## Printing ISIRs

The following information assists the institution or state agency in printing the data on a received Institutional Student Information Record (ISIR):

- Assumed Values
- Correction Flags
- Highlight Flags
- Rejected ISIRs
- Comments
- Field Types

### Printing Assumed Values

“Assumed Values” reflect suppositions the Central Processing System (CPS) has made in determining the applicant’s Expected Family Contribution (EFC). CPS makes assumptions when the applicant does not report certain information that is necessary for the EFC calculation or when the applicant reports inconsistent information. (Some unreported information will result in a rejected transaction rather than assumptions.) CPS uses the assumed value when calculating the EFC.

For certain fields, the only assumption CPS ever makes is zero so these assumption fields on the ISIR will contain zeros (for example, ISIR field 240, Assumed Student’s U.S. Tax Paid). On the ISIR, an asterisk (\*) will print to the left of the field title to indicate that the CPS made an assumption and the assumed value must print in place of the reported value.

If a field is both assumed and highlighted, an asterisk (\*) must be printed to the left of the field title. Positions 1370-1458 of the ISIR all contain CPS assumption fields.

## **Printing Correction Flags**

Correction Flags on the ISIR (positions 692-811 on the ISIR layout) indicate changes to FAFSA data processed by the CPS. Refer to the SAR/ISIR Correction Flags and Correction/Highlight Field Numbers table in section 4.

If a field was corrected on the current transaction, the correction flag will contain a value of 1. If a field was corrected on a previous transaction, the correction flag will contain a value of 2. All other correction flag fields will have a value of zero.

On the ISIR, a pound sign (#) must print to the right of the field variable that was corrected on the most current transaction, an at sign (@) must print to the right of the field variable that was corrected on a previous transaction.

Correction flags are cumulative (i.e., the flag will be carried on all subsequent transactions).

## **Printing Highlight Flags**

Highlight Flags on the ISIR (positions 812-931 on the ISIR layout) indicate data highlighted in bold face on the Student Aid Report (SAR), based on FAFSA data processed by the CPS. Refer to the SAR/ISIR Correction Flags and Correction/Highlight Field Numbers table in Section 4. These fields are highlighted and provide a comparison reference between the SAR question number and ISIR field positions.

Any field containing a highlight flag will have a value of 1. All other highlight flag fields have a value of zero.

On the ISIR, the letter 'h' must print to the left of the field title that was highlighted. If the field is both highlighted and assumed, an asterisk (\*) must print to the left of the field title.

## Rejected ISIRs

Applications and corrections submitted to CPS, regardless of the input type or source, can be rejected for incomplete, illogical, or inconsistent data.

An EFC will not be computed for a rejected application transaction. Transactions can be rejected for multiple reasons. Up to seven two-digit reject reason codes are carried on the ISIR.

The reject reason codes and resolution in response to each reject reason are described in a table in the Processing Codes/System Requirements Section.

## Comments

Up to 20 three-digit numbers can appear on the ISIR record, indicating which comments would appear on Part One of a SAR from any paper application processor.

Some comments contain critical information regarding the student's status. The comment text and associated three-digit comment codes appear in the Processing Codes/System Requirements Section.

## Field Types

Fields can contain one of three types of data: character, numeric (N), or signed numeric (S/N). All 9s in a field indicate that the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some S/N and N fields.

With signed numeric fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it would appear as 00350P. The following chart explains the conversion of the sign and the number:

### Signed Numeric Fields:

{	+0	E	+5	}	-0	N	-5
A	+1	F	+6	J	-1	O	-6
B	+2	G	+7	K	-2	P	-7
C	+3	H	+8	L	-3	Q	-8
D	+4	I	+9	M	-4	R	-9

**Note:** All signed fields will have an extra byte printed.

## Printing the ISIR

An ISIR must be printed according to the ED-specified format. You may develop your own software to print ISIRs. The ED-specified format and printing specifications are found on the following pages. One format is printed per selected applicant, regardless of the student's dependency status.

The printed ISIR is two pages. Specifications for printing the ISIR follow the format. For each relevant data element, the specifications identify how codes on the record should be translated for printing on the ISIR. For example, if the Student's Citizenship Status on the ISIR record equals 1, "U.S. CITIZEN" must be printed for Citizenship Status.

## Printing the Renewal FAFSA

Renewal Applications for Windows provides institutions with the ability to print Renewal FAFSAs for returning students based upon 2000-2001 Renewal FAFSA Data (RAD) received from the CPS. Institutions, however, may choose to develop their own software to print Renewal FAFSAs. EDEExpress does not provide the Renewal FAFSA print any longer.

The required format for the Renewal FAFSA are provided to software developers and are found at the conclusion of this section. Specifications for printing the Renewal FAFSA follow the format. For each relevant data element, the specifications identify how codes on the RAD record should be translated for printing on the Renewal FAFSA. For example, if the Student's Marital Status code on the RAD record equals 2, "MARRIED/REMARRIED" must be printed for the Student's Marital Status.

With two exceptions, all data printed on the Renewal FAFSA will originate from the RAD file requested by the user from the CPS. The institution must print (1) its own name and (2) the Federal School Code in the upper left corner of the first page of the Renewal FAFSA.

If an assumption was made during the 2000-2001 processing, the assumed value will be carried on the 2001-2002 RAD file and printed on the Renewal FAFSA.

There are 10 fields that can have an assumed value. Each of the 10 fields will have a one-position flag on the RAD record (positions 378-387). If a flag is set to 1, an asterisk (\*) must print to the left of the appropriate field value on the Renewal FAFSA, indicating the printed value was assumed. The 10 fields are noted on the print specifications that follow.

One format is printed per selected applicant, regardless of the student's dependency status.

The Renewal FAFSA is four pages in length. Pages one through three display RAD from 2000-2001 and collect updates for 2001-2002. Page four is the Certification and Signature page. An optional page five is available for a preparer's information.

Read this letter carefully and review each item on this Institutional Student Information Record (ISIR). You may submit corrections to the information by following the instructions given to you by your Financial Aid Administrator (FAA).

If all the information on this ISIR is correct, you may be eligible to receive a Federal Pell Grant and other federal student aid in 2001-2002. Your FAA will determine whether you meet all eligibility requirements to receive aid. The amount of aid will depend on the cost of attendance at your school, your enrollment status (full-time, three-quarter-time, half-time, or less than half-time), Congressional budget restrictions, and other factors.

HERE IS WHAT YOU NEED TO DO NOW: Review the information on this ISIR. If any of the information is incorrect, make corrections by following the instructions given to you by your FAA. IF ALL THE INFORMATION IS CORRECT, you do not need to submit the ISIR to the schools you listed. All schools listed will receive the information electronically.

As we indicated on your previous ISIR, your application has been selected for review in a process called verification. If you have not already been instructed, your school will instruct you to provide certain financial documents.

Your citizenship status has been confirmed by the Immigration and Naturalization Service (INS), and you meet the citizenship requirements for federal student aid.

Selective Service confirmed your registration or your exemption status.

Your application record was compared with the National Student Loan Data System (NSLDS). However, no financial aid history information was found for printing on your ISIR.

Page 1 of X  
OMB No. 1845-0001

READ THESE INSTRUCTIONS BEFORE YOU BEGIN.  
You can use this Renewal Application to apply for Federal student aid for 2001-2002. Or you can file your Renewal Application on the Internet at <http://www.fafsa.ed.gov> beginning January 2, 2001.

RHELLO I SUBRAMANIAN  
120 17<sup>th</sup> ST. S.W.CEDAR RAPIDS, IA 52444

Your 2000-2001 information is printed next to the questions. Use the spaces provided in the 2001-2002 column only if you need to write in new answers, or to correct information from 2000-2001. Questions with arrows require new answers.

**Print legibly, using capital letters and block numbers. Use black ink.  
Erase or white-out mistakes completely.**

**If an answer is zero, write in "0". If the question does not apply, leave it blank  
An asterisk (\*) next to a question number means we assumed an answer.**
