

# Appendix

---

## Overview

New for 2003-2004, we created an Appendix for this technical reference companion. This appendix will include all the tracking logs for each set of change pages as they are issued.

We will show new text additions in the change pages with ***bold italic*** text. Text deletions will be marked with ~~strikethrough~~.

The footer on each page of the section will change to reflect the month that the change was made. For example, if a change was made on page 1-12, all pages in section 1, will show the new month in the footer. Use the corresponding Tracking Log to see what was changed in that section during that period.

This Appendix contains the current and previous tracking logs for your reference.
