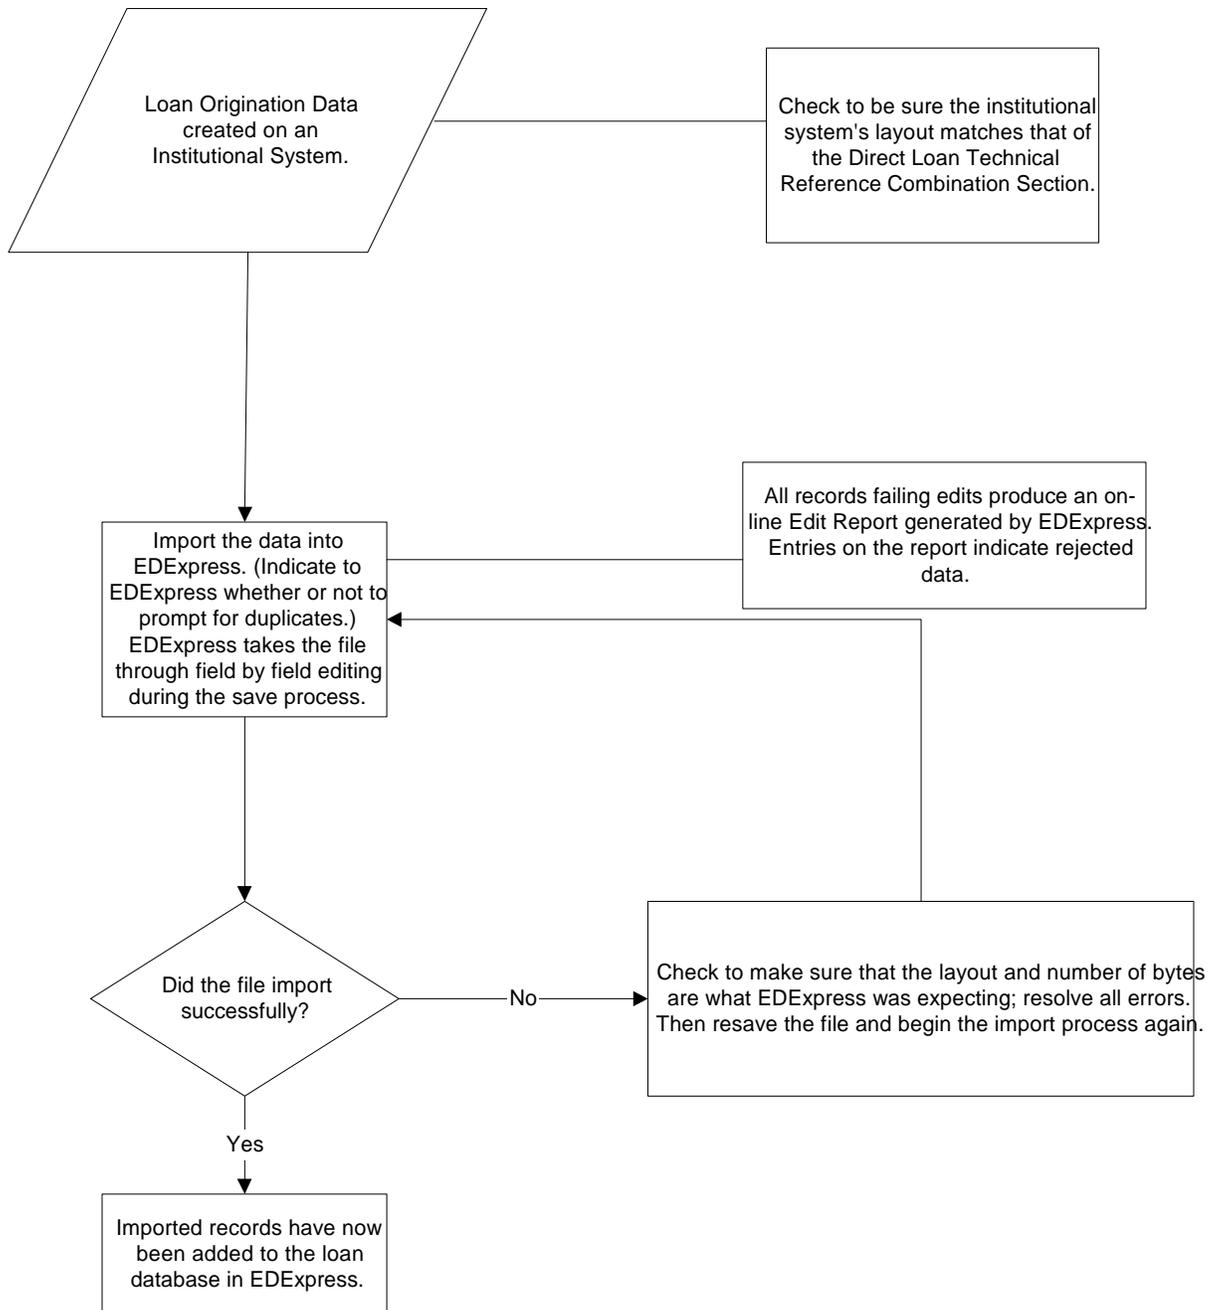

Imported records must adhere to the External Import Add Record layout. EDEExpress prompts you for a filename. Once a filename is provided, EDEExpress performs a series of edits and calculations on each record of the imported file.

An Add Edit Report is created for each file of imported records. This report identifies rejected records and provides statistics on the number of records added to the database. The format of the Loan Origination Add Edit Report is provided in the Appendix.

Notes:

- EDEExpress maintains separate records for each borrower loan type. For example, if a student borrower is approved for a subsidized loan, unsubsidized loan, and PLUS loan, three records are imported to EDEExpress, one for each loan type. For each imported record, a record is established in the Loan Origination database.
- For all loan types, the Loan Origination database maintains demographic information about the borrower. In addition, student demographic information is maintained for PLUS loans.

External Import Loan Origination Add

Exchanging Loan Origination Records with the LOC

You transmit a loan origination record to the LOC for each originated loan. If you request the LOC to print promissory notes, your request is part of the loan origination record. If you print your borrower's promissory notes, the loan origination record can be transmitted before or after the student signs the note. However, the LOC must receive the loan origination record, promissory note, and disbursement record before it can book the loan.

Two types of loan origination records can be exported to the LOC:

- Full Loan Origination Record
- Loan Origination Change Record

Submitting Full Loan Origination Records to the LOC

For each new loan, subsidized, unsubsidized and PLUS, you must send a Full Loan Origination Record to the LOC. The Full record contains all of the demographic information about the borrower, as well as anticipated loan disbursement data, required to originate the loan. Data on each record must be edited to adhere to the field length, field type, and valid field content specifications.

Full Loan Origination Records are transmitted in two types of files. All of the subsidized and unsubsidized records are transmitted in a file with a message class of DESF02IN. All PLUS records are transmitted in a file with a message class of DEPF02IN.

New for 2001-2002: Loan records marked by the user as inactive on the Loan tab are excluded from the Loan Origination export to the LOC from EDEExpress.

Schools can perform credit checks for PLUS borrowers by using the LO Online Web Application. Schools have the option to submit credit check requests via the LO Online Web Application or to submit Full Loan PLUS Origination Records to the LOC for the LOC to perform the credit check request. Schools are given the capability to receive a credit decision through an interactive Web-based application. The Web page accesses an approved credit bureau and returns a credit acknowledgement to the school. The Web page displays the credit decision of approved (accepted) or denied (failed). The reason for a failed credit decision is not displayed.

When the school receives a failed credit decision from the LO Online Web Application, the Full Loan PLUS Origination Record can be submitted to the LOC (so that the LOC can send an endorser form to the borrower) or the school may decide to originate additional unsubsidized loans for the student. The Full Loan PLUS Origination Record must be sent to the LOC if the borrower requests an endorser.

The credit decision received from the LO Online Web Application does not have to be forwarded to the LOC. The LOC receives a simultaneous response from the credit bureau at the time the school performs the credit check. The LOC stores the credit decision and sends necessary letters to the borrowers.

Note: Certification must be kept at the school, indicating that the borrower has authorized the school to perform the credit check and also indicating whether or not the borrower wants an endorser in the case of a failed credit decision.

Receiving Full Loan Origination Acknowledgements from the LOC

The LOC returns one acknowledgement record for each Full Loan Origination Record it receives. Batch integrity is maintained; the school receives acknowledgement records for all transmitted records in the batch.

These records are received in message class DISF02OP for subsidized and unsubsidized records and DIPF02OP for PLUS records. These records indicate whether the origination record is rejected or accepted. For PLUS records, the Full Loan Origination Acknowledgement also indicates whether the credit check is accepted, denied or pending.

If a credit decision is overridden (modified) for a PLUS record, a separate PLUS Credit Decision Acknowledgement is received from the LOC (message class DIPC02OP). The PLUS Credit Decision Acknowledgement is transmitted to you at any time after the initial decision has been received on the Full Loan Origination Acknowledgement.

Once the Full Loan Origination record is accepted by the LOC, it should not be sent to the LOC again. If changes need to be sent to update information on the record, a change record described below must be sent to the LOC. When a Full Loan Origination record is rejected by the LOC, it is not kept on file in the LOC System. The record errors need to be corrected and the updated Full Loan Origination record transmitted to the LOC with the message class DESF02IN/DEPF02IN.

New for 2001-2002: The LOC processes credit check requests within hours and acknowledges PLUS loan records within 24 hours of receipt at the LOC. If a credit decision other than accepted or denied is received, the LOC acknowledges the accepted PLUS loan record with a pending credit check status.

PLUS Credit Decision Update (Override) Acknowledgement

For any previously accepted PLUS Full Origination records with a pending or denied credit decision, the borrower may request a subsequent credit check, an override, or submit an endorser addendum. Under these circumstances, the LOC returns a PLUS Credit Decision Update Acknowledgement. The Credit Decision Update Acknowledgement indicates one of the following statuses:

- C = (Credit overridden, new credit information provided),
- D = (Credit denied, endorser not okay),
- N = (Credit denied; after pending), or
- E = (Credit overridden, endorser OK).

The Credit Decision status indicates the results of PLUS Loan credit checks on the parent borrower or endorser.

For approved applicants, you can proceed to the disbursement of funds. The LOC sends further information and instructions directly to those applicants not approved for a PLUS loan on the basis of credit checks. The LOC has the option to override the credit decision after an initial denial. The PLUS Credit Checks can be updated at any time on the basis of the borrower submitting supporting documentation to the LOC or credit reporting agency.

If you process PLUS loans, you may receive updated credit decisions in this acknowledgement file with message class DIPC02OP at any time from the LOC.

Loan Origination Change Record

Once the Full Loan Origination Record is accepted by the LOC, changes to the borrower's demographic or loan information requires a change record be sent to the LOC. Loan Origination Change Records are transmitted in a separate message class DESC02IN.

Each change record contains the borrower's loan identification (necessary to identify the record on the LOC's databases), the number associated with the field being corrected, and the corrected value.

New for 2001-2002: Some data fields can be updated by a school on the LO Online Web Application. Further information on this new process will be forthcoming.

Importing Changes to Existing Records

This import option allows you to submit changes from your school's systems to the EDExpress Direct Loan database. To perform this option, you must create a file of borrower records according to a standard file layout. Each record must contain the borrower's loan identification number, field number associated with the field to be updated, and the updated value.

Use the External Import Change record layout and the table of Loan Origination Import Change Field Numbers to create your change record. These can be found in the Combination Layouts section of this technical reference.

To import most efficiently, you should import the records in Social Security Number order, and the fields to be updated within each change record should appear in numerical order. For example, if you are changing fields S013 (Borrower's Telephone Number) and S101 (Student's Local Address City), field S013 should appear first in the change record followed by field S101.

Each change record contains space for up to 10 data element changes. Multiple change records can be exported for a Loan ID if more than 10 changes are required.

Corrected values must be left justified within the 50-byte change value field. Numeric fields are left justified and blank filled up to the maximum number of positions for that field.

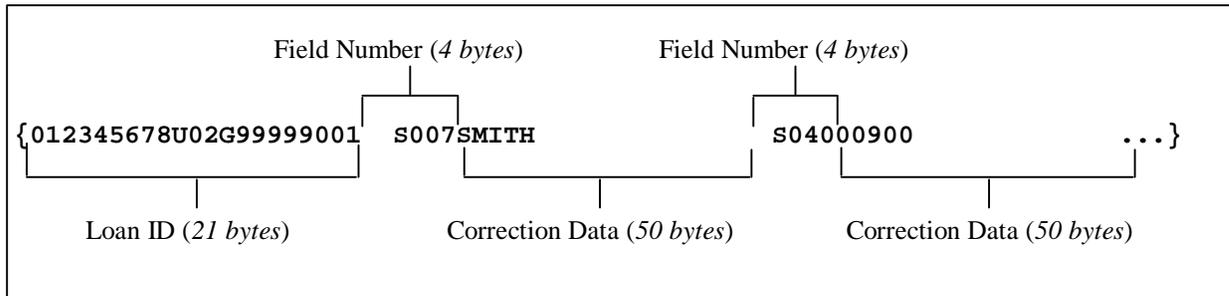

For example, when correcting a 5-byte numeric field to a value of '900,' the correction record would display 00900 with 45 blank spaces.

Example:

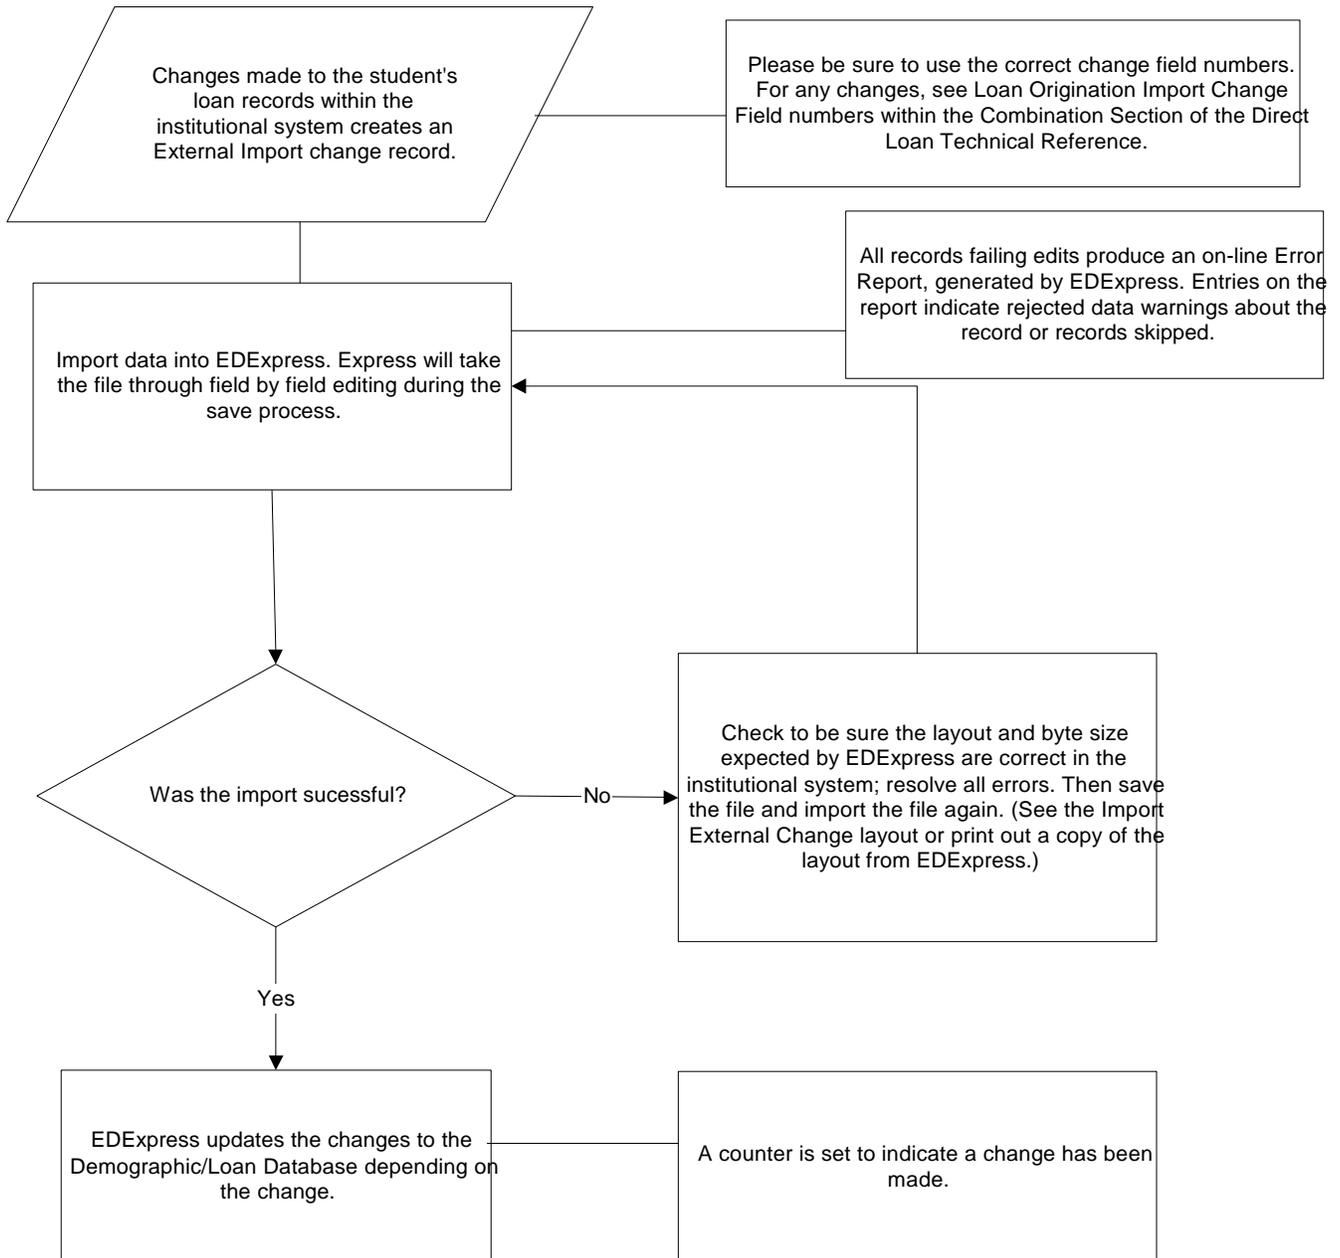

Two changes are submitted to a loan record whose ID is 012345678U02G999999001:

- a change in the borrower's last name to SMITH, and
- a change in the 1st disbursement anticipated gross amount to \$900.

The following would be the contents of the change record excluding the create time, batch number, and User ID fields at the end of the record:

External Import Change Record

Receiving Loan Origination Change Acknowledgements from the LOC

The Loan Origination Change Acknowledgement (DIOC02OP) has the same record layout as the record layout used to transmit the change record to the LOC. The acknowledgement record indicates whether each change is accepted or rejected. Rejection codes are associated with each rejected field.

- If the change is accepted, then there are no reject codes associated with that field.
- If a change is rejected, then it must be corrected and only the fields that were in error need to be resent to the LOC as change records.

New for 2001-2002: A school can process some change records via the LO Online Web Application. On the Web site, a school is provided the option to print a listing of the changes made on the Web site. Remember to update your EDEExpress database to agree with any changes made on the Web site to keep your database in sync with the LOC. Changes made on the Web site do not generate a Change Acknowledgement.

Processing Promissory Notes

All Master Promissory Notes (MPN) and PLUS Promissory Notes must be mailed to the LOC and accepted before the loans are booked. The hardcopy MPNs/promissory notes must be accompanied by a paper manifest that lists the borrower's name and MPN ID or PLUS Loan ID for each promissory note in the shipment. Also, the paper manifest provides a certification to be signed by an official at the school.

Master Promissory Notes and PLUS Promissory Notes must be batched separately and a separate paper manifest created for each. Each batch may contain up to 100 notes. Additionally, separate batches (manifests) must be created for each Direct Loan school code. The MPN/Promissory Note Manifest option is available through the EDEExpress Print process. The format for the Master Promissory Note manifest and the PLUS manifest are provided in Appendix D.

Note: For Standard Origination Schools, the LOC prints for and collects from the borrower the MPNs and PLUS promissory notes. Therefore, Standard Origination schools do not generate paper promissory note manifests, and schools do not mail notes to the LOC.

Receiving Promissory Note Acknowledgements

The LOC returns an electronic file (DIPA02OP) containing the acknowledgement of any MPN/PLUS Promissory Notes processed by the LOC. This acknowledgement contains a batch ID generated by the LOC. Batch integrity does not exist between the paper notes and the MPN/PLUS Promissory Note Acknowledgement. Acknowledgements do not match one to one with paper manifests sent by the school.

Promissory Note Status

The DIPA02OP file contains a code in field #4 (Promissory Note Status) that returns one of three values: A (Accepted), X (Pending), or R (Rejected). Pending indicates that the promissory note is accepted but there is no Loan Origination record at the LOC to link to this promissory note.

Promissory Note Reject Codes

Promissory Note Reject Codes indicate why a note is rejected. If a note is rejected, a new MPN/PLUS Promissory Note must be printed with the corrected data and resubmitted to the LOC.

Promissory Note Reject Codes are mainly handled through a manual process. However, there are two electronic error codes that are received at the LOC, error codes “01” and “S.” Once the notes are received in the mailroom, the notes are manually inspected for missing or incorrect information. A generic checklist is used. If it is determined that there are errors or information is missing, the checklist is marked in the appropriate blank describing the error that needs to be corrected.

The checklist and MPN/PLUS Promissory Note are returned to the school or borrower (Standard Origination Schools). A copy of the Checklist used by the LOC is provided in Appendix D. See the Custom Edit Section for Promissory Note Reject Reasons.

Master Promissory Note

The Master Promissory Note (MPN) is a legal document requiring the borrower to repay the funds borrowed under the Direct Loan Program. The MPN is the only approved promissory note for Direct Subsidized and Unsubsidized Loans for all schools. The MPN must be printed by the school or the LOC and signed by the student borrower before disbursement of a subsidized loan or an unsubsidized loan. Schools process MPNs using either multi-year note functionality or single-year note functionality.

No change is being made to the MPN data elements. As in the past, the school prints the MPN based on the completed loan origination record. No dollar amount is printed on the MPN by the school or the LOC and only one note is used for both subsidized and unsubsidized loans.

The MPN ID prints on the MPN. This identification is used by the LOC to link loans to the MPN. For printed MPNs for 2000-2001 and forward, the format of the MPN ID changed to use “M” as the MPN indicator instead of “S” or “U” in the loan type code field.

Note: MPNs are linked to a Loan Origination record by the LOC using the first three letters of the First Name. If the First Name field is blank on the Loan Origination Record or on the MPN, the LOC links using the first three letters of the Last Name.

Multi-Year Functionality

Multi-Year use of the MPN applies to all four-year and graduate/professional schools that are not subject to an emergency action or limitation, suspension or termination (LS&T) action per Direct Loan regulations. Any school requesting an exception to this regulation may contact the Direct Loan Operations Staff at 202/708-9951.

If a borrower is attending a school eligible for multi-year functionality, the borrower may have only one open MPN on file at the LOC for all subsidized and unsubsidized loans disbursed for academic year 1999-2000 and forward. For example, the open MPN at the LOC can be an MPN processed for academic year 2000-2001. The 2000-2001 loans and forward are linked by the LOC to this open MPN.

An open MPN on file at the LOC is assigned to the borrower and is not limited for use at a specific Direct Loan school. Therefore, any MPN accepted by the LOC can be used by a Direct Loan school eligible for MYN functionality. Thus, all loans for a student are linked to the same MPN across schools and academic years.

New for 2001-2002: An MPN Indicator is being added to the Institutional Student Information Record (ISIR). The ISIR MPN Indicator tells the school whether a valid MPN is on file at the LOC for a specific student. The values for this indicator are: A – Valid MPN on file at the LOC, C – Closed MPN at LOC, I – Inactive MPN at LOC, and N – Valid MPN not on file at LOC.

Single-Year Functionality

If a school is NOT eligible for MYN functionality (single-year school), a new MPN must be generated each academic year for each borrower. A single-year school must use an MPN generated at or for that school only. A single-year school can link all subsidized and unsubsidized loans for the same academic year, for the same student to the same MPN. The academic year start and academic year end dates must be the same on all loan records linked to a specific MPN.

Valid MPN

An open MPN is valid for up to 10 years from the date of the first anticipated disbursement if an actual disbursement has been made for any associated loan origination record. If a student wishes to close an MPN, he or she must provide a request in writing to close an MPN to the Direct Loan Servicing Center or to the school. If the closed

notification is received at the school, the school must forward the original documentation to the LOC. Once an MPN has been closed, no new loans can be linked to the closed MPN. A new MPN must be generated if new loans are originated. However, all disbursements and booking activities for the loans already linked to the closed MPN continue to be processed by the LOC.

Reporting Disbursements

Note: The Actual Disbursement Record cannot be accepted by the LOC until they have accepted the Loan Origination Record.

Before the LOC can "book" a loan, the LOC needs three essential components:

1. An accepted Loan Origination Record
 - a) Approved Credit Decision (PLUS ONLY)
2. An accepted MPN/PLUS Promissory Note
3. An accepted Actual Disbursement Record

Once an Option 1 or 2 school has verified a completed and signed MPN/PLUS Promissory Note is on file as well as other eligibility verification required by regulations (e.g., student enrolled at least half-time), it can make a loan disbursement to the student or parent (either by check or by crediting the student's account).

LOC Disbursement Record Types

Actual Disbursement Records must be submitted and accepted for each disbursement transaction. Each disbursement and adjustment books separately.

There are six LOC Disbursement Records:

1. Disbursement = record type D (Batch Type #H)
2. Adjusted Disbursement Amount = record type A (Batch Type #H)
3. Adjusted Disbursement Date = record type Q (Batch Type #H)
4. Booked Disbursement = record type L (Batch Type #B)
5. Booked Adjusted Disbursement = record type M (Batch Type #B)
6. Servicer Refund = record type P (Batch Type SP)

A Disbursement Record contains data for the initial disbursement for a given disbursement number.

An Adjusted Disbursement Amount Record is sent to the LOC when the amount of a disbursement needs to be increased or decreased. This includes disbursements being adjusted to zero. For more information, see the *DL School Guide* and the appropriate DL Bulletins.

An Adjusted Disbursement Date record is sent to the LOC when the date of an original actual disbursement needs to be changed. This record type is transmitted after an actual disbursement is sent to and accepted by the LOC.

Booking Notification

A Booked Disbursement record (record type L) or Booked Adjusted Disbursement record (record type M) is generated by the LOC providing the booked date for an actual disbursement or an actual adjusted disbursement. The record updates the EDEXpress database with the disbursement or adjustment booked date. It is important to import booking notification acknowledgements on a timing basis. Otherwise, disbursements and adjustments booked at the LOC may display as unbooked in EDEXpress.

Servicing Refund

A Servicing Refund record (record type P) is generated by the LOC when a borrower makes a payment to Servicing by the borrower within 120 days of disbursement. This transaction does not update the disbursement amounts recorded on the EDEXpress database. This record is to inform you that the student has additional loan eligibility for the current year. EDEXpress allows the Loan Amount Approved for this loan to include this additional refunded amount in the annual loan limit for this loan if the borrower decides to borrow additional funds.

Note: This transaction should not be returned to the LOC.

Disbursement Record Type “Q”

Disbursement type “Q” (Adjusted Disbursement Date) has been added for making adjustments to the actual disbursement date. In order to change the disbursement date, the school should use disbursement record type “Q” to show the correct actual disbursement date. The “Q” transaction can only be used after the school has sent an actual disbursement and received the disbursement acknowledgement. The following rules apply to transaction type “Q”:

1. An actual disbursement must exist (see example #1).
2. Disbursement type “Q” is only for date changes, not changes to the actual disbursement amount. This is a separate disbursement transaction and must be transmitted to the LOC (see example #2).
3. Disbursement type “Q” adjusted disbursement date can be a date after a prior transaction date for that disbursement number (see example #3).

4. Disbursement type “Q” adjusted disbursement date cannot be a date later than subsequent disbursement numbers (see example #4).
5. Disbursement type “Q” can be entered with a date before any adjustments to that same disbursement (see example #5).
6. Multiple transactions may cause a delay in processing.
7. Disbursement type “Q” follows the same delete rules as any other disbursement transaction (cannot be deleted unless in a “R = Ready Status” or “E = Rejected Status”).

The following are examples that apply to the rules outlined above:

Example #1

Disb. #	Disb Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	Q	01	05/01/2001	\$1000	READY	NO	See rule #1

Example #2

Disb. #	Disb Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2001	\$1000	ACCEPTED	YES	Initial Disbursement Entered
1	Q	02	05/02/2001		ACCEPTED	YES	See Rule #2
2	D	01	06/01/2001	\$1000	ACCEPTED	YES	Second Disbursement Entered

Example #3

Disb. #	Disb Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2001	\$1000	ACCEPTED	YES	Initial Disbursement Entered
1	Q	02	04/01/2001		READY	YES	See Rule #3
2	D	01	06/01/2001	\$1000	ACCEPTED	YES	Second Disbursement Entered
2	Q	01	04/02/2001		READY	YES	See Rule #3

Example #4

Disb. #	Disb Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2001	\$1000	ACCEPTED	YES	Initial Disbursement Entered
2	D	01	06/01/2001	\$1000	READY	YES	Second Disbursement Entered
1	Q	02	06/02/2001		READY	NO	See Rule #4

Example #5

Disb. #	Disb Type	Disb. Seq #	Disb. Date	Disb. Amt	Disb. Status	Allowed?	Comments
1	D	01	05/01/2001	\$1000	ACCEPTED	YES	Initial Disbursement Entered
1	A	02	05/15/2001	\$500	READY	YES	Adjusted amount downward 15 days later
1	Q	03	05/15/2001		READY	YES	See Rule #5. This would change the date of the initial disbursement to 5/15 which is the same date as the adjustment and is allowed
2	D	01	06/01/2001	\$1000	READY	YES	Second Disbursement Entered

Flagging A Subsequent Disbursement Number as the First Disbursement

New for 2001-2002: Implementation of a change process to flag a subsequent disbursement number as the first disbursement when disbursement #1 has already been generated and sent to the LOC.

As is current process, EDEExpress generates disbursement #1 first when adding an actual disbursement record. However, a new field is added to the actual disbursement grid and an action code to flag a subsequent actual disbursement (#2 through #20) as the first disbursement. This “C” flag can be applied to a subsequent disbursement number only if the disbursement date on the subsequent disbursement has an earlier action date than the action date on the previous accepted disbursement #1. The “C” flag, updates the LOC database to indicate that the disbursement flagged is first disbursement for a loan.

Note: The first disbursement must always have the earliest date. Once disbursement #1 is accepted by the LOC or a flagged disbursement is accepted by the LOC, any disbursement for that loan with an earlier date will be rejected. If several disbursements are received by the LOC for the same batch cycle, disbursement #1 or a disbursement with a “C” flag whichever has the earliest date is processed first and the rest of the disbursements are processed in chronological order.

Anticipated disbursements will continue to be in sequential and chronological order.

Importing Disbursement Data into EDEExpress

You can create a change record to import actual disbursement data from an external institutional system into EDEExpress. To do this, use the External Change Record format (DIEC02OP) in the Combination Layouts section. The change record should include the following data elements:

Field	Change Field Number
Loan ID	N/A
Sequence Number	N/A
Disbursement Number	D003
Transaction Date	D004
Action Type (Actual Disbursement)	D006
Action Amount (Actual Disbursement)	D007
Actual First Disbursement Change Flag	D008

Disbursement Action Types

The gross, fee, interest rebate, and net amounts are sent to the LOC for all anticipated and actual disbursements. Disbursement records can be recorded in EDEExpress by entering either actual gross or net amounts and EDEExpress calculates the other amounts.

New For 2001-2002: You indicate whether disbursements are entered using the gross amount or net amount in Direct Loan System Setup. Once a disbursement is entered into EDExpress using a disbursement gross amount or a disbursement net amount, all actual disbursement records for that loan must be entered using the same method.

In addition to entering the amount of a disbursement, the disbursement number and the action date, you must enter the Action Type field. This field tells EDExpress what the amount represents.

The following chart describes the Action Types available.

Description	Action Type
Enter Gross or Net Amount of the disbursement	D
Enter Gross or Net Amount of the adjustment	A
Use anticipated disbursement amounts in the anticipated disbursement grid to enter Gross or Net Amounts to the actual disbursement grid	U
New for 2001-2002! Enter Net Adjustment Amount (positive or negative) of the adjustment	N
Adjusted Disbursement Date	Q

Sequence of Disbursement Records

Disbursement records should occur in the file grouped by Loan ID. The records must be sorted within Loan ID by Disbursement Number and Disbursement Sequence Number. For example, a loan has one actual disbursement and two adjustments. Record type D should precede record type A, and the two adjustments (record type A) should be in ascending date order.

To make the import work most efficiently, you should create the file so that the records are imported in transaction date order. If you have more than one record for a single transaction date, they should be sorted in Social Security Number order

Remember: Disbursement activity must be submitted to the LOC **within 30 days** of the transaction date.

Timing

For Option 1 and 2 schools, disbursement records are sent after you have received a signed valid MPN/PLUS Promissory Note from the borrower or a valid MPN on file at the LOC. For Standard Origination schools, disbursement records are sent to the LOC after you have received an accepted Promissory Note Acknowledgement for the borrower or a valid MPN is on file at the LOC. Take care to ensure that the disbursement record is accepted on a Disbursement Acknowledgement before transmitting change records for adjustments to \$0.

Export Record of Disbursement Information

Direct Loan software creates a record of disbursement information for transmission to the LOC. The LOC edits the information against the loan origination record data stored in its system. The LOC returns an acknowledgement to the school indicating whether or not each disbursement record has been accepted (DIOD02OP).

Submit Correction Disbursement

You may receive a record from the LOC indicating the disbursement information record is rejected. In this case, you need to determine why the record was rejected, then correct the record and retransmit it to the LOC.

Process Disbursement Adjustments

Adjustments occur when the amount on a disbursement is incorrect and needs to be increased or decreased. This new adjusted disbursement amount needs to be sent to the LOC.

Inactive Loan Process (Adjustments to Zero)

Individual disbursements and/or Loan Amount Approved can be adjusted to zero. This process provides you the flexibility to increase the loan by simply recording and sending the LOC an upward adjustment if the loan or disbursement is to be reactivated after being adjusted to zero.

New for 2001-2002: When you select the inactive flag in EDEExpress a dialog box appears displaying two options. Option 1 marks the loan inactive and no longer displays the loan on reports. The loan amount approved and anticipated disbursement are not adjusted by this option. Option 2 marks the loan inactive, no longer displays the loan on reports, adjusts the loan amount approved to zero, and adjusts all anticipated disbursement to zero. The selection of Option 2 also generates all necessary Change Records to be exported to the LOC.

The following scenarios demonstrate this process:

Scenario A

School needs to cancel an entire loan and NO Actual Disbursements have been made:

1. Reduce the Loan Amount Approved to \$0 or mark the loan Inactive and select the option to reduce the Loan Amount Approved to \$0. Save the record.
2. Save process within EDEExpress automatically reduces each Anticipated Disbursement to \$0.
3. Forward a Loan Origination Change Record to the LOC, which contains the change to the Loan Amount Approved and all Anticipated Disbursements.
4. Increase the Loan Amount Approved to the appropriate amount, which automatically resets the Inactive Flag, if you need to reactivate this loan.

EDEExpress automatically recalculates the Anticipated Disbursements.

Forward a Loan Origination Change Record to the LOC, which contains the change to the Loan Amount Approved and all Anticipated Disbursements.

Scenario B

School wants to cancel an entire loan but Actual Disbursements have been made:

1. Adjust all Actual Disbursements to \$0 and send in a Disbursement Record to the LOC, which contains adjusted disbursement record.
2. At the same time, reduce the Loan Amount Approved to \$0 or mark the loan Inactive and select the option to reduce the Loan Amount Approved to \$0. Save the record.
3. The Save process in EDEExpress automatically reduces each Anticipated Disbursement.
4. Forward a Loan Origination Change Record to the LOC, which contains the change to the Loan Amount Approved and all Anticipated Disbursements.

Note: This change record (Step 4) can be forwarded to the LOC at the same time the Disbursement Record in Step 1 is forward to the LOC.

5. (As in Step 4 for Scenario A above) Increase the Loan Amount Approved to the appropriate amount if you need to reactivate this loan.

EDEExpress automatically recalculates the Anticipated Disbursements. A Loan Origination Change record is sent to the LOC to report the new amounts.

6. Adjust the appropriate Disbursement number back up to the disbursement amount if an Actual Disbursement is to be recorded. A Disbursement Record is sent to the LOC to report the new Actual Disbursement amounts.

Scenario C

School wants to only cancel individual Actual Disbursement(s):

1. Adjust the individual Actual Disbursement(s) to \$0.
2. Send a Disbursement Record to the LOC, which contains this adjusted disbursement.
3. Reactivate this disbursement by entering an upward adjustment to that same disbursement, then send a Disbursement Record to the LOC with the new amount(s).

Notes:

- If you only adjust the disbursement(s) down to zero without adjusting the Loan Amount Approved appropriately, the student's loan data at NSLDS may not be reported correctly.
- If the sum of Actual Disbursements is changed to \$0, a message displays suggesting that you may also want to change the Loan Amount Approved to \$0.

Disbursement Confirmation (Schools in the Confirmation Pilot)

Schools participating in the Confirmation Pilot receive authorization from the borrower for the disbursement of funds under a Direct Subsidized Loan or a Direct Unsubsidized Loan. To accommodate this procedure, a Confirmation Flag indicates that the borrower at the school has confirmed the disbursement.

Receiving Disbursement Acknowledgement Records from the LOC

The LOC returns an acknowledgement record for each Disbursement Record you submit. In addition, some disbursement transactions are generated by the LOC and sent to you on the Disbursement Acknowledgement. The acknowledgement record is in the same format as the Disbursement Record. They are returned in a message class DIOD02OP.

When processing disbursements or adjusted disbursements, if the LOC calculates different amounts than reported by the school, these amounts are returned in the acknowledgement. If there is no change to the amounts, these fields are returned blank.

School Reconciliation

You must reconcile your school's Direct Loan records on file at the LOC with the school's internal Direct Loan records. This process is School Reconciliation and you should perform this process on a monthly basis.

School Account Statement

The LOC initiates the reconciliation process. You receive on a monthly basis a Direct Loan School Account Statement (DLSAS) from the LOC designated by Direct Loan school code. The DLSAS is imported and formatted to look similar to a bank statement. This statement reports the cash records and the booked and unbooked disbursement transactions on file at the LOC. The DLSAS has six sections: Year-to-Date Cash Summary, Year-to-Date Disbursement Summary by Loan Type, Monthly Cash Summary, Monthly Disbursement Summary by Loan Type, Cash Detail, and Loan Detail. The Loan Detail section is optional. You are responsible for reviewing and comparing the monthly statement to ensure the accuracy of the data on both your school's system and the LOC database. This data must also be reconciled to your school's internal student account records and bank records.

School Options

You may elect to receive only the Year-to-Date or Monthly Cash Summary, Year-to-Date or Monthly Disbursement Summary by Loan Type, and Cash Detail sections on the monthly School Account Statement - omitting the Loan Detail records. This may be a desirable option if you have a large volume of loan detail records. If you want to omit the Loan Detail records from your DLSAS, contact the LOC.

Additionally, you may elect to send the LOC an electronic file, the Optional Loan Detail Exception File, with Year-to-Date (YTD) unbooked transactions or booked transactions for a particular month. The LOC compares your school's data sent in this file with that of the LOC. A preformatted exception report is returned if there are discrepancies or exceptions to be resolved. This process may assist you in resolving discrepancies found while reviewing the monthly DLSAS. You initiate this process by sending the Optional Loan Detail Export file to the LOC (DERC02IN).

Resolving Discrepancies

These two processes, the DLSAS and the Optional Loan Detail Exception Report, assist you in reconciling your school data with the data at the LOC. When discrepancies are found, you should go back and ensure that all origination, promissory note, and disbursement processing is completed. Remember:

- The LOC's cash balances only report on "Booked" data for the month reported in the DLSAS. Booked status on your school system can only be updated by the booked disbursement (L) or booked adjustment (M) transaction.
- Export all pending data batches for origination records, promissory notes, and disbursements.
- Import all pending acknowledgement batches to update the accepted status and booked status flags on your school's system.
- EDEExpress and Combination schools find it helpful to use the Status Measurement Report to resolve discrepancies on the DLSAS.

Technical Tips

On the following pages, some technical tips are provided in the sections listed below:

- Batch IDs
- User-Defined Data Fields

Batch IDs

All Batch IDs through the Direct Loan System have the same format. Each batch ID is 23 characters long. The first two characters are the batch identifiers, which represent the type of batch. One character represents the cycle year. The next six characters are the school code. The next eight characters are the date the batch was created. The next six characters are the time the batch was created. All of the batch identifiers are listed below.

Batch Identifier	Type of Batch
#F	External Export: External Export
PF	Export to LOC: Full Loan PLUS Origination
#L	Export to LOC: Optional Loan Detail Exception File
#E	Export to LOC: Loan Origination Change
#H	Export to LOC: Disbursement
#D	Export to LOC: Full Loan Sub/Unsub. Origination
#R	Import from LOC: Anticipated Disbursement Listing
#Q	Import from LOC: Actual Disbursement Roster
#O	External Import: External Import Loan Origination Add
#P	External Import: External Import Change Record
#E	Import from LOC: Loan Origination Change Acknowledgement
#H	Import from LOC: Disbursement Acknowledgement
#B	Import from LOC: Booking Notification
SP	Import from LOC: Servicer Refund
#A	Import from LOC: Prom Note Acknowledgement
#C	Import from LOC: PLUS Credit Decision Update Acknowledgement
PF	Import from LOC: Full Loan PLUS Origination Acknowledgement
#D	Import from LOC: Full Loan Sub/Unsub. Origination Acknowledgement
#W	Import from LOC: 30-Day Warning Report
AS	Import from LOC: Direct Loan School Account Statement
RB	Import from LOC: Rebuild Data File

User-Defined Data Fields

If you create a File Format that contains fields from all record types (A=Demographic, B=User Date, D=Loan, N=Anticipated Disbursement, and M=Actual Disbursement), the software does not export records of types A or B unless one record of type D, M or N matches the Export Status (Y or N) selected on the Export dialog.

In order to ensure that Demographic and User-Defined Data records are exported, we recommend you create a File Format that contains only Demo and/or User-Defined Data fields (record types A and B) and export using this new File Format and an export status of B.

This method requires two External Exports but ensures that all Demographic and User-Defined Data records that changed are exported.

Direct Loan Reports

Management Files from the LOC

The LOC generates and sends reports to schools through the SAIG mailbox.

New for 2001–2002: All reports generated by the LOC and sent to schools are available in comma-delimited ASCII files. Schools have the option to request a school report in either the preformatted or comma-delimited format. You can call your LOC Customer Service Representative or use the LO Online Web Application to specify your report option. Unless otherwise specified by the school, the LOC sends the report in the preformatted format.

The LOC-generated reports are listed below with the preformatted message class listed first and then the comma-delimited message class, where applicable.

Sample reports follow these descriptions.

The Direct Loan School Account Statement (DLSAS) (DSAS02OP or DSAC02OP)

The DLSAS reports the cash summary, cash records and the booked and unbooked disbursement transactions on file at the LOC. The DLSAS has six sections:

- Year-to-Date Cash Summary,
- Year-to-Date Disbursement Summary by Loan Type,
- Monthly Cash Summary,
- Monthly Disbursement Summary by Loan Type,
- Cash Detail, and
- Loan Detail (optional).

This data must be reconciled to your school's internal accounting records.

The 30-Day Warning Report (DIWR02OP or DIWC02OP)

The 30-Day Warning Report is a file reporting unbooked loans for which the LOC has not received the three required elements to “book” a loan within 30 days of the first activity. The report lists the Loan ID and the data that is required to book the loan. Loans where the Loan Amount Approved is adjusted to \$0 do not appear on the 30-Day Warning. Also, loans that appear on the 30-Day Warning Report for a 90-day period are removed if a Promissory Note or Actual Disbursement has not been received at the LOC.

The Duplicate Student Borrower Report (ED0302OP or UPC02OP)

The Duplicate Student Borrower Report lists the student borrowers for which the LOC has accepted multiple Direct Subsidized and/or Unsubsidized loan origination records with the same or overlapping academic years.

The Inactive Loan Report (ED0602OP or DILC02OP)

The Inactive Loan Report is a file listing loans that have been inactivated (adjusted to \$0) by the school for the reporting period.

The SSN/Name/Date of Birth Change Report (ED0702OP or DSNC02OP)

The SSN/Name/Date of Birth Change Report lists Social Security Number changes initiated by the school or Servicing, Name changes initiated by the school, and Date of Birth Changes initiated by the schools.

It also indicates SSN changes initiated by the school but rejected by Servicing.

The Pending SSN Changes Over 45 Days Report (ED0802OP or DPSC02OP)

The Pending SSN Changes Over 45 Days Report list the SSN changes initiated by the school and forwarded to Servicing for confirmation. However, a confirmation has not been received from Servicing for a period of 45 days from the date the LOC sent the request to Servicing.

The Disbursement Activity Not Yet Booked At Servicing Report (ED1402OP or DASC02OP)

The Disbursement Activity Not Yet Booked at Servicing Report lists the disbursement transactions that have been booked at the LOC but have not been booked at Servicing. This report also lists the disbursement transactions that have not been booked at the LOC because of error transactions received from Servicing.

The Anticipated Disbursements List (DIAA02OP or DALC02OP)

The Anticipated Disbursement List file is transmitted to Option 1 and Standard Origination schools only. This file lists all pending anticipated disbursements dated 30 to 45 days in the future.

The LOC generates this file based on accepted full origination records and accepted promissory notes for the school.

Schools should submit full origination records, changes, and promissory notes to the LOC for anticipated disbursements not included on the list but ones that the school intends to make.

The Actual Disbursement Roster (DIAO02OP or DARC02OP)

The Actual Disbursement Roster file is transmitted to Option 1 and Standard Origination schools only. The Actual Disbursement Roster is transmitted to schools 5 business days prior to the anticipated disbursement date.

This file lists all the Loan IDs and anticipated disbursement data on which the LOC has requested funds.

Funds transferred to the school from GAPS must be disbursed to the borrowers based on the Actual Disbursement Roster.

The LOC includes borrowers on this report based on anticipated disbursements on accepted Loan Origination Records submitted to the LOC at least 10 business days prior to the anticipated disbursement date.

Delinquent Borrower Report from the Direct Loan Servicing Center

Receiving the Delinquent Borrower Report

Message Class: ED0402OP or DQBD02OP

You may request the Delinquent Borrower Report in either report or data format (See Direct Loan Bulletin 98-25). The report indicates delinquent borrowers who are at least 31 days delinquent in making their loan payments. The data format file is received in message class DQBD02OP. The preformatted print file is received in message class ED0402OP. The report is printed in portrait and lists four borrowers on a page. The following data elements are listed:

School Number
School Date
Borrower Name
Account Number
Residence Phone
Business Phone
Address Line 1
Address Line 2
Address Line 3
Address Code
Birth Date
Loan Amount
Repayment Plan
Monthly Pmt
Days Delinquent
Delinquent Date
Separation Date
Grace End Date
Current Status
Past Due Amount
Location Code
Location Name
Location Phone

A summary report is also provided. The summary is divided into three sections: Stafford Borrowers, In-School Consolidation Borrowers, and All Borrowers. Within each section the borrowers are categorized by their days past due. These categories are summarized by number of accounts, amount past due, and the original loan amount. Finally, each section has a total number of borrowers who defaulted during the current month and the number of borrowers who defaulted year-to-date.

The Duplicate Student Borrower Report lists student borrowers for which the LOC has accepted multiple Direct Subsidized and/or Unsubsidized Loan Origination records. The list indicates other schools that have submitted a loan origination record for the same borrower who may be attending your school. This report assists in identifying subsequent loan origination records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity (including FFEL) for a student through the Financial Aid Transcript and NSLDS processes .

Measurement Tools and List Reports

The following pages describe reports to assist you in managing the Direct Loan process at your school. You may want to develop similar reports to gather data from your custom system. The data tables show the field labels and valid field contents from EDEExpress. You can create similar reports using your own field labels and field contents, using the provided tables as a guide.

Batch Activity Measurement Tool Report

Description

This report monitors the process of creating, transmitting, and importing batches. School's tolerances (or guidelines) are set for the number of days each type of batch should take to complete. When setting these tolerances, keep in mind the LOC's processing time, school procedures for exports and imports, and other specifics associated with your school's communication software/hardware configuration.

When selecting this report in EDEExpress, you must enter a school code. You may also choose to enter a reporting date range, batch type to be included, the option to print only exceptions to the tolerances, and the option to print totals only. If you enter a reporting date range only the batches with a Batched/Print Date within the specified data range print on the report. (Refer to the Sample Report on page B-5.)

Analysis Tips

Analysis of the report results provides assistance with identifying possible bottlenecks or inefficiencies in your current procedures. This report can be utilized as part of a Continuous Improvement evaluation performed at regular reporting intervals.

There are many variables that can affect transmitting batches to the LOC. If the Batch Activity report shows your process is performing outside of your school's tolerances, you may want to consider:

- Creating procedures for sending and receiving data from the network
- Putting procedures in place to ensure timely transmission of data
- Including steps in your procedures for export and import into your system
- Critical time batch processing
- Processing batches efficiently during periods of high volume. You may want to set the report period to evaluate your batch control during these critical processing periods
- This report could be used to identify batches that are missing acknowledgements because these batches do not have an "Import Date"

Master Promissory Notes Measurement Tool Report

Description

This report contains detailed records of all active subsidized and unsubsidized loan records in the database and provides Master Promissory Note (MPN) Status for each loan record. MPN listings are printed by student's name and Loan ID(s). Totals are provided for each MPN Status.

In addition, this report monitors the process of receiving signed MPNs from students, updating EDExpress with the date signed, then sending the signed notes with a manifest to the LOC. You determine an acceptable date range and enter this date range as the tolerance or school guideline. The process time is calculated and averaged over the number of records processed for the reporting period then compared to your school's tolerance. It is important to monitor this process carefully since LOC acceptance of the MPN is a part of booking the loan. (Refer to the sample report on page B-8.)

Analysis Tips

Before running this report, make sure all Master Promissory Notes received and signed dates have been entered and acknowledgement batches have been processed. Also, take note of the following after running the report:

- Number of MPNs rejected.
Is there a consistent error that can be corrected that is causing your notes to reject?
- Number of MPNs ready to be printed.
Based on these numbers, is the frequency of your print schedules adequate?
- Total number of MPNs printed and signed. Based on these numbers, you can project the number of notes and staff needed for future years.

If the MPN report shows your process is performing outside of the school's tolerances, consider the following:

- How does the volume of MPNs affect your processing?
- What is the most efficient number of MPNs included on a manifest?
- Do your procedures call for the creation of a manifest based on the number of MPNs ready to be sent or based on the time elapsed since the last manifest?

PLUS Promissory Notes Measurement Tool Report

Description

This report monitors your PLUS Promissory Note process for all active PLUS loan records and provides the promissory note status for each loan record. The PLUS Promissory Note listings are printed by Student's Name, PLUS Borrower's Name and Loan ID. Totals are provided for each PLUS Promissory Note Status.

In addition, this process includes receiving signed promissory notes from PLUS borrowers, updating EDEExpress with the date signed, then sending the signed notes with a manifest to the LOC. You determine an acceptable date range and enter this date range as the tolerance or school guideline. The process time is calculated and averaged over the number of records processed for the reporting period then compared to your school's tolerance. It is important to monitor this process carefully since LOC acceptance of the promissory note is a part of booking the loan.

At the time you select this report from EDEExpress you have the option to print just the exceptions (those outside the tolerance range) on the report, select a date range for the reporting period, print totals only, plus the standard sort and selection criteria. (Refer to the sample report on page B-11.)

Analysis Tips

Take note of the following:

- Number of Rejected PLUS Promissory Notes.
Is there a consistent error that can be corrected that is causing your notes to reject?
- Number of PLUS Promissory Notes ready to be printed.

Based on these numbers, is the frequency of your print schedules adequate?

If the PLUS Promissory Note report shows your process is performing outside of the school's tolerance, consider the following:

- How does the volume of notes affect your processing?
- What is the most efficient number of notes included on a manifest?
- Do your procedures call for creation of a manifest based on the number of notes ready to be sent or based on time elapsed since last manifest?

Status Measurement Tool Report

(Formerly the Booked Status Measurement Tool Report)

Description

This report provides a review of booked and unbooked records in the database within a specified disbursement date range. This information is separated into a booked section and an unbooked section. To be included in this report a loan record and at least one actual disbursement record must exist in the database. This report can be manually compared to the LOC data received in the Direct Loan School Account Statement. Before running this report make sure all booking notification acknowledgements have been imported. (Refer to the sample report on page B-15 and B-16.)

Analysis Tips

This report may be used to:

- Identify and resolve disbursement records with booking problems.

For example:

- This report lists disbursement records with all three status flags (origination, promissory note, and disbursement). If one or more of these status flags are not in an “A” status, the school needs to research and resolve those items so the disbursement record can book.
- This report can be used to compare EDEExpress Direct Loan data to LOC data received in the Direct Loan School Account Statement.
- Analyze the bottlenecks in processing.

For example, the report indicates a high percentage of records in a B (Batched) status. If a disbursement is in a B (Batched) status, it may mean the school forgot to transmit the batch or import the acknowledgement.

Direct Loan Volume Measurement Tool Report

Description

This report provides the volume of booked loans on your Direct Loan database by loan type, PLUS, subsidized and unsubsidized. A loan is booked when the LOC has accepted the loan origination record, promissory note, and first disbursement. These loans are identified with an “A” status (Accepted) in the status field for origination, promissory note, and first disbursement as well as the status of booked for the first disbursement. The detail section of the report lists the gross and net loan amounts.

When requesting this report from EDEXpress, you enter the reporting period date range, select a totals only option, use a standard sort, or use a selection option. The reporting period date range is based on the actual disbursement date for any disbursement number of the loan. Before running this report, make sure all DIOD acknowledgements from the LOC have been imported and processed by your system. (Refer to the sample report on page B-19.)

Analysis Tips

This report can be utilized as a Direct Loan status report for end of period accounting and financial aid projections. Information from this report can be used for:

- Comparison with the 30 Day Warning Report from the LOC
- Comparison of volume between Direct Loan types
- Comparison of Direct Loan against other loan programs
- Loan and budget projections for the next fiscal year

Disbursement Measurement Tool Report

Description

This report monitors the disbursement process by calculating and averaging the actual process time between disbursement dates and the date the actual disbursements are sent in a batch to the LOC. In addition, the days elapsed between the disbursement dates and the booked dates are monitored. The report compares the average number of days elapsed to your school's tolerances (or guidelines). Analysis of these results provides assistance with identifying possible bottlenecks or inefficiencies in your current process.

At the time you select this report from EDEExpress, you may enter the beginning and ending dates for the reporting period, select an option to print only those records that exceed the tolerances, or totals only, and the standard sort and selection criteria. You are provided the option to select the Booked Date Range, and when selected, only disbursements booked within that range display on the report. If you want to select records for the report based on a Disbursement Date range use the Disbursement Range query. (Refer to the sample report on page B-23.)

Analysis Tips

If the Disbursement report shows your process is performing outside of the set tolerances, you may want to consider the following:

Exceptions to tolerance from disbursement to batched

- Exceptions to this tolerance value indicate the LOC is not promptly notified of disbursements.
- For first disbursements, remember delays in posting first disbursements delay the initial contact the LOC makes with your students.
- For all disbursements, the booked status with the LOC may be affected since disbursements on your system would not be reflected on the LOC's system.

Exceptions to tolerance from disbursement to booked

- Exceptions to this tolerance value indicate disbursements are posted and exported to the LOC but not yet booked at the LOC.
 - Disbursement Booking Notification Acknowledgements may need to be imported.
 - Disbursement records that have been rejected by the LOC may need to be corrected and resent to the LOC.
 - MPN/PLUS Promissory Note may not yet be accepted by the LOC.

Disbursement Measurement Tool Report (Continued)

Days elapsed between the disbursement date and booked

- You should try to keep the days elapsed between the disbursement date and booked date to less than 30 days to ensure you are meeting the 30 day reporting requirement. If the days elapsed are greater than 30 days, you should determine the cause(s). You should also try to determine if there are any trends. The causes may be due to:
 - Promissory Notes not getting manifested or sent timely
 - Promissory Notes rejecting
 - Disbursement records not getting entered timely
 - Disbursements records not getting batched or transmitted timely
 - Disbursements records rejecting and rejects not getting resolved timely
 - Systems problems at the LOC or school
 - The Booking Notification not getting imported (records in this case would have an * by the Disb/Bked Days Elapsed field indicating that the current system date was used to calculate the days elapsed)

Anticipated Disbursements List Report

Description

This report provides a review of loans with an anticipated loan amount, with corresponding actual disbursements or with no actual disbursements. The report prints the Loan ID, Student's Name, PLUS Borrower's Name, Anticipated Disbursement and if requested Actual Disbursement Number(s), Types, and Dates. (Refer to the sample report on page B-26 and B-27.)

Analysis Tips

This report is a valuable tool for viewing a borrower's anticipated disbursements and anticipated disbursement dates versus a borrower's actual disbursement and disbursement date. The Total Net Anticipated Disbursement Amount can assist in making Drawdown Requests.

Loans List Report

Description

This report provides a listing of the details of each loan record on your database including Loan ID, Student's Name, PLUS Borrower's Name, Loan Origination Batch ID, Current SSN, Loan Type, Grade Level, Loan Amount Approved, Loan Amount Requested, Loan/Credit Status and Loan Origination Date. Sort options are available to print by SSN, Loan ID, or Last Name. You can print subtotals and totals or you have the option to print only totals. Also if you select the option to check annual subsidized/unsubsidized loan limits, any subsidized or unsubsidized loan in this category is asterisked with "May Exceed Annual Loan Limits." (Refer to the sample report on page B-34 and B-35.)

Analysis Tips

This report can be utilized to review the status of all loans for a given student and can be useful in determining a student's annual loan limit. The totals on this report allow you to compare the number of loans originated at your schools to the number of actual unduplicated loan borrowers.

School/LOC Loan Totals List Report

Description

This report compares the total net disbursement amount at your school to the total net disbursement amount at the Loan Origination Center. (Refer to the sample report on page B-38.)

Analysis Tips

Analysis of this report identifies discrepancies between actual disbursement records on file at your school versus actual disbursement records accepted at the LOC and may assist in the reconciliation process. This analysis identifies actual disbursement records that are on record at your school and may require further research to determine why these records are not yet accepted at the LOC.

Disclosure Statement (continued)

This Disclosure Statement provides information about the Direct Subsidized Loan and/or Direct Unsubsidized Loan that your school plans to disburse (pay out) by crediting your student account, paying you directly, or both. It replaces any Disclosure Statements that you may have received previously for the same loan(s). Keep this Disclosure Statement for your records.

You must have signed a Master Promissory Note (MPN) before your loan money is disbursed. The MPN, the Borrower's Rights and Responsibilities statement, and the Plain Language Disclosure explain the terms of your loan(s). If you have any questions about your MPN or this Disclosure Statement, contact your school.

Item 9 on the front of this Disclosure Statement provides the following information about the amount of each loan that your school plans to disburse to you:

- **Gross Loan Amount**--This is the total amount of the loan that you are borrowing. You will be responsible for repaying this amount.
- **Loan Fee Amount**--This is the amount of the fee that we charge on your loan. It is based on a percentage of your Gross Loan Amount. The percentage is shown in Item 8. The Loan Fee Amount will be subtracted from your Gross Loan Amount.
- **Interest Rebate Amount**-- This is the amount of an up-front interest rebate that you may receive as part of a program to encourage timely repayment of Direct Loans. If you receive a rebate, the Interest Rebate Amount will be added back after the Loan Fee Amount is subtracted.

To keep an up-front interest rebate that you receive on your loan, you must make all of your first 12 required monthly payments on time (we must receive each payment no later than 6 days after the due date) when you begin repaying your loan. You will lose the rebate if you do not make all of your first 12 required monthly payments on time. If you lose the rebate, we will add the Interest Rebate Amount back to the principal balance on your loan account.

- **Net Loan Amount**--This is the amount of your loan money that remains after the Loan Fee Amount is subtracted and the Interest Rebate Amount is added. Your school will disburse the Net Loan Amount to you by crediting your student account, paying you directly, or both.

Item 9 shows your school's plan for disbursing your Net Loan Amount to you. The actual disbursement dates and amounts may be different than the dates and amounts that are shown. Your school and the Direct Loan Servicing Center will notify you of the actual disbursement dates and amounts.

Before your loan money is disbursed, you may cancel all or part of your loan(s) at any time by notifying your school.

After your loan money is disbursed, there are two ways to cancel all or part of your loan(s):

- Within 14 days after the date your school notifies you that it has credited loan money to your student account, or by the first day of your school's payment period, whichever is later (your school can tell you the first day of the payment period), you may inform your school that you want to cancel all or part of the loan money that was credited to your account. Your school will return the cancelled loan amount to us. You do not have to pay interest or the loan fee on the part of your loan(s) that you tell your school to cancel within these timeframes. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you tell your school to cancel. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that was cancelled.

If you ask your school to cancel all or part of your loan(s) outside the timeframes described above, your school may process your cancellation request, but it is not required to do so.

- Within 120 days of the date your school disbursed your loan money (by crediting the loan money to your student account, paying it to you directly, or both), you may return all or part of your loan(s) to us. Contact the Direct Loan Servicing Center for guidance on how and where to return your loan money. You do not have to pay interest or the loan fee on the part of your loan(s) that you return within 120 days of the date that part of your loan(s) is disbursed. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you return. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that you return.

Direct Loans

William D. Ford Federal Direct Loan Program

William D. Ford Federal Direct Loan Program Direct Subsidized Loans and Direct Unsubsidized Loans Plain Language Disclosure

1. General Information – You are receiving a student loan to help you cover the costs of your education. This Plain Language Disclosure (Disclosure) summarizes information concerning your loan. Please read this Disclosure carefully. Throughout this Disclosure, the words “we,” “us,” and “our” refer to the U.S. Department of Education. If you have questions about your loan, contact our Direct Loan Servicing Center. The Direct Loan Servicing Center’s telephone number and address are shown on all of the correspondence you will receive related to your loan.

You must repay this loan, even if you are unhappy with your education, do not complete it, or cannot find work in your area of study. Borrow only the amount you need.

2. Master Promissory Note (MPN) – You are receiving a loan under an MPN that you signed previously. You may receive additional loans under that MPN for up to 10 years if you continue to attend school and if your school is authorized and chooses to make multiple loans under the same MPN. If your school is not authorized or chooses not to make multiple loans under the same MPN, or if you do not want to receive more than one loan under the same MPN, you must sign a new MPN for each loan. If you do not want to receive more than one loan under the same MPN, you must notify your school or the Direct Loan Servicing Center in writing.

3. Loan Terms and Conditions – This Disclosure summarizes information concerning your loan. Please refer to your MPN and the Borrower’s Rights and Responsibilities statement that you received previously for the complete terms and conditions of your loan. If you need another copy of the Borrower’s Rights and Responsibilities statement, contact the Direct Loan Servicing Center. Unless we tell you otherwise in this Disclosure, your MPN and the Borrower’s Rights and Responsibilities statement control the terms and conditions of your loan.

4. Maximum Loan Amounts – There are annual and total (aggregate) limits on the amount you may borrow, as explained in the Borrower’s Rights and Responsibilities statement that you received previously. The amount you borrow each year and in total cannot be more than these limits.

5. Use of Loan Money – You may use your loan money only to pay for educational expenses (for example, tuition, room, board, books) at the school that determined you were eligible to receive the loan.

6. Disbursement of Loan Money – Generally, your school will disburse (pay out) your loan money in more than one installment, usually at the beginning of each academic term (for example, at the beginning of each semester or quarter). If your school does not use academic terms, it will generally disburse your loan in at least two installments, one at the beginning of the period of study for which you are receiving the loan and one at the midpoint of that period of study. Your school may disburse your loan money by crediting it to your student account, or may give it to you directly by check or other means. The Direct Loan Servicing Center will notify you each time your school disburses a portion of your loan money.

7. Change of Status or Address – You must notify both your school and the Direct Loan Servicing Center if you:

- stop attending school,
- drop below half-time enrollment,
- change your address, or
- change your name (for example, maiden name to married name).

In addition, you must notify the Direct Loan Servicing Center if you:

- transfer from one school to another school,
- change employers or if your employer’s address or phone number changes,
- change your telephone number, or
- have any change in status that affects your loan (for example, if you received a deferment but no longer meet the eligibility requirements for that deferment).

8. Canceling Your Loan – Before your loan money is disbursed, you may cancel all or part of your loan at any time by notifying your school. After

your loan money is disbursed, there are two ways to cancel all or part of your loan:

- Within 14 days after the date your school notifies you that it has credited loan money to your student account, or by the first day of your school’s payment period, whichever is later (your school can tell you the first day of the payment period), you may inform your school that you want to cancel all or part of the loan money that was credited to your account. Your school will return the cancelled loan amount to us. You do not have to pay interest or the loan fee on the part of your loan(s) that you tell your school to cancel within these timeframes. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you tell your school to cancel. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that was cancelled.

If you ask your school to cancel all or part of your loan(s) outside the timeframes described above, your school may process your cancellation request, but it is not required to do so.

- Within 120 days of the date your school disbursed your loan money (by crediting the loan money to your student account, paying it to you directly, or both), you may return all or part of your loan(s) to us. Contact the Direct Loan Servicing Center for guidance on how and where to return your loan money. You do not have to pay interest or the loan fee on the part of your loan(s) that you return within 120 days of the date that part of your loan(s) is disbursed. If you received an up-front interest rebate on your loan(s), the rebate does not apply to the part of your loan(s) that you return. Your loan(s) will be adjusted to eliminate any interest, loan fee, and rebate amount that applies to the amount of the loan(s) that you return.

9. Loan Fee – We charge a loan fee on your loan of up to 4 percent of the principal amount of the loan. This fee will be subtracted from the loan amount that is disbursed to you. If you cancel or return all or part of your loan within 120 days of the date your loan money is disbursed, no loan fee will be charged on the amount that you cancel or return.

10. Interest – The interest rate on your loan is a variable rate which can change each year on July 1. As a result, your interest rate may change annually, but it will never be more than 8.25%. We will notify you of the interest rate formula and the actual interest rate for each loan that you receive.

We do not charge interest on Direct Subsidized Loans while you are attending school, during your grace period, and during deferment periods. We charge interest on Direct Subsidized Loans during all other periods (starting on the day after your grace period ends), including forbearance periods.

We charge interest on Direct Unsubsidized Loans during all periods. This includes periods while you are attending school, during your grace period, and during deferment and forbearance periods. Therefore, you will pay more interest on Direct Unsubsidized Loans than on Direct Subsidized Loans.

You are responsible for paying the interest on the unpaid amount of your loan during the periods described above. If you do not pay the interest, we will add it to the unpaid amount of your loan. This process is called capitalization. Capitalization increases the unpaid amount of your loan, and we will then charge interest on the increased amount.

11. Up-Front Interest Rebate – You may receive an up-front interest rebate on your loan as part of a program to encourage timely repayment of Direct Loans. The rebate will be equal to a percentage of the loan amount that you borrow. If you receive a rebate on your loan, the Direct Loan Servicing Center will send you more specific information.

To keep the up-front interest rebate that you receive on your loan, you must make all of your first 12 required monthly payments on time (we must receive each payment no later than 6 days after the due date) when your loan enters repayment after you leave school or drop below half-time status.

You will lose the rebate if you do not make all of your first 12 required monthly payments on time. If you lose the rebate, we will add the rebate amount back to the principal balance on your loan account.

12. Grace Period – You will receive a 6-month grace period that starts the day after you stop attending school or drop below half-time enrollment. You do not have to begin making payments on your loan until after your grace period ends.

13. Repayment – You must repay each loan that you receive according to the repayment schedule provided by the Direct Loan Servicing Center. You must begin repaying your loan after your grace period ends. The amount of time you have to repay your loan (the repayment period) will vary from 10 to 30 years, depending on the repayment plan that you choose and the total amount you have borrowed. You may choose one of the following repayment plans:

- Standard Repayment Plan
- Extended Repayment Plan
- Graduated Repayment Plan
- Income Contingent Repayment Plan

These plans are designed to give you flexibility in meeting your obligation to repay your loan. The Borrower's Rights and Responsibilities statement that you received previously explains the terms and conditions of each repayment plan. You may change repayment plans at any time after you have begun repaying your loan. You may make loan payments before they are due, or pay more than the amount due each month, without penalty. When you have fully repaid a loan, the Direct Loan Servicing Center does not have to send you the original MPN but may instead send you a letter telling you that you have paid off your loan. You should keep this letter in a safe place.

14. Late Charges and Collection Costs – We may require you to pay a late charge if you do not make any part of a payment within 30 days after it is due. We may also require you to pay other charges and fees involved in collecting your loan.

15. Deferment – After you have begun making payments, you may, if you meet certain requirements, receive a deferment that allows you to temporarily stop making payments on your loan. For example, you may receive a deferment while you are attending school at least half-time or for up to 3 years while you are unemployed. For a complete list of deferments, refer to the Borrower's Rights and Responsibilities statement that you received previously. To request a deferment, contact the Direct Loan Servicing Center.

We do not charge interest on Direct Subsidized Loans during deferment periods. However, we do charge interest on Direct Unsubsidized Loans during deferment periods.

16. Forbearance – A forbearance allows you to temporarily make smaller payments or temporarily stop making payments on your loan. If you cannot make your scheduled loan payments but do not qualify for a deferment, we may give you a forbearance. For example, we may give you a forbearance if you are temporarily unable to make scheduled loan payments because of financial hardship or illness. We may also give you a forbearance under other conditions as described in the Borrower's Rights and Responsibilities statement that you received previously. To request a forbearance, contact the Direct Loan Servicing Center.

We charge interest on both Direct Subsidized Loans and Direct Unsubsidized Loans during forbearance periods.

17. Loan Consolidation – You may consolidate (combine) all of your eligible federal education loans into one loan. Consolidating your loans gives you up to 30 years to pay them back and may lower your monthly payments. That may make it easier to repay your loans. However, because

you make payments for a longer period of time, you will pay more interest if you consolidate your loans. Contact the Direct Loan Servicing Center for more information about loan consolidation.

18. Loan Discharge – We will discharge (forgive) your loan if:

- we receive acceptable documentation that you died or became totally and permanently disabled,
- you cannot complete your course of study because your school closes, or
- your school falsely certified your eligibility to receive a loan.

We may also discharge your loan up to the amount of any refund that your school should have returned to us, but did not return. We will not automatically discharge your loan if you file for bankruptcy.

We may forgive up to \$5,000 of any loans you received after October 1, 1998 if you teach full-time for 5 consecutive years in certain low-income elementary and secondary schools and meet certain other qualifications, and if you did not owe a Direct Loan Program or Federal Family Education Loan Program loan as of October 1, 1998, or as of the date you obtain a loan after October 1, 1998. Contact the Direct Loan Servicing Center for specific eligibility requirements.

In some cases, you may not have to repay your loan if you claim, as a defense against repayment, that your school did something wrong or failed to do something that it should have done. You can make such a defense against repayment only if what your school did or did not do could result in legal action being taken against the school under state law. If you believe that you have a defense against repayment of your loan, contact the Direct Loan Servicing Center.

19. Credit Bureau Reporting – We will report information about your loan to one or more national credit bureaus. This information will include the disbursement dates, amount, and repayment status of your loan (for example, whether you are current or behind schedule in making payments).

20. Demand for Immediate Repayment – We will require you to immediately repay the entire unpaid amount of your loan (on your MPN this is called "acceleration") if you:

- receive loan money but do not enroll at least half-time at the school that certified your eligibility to receive the loan,
- use your loan money to pay for anything other than educational expenses at the school that determined you were eligible to receive the loan,
- make any false statement that causes you to receive a loan that you are not eligible to receive, or
- default on your loan.

21. Default – You are in default on your loan if you:

- do not repay the entire unpaid amount of your loan if we require you to do so,
- have not made a payment on your loan for at least 270 days, or
- do not comply with other terms and conditions of your loan, and we conclude that you no longer intend to honor your obligation to repay your loan.

If you default on your loan, we will report that fact to all national credit bureaus. We may sue you, take all or part of your federal tax refund, and/or garnish your wages so that your employer is required to send us part of your salary to pay off your loan. We will require you to pay reasonable collection fees and costs, plus court costs and attorney fees. You may face other serious consequences.
